INAUGURAL ADDRESS BY HON. THOMAS S. BURGIN, MAYOR
MONDAY, JANUARY 4, 1937

Gentlemen of the City Council:

In accordance with the provisions of our City Charter, we have assembled here today for the purpose of inaugurating the forty-ninth year of Quincy's municipal life. Before proceeding with our duties as members of both the executive and legislative branches of the government, let us be mindful and appreciative of the service of those men who have preceded us in our work during the past forty-eight years and through whose judgment and foresight Quincy has grown from a comparatively small town to be one of the most progressive municipalities in the State of Massachusetts. We must, therefore, take up our responsibilities in a manner befitting the traditions of the past and meriting the confidence which the people of Quincy have placed in us for the future.

Our deliberations will determine to a great degree the financial and economic policies of the city government. They should be conducted along cooperative lines and with the ultimate view in mind of giving our fellow citizens an intelligent and comprehensive program of municipal administration. The appropriation of every tax dollar will come under the province of your body, while the expenditure of those funds will rest within the authority of the executive and his department heads. I have instructed each of these men to furnish such information as may be helpful to you regarding the policies of and the expenditures in his particular department. The relationship between the Mayor and Council members must reflect a spirit of harmony and cooperation in order to bring about the best results for good government. This I pledge to you.

With general conditions still below normal, although definitely improved over a year ago, we must carefully weigh those problems that will arise during the current year such as education, taxation, reduction of the city debt, wise and practical expenditure of city funds, unemployment, future planning for the growth and development of Quincy, and last but by no means least, the protection of the life, health and property of our citizens.

It is customary at this first meeting of the Council for the Mayor to give a brief resumé of the present financial condition of the city, to review the accomplishments of the past year and outline his plans and recommendations for the current year. This I propose to do as briefly as possible and with the thought in mind that whatever may not be covered in this address will be included in the city report which, after being printed, will be forwarded to you. Let us, therefore, take up these matters in the same order I have listed them.

PRESENT FINANCIAL CONDITION

As of December 31, 1936, our bonded indebtedness stood at \$5,115,000, including not only debt incurred in past years for such purposes as school buildings, streets, sidewalks, sewers, water extension, etc., but also loans on tax titles. The latter now stand at \$431,000, as compared to \$494,000 at the end of 1935 and with a peak figure of over \$600,000 previous to that time. I see no reason why our tax title loans will involve any additional ex-

pense to the taxpayer, as it appears that they will ultimately be retired entirely out of the redemption of tax titles.

Comparing the present total debt with the debt of a year ago, it will be noted that the net reduction in the last twelve months amounts to \$180,500. It had been anticipated that this figure would reach the total of \$200,000 which has been the amount, frequently expressed by me as the desired net reduction per year of our indebtedness. Our tax title reduction came within \$3,500 of the estimate on this type of loan. The remaining difference of \$16,000 represents a note issued in anticipation of a federal grant on our P. W. A. sewer project, now completed and accepted. This grant money has not been received, and in consequence the debt incurred in anticipation of its payment still remains outstanding, but should be paid off shortly. Even with this unforeseen delay, however, in making possible a further reduction in the total debt for 1936 it should be noted that since June 30, 1935, shortly after I assumed the Mayor's duties, our total debt has been reduced well over \$300,000, which for the year and a half is a better average than the \$200,000 annual reduction I had planned.

Looking to the year 1937 it should be noted that our scheduled long term bonded debt retirements will total \$866,500, to which should be added an amount for the further anticipated reduction of tax title loans. If the latter are reduced only by the same net amount as they were in 1936, total debt retirements will be over \$928,000. In accordance with my plans, the borrowings for the year 1937 will amount to approximately \$650,000, which should provide the usual amount of funds for our normal construction program for the Public Works Department, including the highway, sewer and water divisions and an estimated requirement as the city's share in the construction of a new Fire Department and Fire Alarm Headquarters. Also included in this amount are relief loans, if such a type of financing is authorized by an act of the 1937 legislature and if figured on the same basis as last year, would require approximately \$260,000. I have not, however, included any estimate for borrowings in the event that the city should acquire, through a taking, the public parking space now being rented. This is a matter of special importance and to which I shall refer later in my address.

With estimated borrowings as outlined of \$650,000 and estimated retirements of \$928,000, it may be seen that there can be a net reduction of approximately \$278,000 for the year. In conformity with my plan of a net debt reduction of \$200,000 per year, there will be a margin, as you can see, of \$78,000, which may be used in the event that emergencies arise requiring borrowings other than those anticipated in my previous statement or if we use this amount for the acquisition of parking lands.

It is of importance to you that special notice be taken of the program as outlined insofar as it relates to funding a portion of our relief expenditures along the same lines that have been pursued in recent years, if such procedure is made possible by the State Legislature. As has been shown in my previous figures, including borrowings for these relief purposes, a substantial reduction may be made in the debt of the city. The importance to our taxpayers of having such borrowings authorized for relief purposes again this year must not be overlooked. While I believe and hope that loans of this character will be substantially less than the 1936 borrowings of \$260,000, it should be borne in mind that if a similar amount had to be provided solely from

taxation it would involve an increase in the current year's tax rate of over two dollars which, perfectly obviously, could not be offset by the greatest economies possible in other directions.

I shall plan to present the annual appropriation order to you for consideration in about thirty days, which is considerably earlier than usual. This should enable us to prepare our entire financial policy for the year very much in advance of previous years.

PUBLIC WORKS DEPARTMENT

1936 Construction—General Comments

During the year 1936 there have been many accomplishments in the line of construction. Since most of these were done through this department under the direction of the Commissioner, Mr. Sargent, I shall include them here before going into detail concerning other divisions of the Public Works Department.

The planned program for the year which I presented to the members of the Council on January 6, 1936, has been closely followed during the past twelve months. Perhaps the outstanding construction work has been the building of the North Senior High School Addition, completing one of the finest Junior and Senior High School Buildings in the State.

The Municipal Garage, housing equipment of the various divisions of the Public Works Department, is now a reality and in use, thus giving added efficiency to the operation of the department. The new sand bin, constructed directly in the back of the municipal garage, has been completed. By the construction of the added unit, a great deal of time will be saved in the loading of trucks with sand during the winter snow and ice storms. Heretofore this work has all been done by hand operation from piles of sand, sometimes frozen, located directly back of the City Stable.

It will be only a short time before the new Administration Building at the Quincy City Hospital will be dedicated and turned over by the Commissioner to the Board of Managers for immediate use as the final step in replacing the old and unsafe wooden buildings on the hospital grounds.

For both the City Garage and this Hospital Building we are appreciative of the assistance from the federal government through an outright grant of 45%. Under this arrangement our taxpayers have received full value at approximately 55% of the cost.

The elimination of the Quincy Adams Grade Crossing has been completed this year, thus removing one of the most dangerous spots on the entire south shore. Appropriations for this work were made entirely by the federal government, and the municipality cooperated by making the necessary changes effected by this new construction. I gratefully acknowledge the assistance rendered by the federal government and the help given by every person taking part in our long but successful efforts for this improvement.

Through normal city appropriations many miles of streets have been either built or rebuilt during the past year. Perhaps the most beneficial accomplishment along this line for our citizens as a whole and the thousands of people coming here to shop was the resurfacing of Hancock Street from City Hall to School Street and the covering of the unused tracks of the Eastern Massachusetts Street Railway Company along the route. The general appearance of our principal business highway has been noticeably improved. School and Franklin Streets have been rebuilt,

and this, together with the work done in 1935 on Independence Avenue, gives us a fine wide street without tracks, from the Braintree line directly to Quincy Square. Beneficial street work has been done in every section of the city, and a detailed list of these will be included in the annual city report.

The completion and acceptance of the new sewer under Docket No. 2051 P. W. A. will serve many sections of the city heretofore without this necessity for public health. I trust that as many property owners as possible along these sewer lines will make the necessary application for their house connections to the main sewer.

In our water division of the Public Works Department we have completed the new two million gallon storage tank on Cranch Hill, fulfilling all of our requirements for storage capacity in the city for many years to come. The National Board of Fire Underwriters have just completed their survey in Quincy. A comprehensive report of the water system and the improvements made therein will be included in the summary they will submit within the next two months. I trust that upon its receipt you gentlemen will carefully study it. I shall use every effort of mine toward the immediate enlargement of the Metropolitan District Commission Water Mains leading into Quincy from the source of supply. This should take care of any shortage of water during the extremely hot weather.

Much construction has been done under the W. P. A. program during the past year. The extensive work on Faxon Park is well under way and should be completed in 1937. Edgewater Drive and the Sea Wall at Houghs Neck need only the final grading and building of the street to put them in public use. Approximately fifty unaccepted streets under authorization of the federal government have been subgraded and in many instances tarred and sanded. O'Neil Field in North Quincy has been drained, filled and graded for use as a baseball field. Adjoining this property is the new so-called North Quincy High Athletic Field, which needs only a small amount of finishing work, including the erecting of a seven-foot chain link fence entirely around the property to make it complete and ready for the football season of 1937. Many of our public buildings have been entirely repaired, repainted and rewired under this W. P. A. program at a great saving to the taxpayers of Quincy. Another valuable piece of construction work was the erection of a granite wall around the northerly side of the Mount Wollaston Cemetery and the enlargement of the available space for cemetery purposes east of that portion already developed. Granite for practically all of these projects was quarried by W. P. A. labor at no cost to the city other than the rental charge for the use of the quarry and equipment.

Highway, Sewer and Water Divisions

The work in these divisions of the Public Works Department for 1937 will be very much the same as in the year 1936. We anticipate some new extensions in the Sewer Division and Water Division, and the rebuilding of several streets throughout the city under the direction of the Highway Division. It is also hoped that a sidewalk program will be made possible through the Annual Appropriation Order.

Cemetery Division

I recommend that serious consideration be given to the consolidation of our Public Cemeteries and Parks, as is done in many

other cities, including Boston. By the vote of a previous City Council, the Cemetery Department, heretofore a separate unit, was placed under the direction of the Commissioner of Public Works. As his duties without this added responsibility require all of his time, I believe that it would be to the distinct advantage of our citizens if our cemeteries and parks could be united under one head, which should make a far better arrangement.

This, of course, would require Council action in a change of Ordinance. Perhaps some better arrangement than the one suggested here may be worked out by the Mayor and your Ordinance Committee if an opportunity is presented for a conference.

W. P. A. Division

I must pause here to officially record the death of George E. Pfaffman, W. P. A. Administrator in Quincy for many months. In his passing our city suffered a distinct loss, and his fine work will always stand as a memorial to a true Christian gentleman.

Under the direction of Mr. Venna and his Assistant, Mr. Duggan, the work of our W. P. A. program has continued along very satisfactorily. The 1937 plans are almost completely worked out and will be presented to you at the time the Council is called upon to appropriate the city's contribution as its part of the federal relief work. Reference to special projects will be made later in my address.

May I respectfully request that you gentlemen review carefully the splendid work that has been done in Quincy for the past year under the W. P. A. program, which will be compiled and included in the annual city report.

WELFARE DEPARTMENT

The maintenance costs of this department for 1936, although lower than in 1935, can, in my opinion, be reduced even further without inflicting any undue hardships, providing that the Federal relief programs are continued and that employment on these projects include more city welfare recipients. Our largest expenditure is for what we call "Outside Aid." In my remarks to the Council a year ago, I stated that the Commissioner was then using every effort to reduce the cost of this division through a closer check-up by the visitors on welfare recipients. This has been done, and it may be of interest to note that the expenditures for Outside Aid in 1936 were about \$100,000 lower than in 1935. In view of the fact that receipts from the federal government W. P. A. program for labor only were less than the receipts from E. R. A. in 1935 for the same purposes, I feel that this is a most creditable showing.

"Old Age Assistance", however, has increased materially, due to the lowering of the age limit by the State Government from 70 to 65 years.

"Mothers' Aid" showed an increase this past year due to our policy of giving relief to broken homes where the father has either died or is not living with his family, through cash rather than through script, as under the Outside Aid plan. It should be remembered that under both Mothers' Aid and Old Age Assistance the city receives a substantial percentage of its expenditures back from either the State or the Federal Government.

Settlements with many other cities and towns have been effected during the past year, and it was on December 31, 1936, that the Commissioner advised me that all deficit bills with all cities and towns in the Commonwealth with the exception of

Boston had been settled. Some of those bills have been in dispute for several years. With a clean slate we start the year 1937, with all deficit bills from cities and towns except Boston paid up to January 1, 1936. Current bills for the year 1936 will, of course, be paid during 1937.

I have instructed the Commissioner to continue his investigations in their work of resurveying "case histories", in order that any changes of status may be observed and recorded, so that insofar as possible only those in need will receive municipal welfare aid.

QUINCY CITY HOSPITAL

I am very much pleased at the splendid work being done in this department by the Board of Managers, the Superintendent, and his staff, together with the medical staff. The apparent cooperation is most helpful in the development of our hospital to be one of the best for its size in the state. The new Administration Building will greatly increase the efficient operation of the hospital and will fill a long anticipated need. Detailed information of this department's work during the past year will be furnished in the annual report of the Board of Managers.

SCHOOL DEPARTMENT

During the past year I have endeavored to cooperate with the members of the School Committee in every possible way. Without question the report of this committee will cover in detail the developments and improvements in the system far better than any words of mine at this time.

PROTECTION OF LIFE AND PROPERTY

POLICE DEPARTMENT

Under the leadership of the new Chief, I feel certain from observations made that our Police Department has a splendid future ahead of it. Many changes have already been put into effect to improve the workings of the department, and from general comments heard the efficiency has been greatly increased. There are two recommendations I should like to see carried out during the year 1937.

The first pertains to the enlargement of the present garage at the Police Station through a W. P. A. project. Under the proposed plans now nearly completed, an additional story would be added over the present garage, giving about double the floor area and allowing an entrance on the Sea Street level of the property. Due to the fact that we are now using radio equipped prowler cars, the facilities of the present garage seem to be somewhat overtaxed.

The second recommendation pertains to the enforcement of the liquor laws in this city. While the enforcement of these laws may be a function of the Alcoholic Beverage Commission of the Commonwealth, still I feel that the city cannot evade its responsibility to its citizens by refusing to direct its special attention to the enforcement of the various safeguards about this business. I recommend that a sufficient appropriation be made to permit the Police Department to assist the License Commissioners in procuring a strict enforcement of the liquor license requirements, especially insofar as it affects the sale of liquor in any form to minors.

The photography division of this department seems to me to be one which should be substantially developed. It can be of material service to many departments of the city, especially the

Law Department, and I recommend that the Chief give consideration to the inclusion of a sufficient amount to bring this work up to the necessary standard.

FIRE DEPARTMENT

The progress made in this branch of public safety during the past year has been decidedly to the advantage of our people in every section of the city. I publicly commend the officers and men for their cooperation in my efforts to develop fire protection and fire prevention along the lines as recommended by both the National Board of Fire Underwriters and the New England Fire Insurance Exchange. Much has been already done, yet in order to get the greatest value for the money spent in this work, we must follow through with a planned program. During the last twelve months three new 750-gallon pumping engines have been commissioned to replace the eighteen-year-old engines of lesser capacity in West Quincy, Houghs Neck and Quincy Point; a regular drill school has been established; all office records have been thoroughly modernized through a card index system; a fire prevention bureau with systematic inspections of all business properties has been put into operation.

The stations in Atlantic and Wollaston have been completely repaired through the use of W. P. A. labor. Police radio for the receipt of fire alarms while on the road has been installed in both the Chief's and Deputy Chief's cars, and has more than justified its installation cost. The apparatus in every station is now in the best mechanical condition in the city's history. I recommend your immediate consideration to amend the Fire Department Ordinance so that a mechanic may be provided in this department for full time work. Quincy is one of the very few cities of the state now operating its Fire Department without such a mechanic, and I feel sure in reviewing the large expenditures of the city for the last few years on repair and maintenance charges through private garage men, that a substantial saving would be made if there was a mechanic permanently employed in the department. The need of properly checking and keeping our equipment, worth close to \$100,000, in repair would be an investment far exceeding the cost under the present system.

I recommend for your immediate consideration the construction of a new Fire Department Headquarters, including the Fire Alarm Division. This is absolutely essential as the present building, now over forty years old, is in a dangerous condition and entirely inadequate to accommodate the seventeen men on each platoon who are stationed there. I shall submit to the Council an order providing funds by the city, and make a request from the federal government for a 45% P. W. A. grant for this new Fire Department Headquarters, which should be located on the present Quincy Avenue site. The property just south of our land should be acquired by the city to give a 200 foot frontage on Quincy Avenue, with a depth of 100 feet, allowing sufficient area for the new fire alarm building, central station, and the drill tower. I now have preliminary plans and sketches upon which estimates will be based in my request for the federal grant. The advantage to our citizens in doing this construction under a federal grant of 45% of the entire cost cannot be overlooked. It will mean a direct saving of between sixty-five and seventy thousand dollars.

I recommend to you gentlemen that Ordinance Number One, establishing the Fire Department, be amended by striking out the

words "two Captains and twelve Lieutenants" and adding in their place "eleven Captains and ten Lieutenants". This change, suggested by both the National Board of Fire Underwriters and the New England Fire Insurance Exchange, will give a superior officer to every company in the city, with two exceptions, and the added cost to the taxpayers per year will be about equivalent to the salary of one additional man in the department. The eleventh Captain, in accordance with the Board's recommendations, will be assigned to devote his entire time as head of the Fire Prevention Bureau, and the importance of this work cannot be overestimated. I am advised that it will not be necessary to fill by new men any vacancies in the department caused by the promotion of officers, as the man power will be the same as at present, but each engine company, hose one, and three ladder companies will be properly organized with a superior officer as recommended. If this change is made immediately, before the report of the National Board is printed, I feel sure that credit will be allowed.

GENERAL COMMENTS

City Planning

There are certain matters not previously referred to in this address which I believe are subjects of importance to you and our fellow citizens. Inasmuch as time will not permit me to go into detail concerning these, I shall briefly mention them so that you may have the opportunity of giving them your consideration prior to the time that they are presented for official action by the City Council.

Public Parking Space

I recommend that the city acquire this year the parking space now being rented, plus a forty-foot passageway connecting with the city-owned parking space on Granite Street.

According to present assessments, the land owned by the Hia-Pearl Corporation (formerly known as Edwards Meadows) containing 227,383 square feet, is valued by the city at \$56,000. In order to obtain the forty-foot passageway, it will necessitate the taking of approximately 4,000 square feet of land from the Estate of Henry L. Kincaide, which area, according to present assessed values, would be worth about \$2,400. Also approximately 1400 square feet would be taken from the property owned by the Granite Trust Company as Trustees for Napoleon J. Guay. The cost of this taking, again using present assessed values, would be just under \$1,000. The total valuation of these proposed takings, including the three parcels, would therefore be about \$60,000, and could be financed this year.

The amount necessary to legalize a loan for this purpose will be included in the budget to be later submitted for your consideration, even though it means an item of 25c per thousand on the city tax rate, which it may not be possible to offset entirely by other factors in the calculation.

Merrymount Park Development

A topographical survey of this, our largest park in the city, has now been completed under a W. P. A. project. In past years I find that there has never been any comprehensive plan drawn up for the future beautification and development of this beautiful park. It seems advisable that the city should look to the future and in connection with the present survey that we have had made under W. P. A., engage the services of a recognized landscape architect who would produce a proper development plan under

which each year for the next ten years certain improvements could be made without any great expenditure of funds. The manner of improving this park in the past seems to have been done entirely without any definite plan to which reference might be made.

Playgrounds

I shall recommend that W. P. A. projects be prepared to improve our existing playgrounds in each section of the city, believing that they are of vital importance for the proper care of our children of school age during the summer months. The Park Commissioners have a definite program for this work, and they, together with those in charge of W. P. A. activities in Quincy for 1937, will soon have the completed plans ready for submission as Federal Government W. P. A. Projects. Provision must be made for a permanent skating rink in Squantum, as this section of the city is far removed from any possibility of flooding areas through the damming up of brooks as is done in other districts. This will be included in the program for this year. The city-owned property known as Manet Lake in Houghs Neck will also be prepared for a suitable skating rink in that section.

Municipal Stadium

Inasmuch as the School Committee of 1936 failed to accept the provisions of the Special Act of our State Legislature turning the control of the land known as Pfaffman Oval over to them for the purpose of allowing admissions to be charged for school athletic contests, I believe that no more time should be wasted through delay in this important development plan. I therefore recommend that the 1937 City Council make provisions for the necessary \$24,000 as the municipality's cost of the proposed stadium project under W. P. A. authorization. If such is the case, I can direct the Commissioner of Public Works to have the stadium built for use by all citizens of Quincy as well as by the schools. This, of course, will eliminate the School Committee having any authority for charging direct admissions, and control of the stadium would then be under the jurisdiction of the Park Board as at present.

There is no question but what the public are entitled to at least one Central Municipal Stadium, and I feel sure that the improvement will fill a long needed want in Quincy.

New City Hall

The need for such a building in our city is without question. The location and proper manner of financing is something that has been discussed on many occasions during the past twenty years and insofar as I am able to ascertain, there are no definite recommendations available for consideration by this Council. Let the 1937 Council, therefore, take a progressive and cooperative stand with the executive on this matter, having in view the future development of our city, and the immediate relief from inefficient and overcrowded conditions.

I recommend that under joint authorization of the Mayor and Council an unpaid commission be appointed to thoroughly study this new City Hall subject and make a written report not later than September 15th, 1937, so, if deemed advisable, the question of erecting such a building in 1938 or in the next year may be properly prepared and put on the ballot at the municipal election in 1937. In my opinion the commission should be created in this manner—one member of the Council to be appointed by the President; two

members of the Board of Directors of the Chamber of Commerce to be elected by said board; two members of the Board of Directors of the Quincy Taxpayers Association to be elected by said board and two citizens to be appointed by the Mayor. A nominal sum of money—not exceeding \$250, should be set aside in the 1937 appropriation order for incidental expenses such as typing, stationery, postage, etc. I will appreciate an opportunity of further discussing this matter with you gentlemen at a later date, so that a definite discussion may be made on my recommendations herewith.

IN CONCLUSION

I have endeavored to outline in this address some of the more important matters that will later be presented to you for consideration. While immediate action may not be deemed advisable on all of them it is well that they be reviewed at this the beginning of our year's work.

The successful operation of any government requires a progressive forward looking policy; the laying of ground work for future progress and the carrying out of plans for enactment of present requirements. Under such an arrangement the results are bound to be for the best interest of the taxpayers and should assist materially in keeping their tax assessments at the minimum without impairing the normal and efficient operation of their municipal services.

I should like to take this opportunity of gratefully acknowledging the honor of my re-election and to assure the people of Quincy that I shall respect the confidence they have again placed in me.

Let all of us, as elected officials, together with every person holding an appointive position in the city government remember that to hold public office is to hold public trust. The only way this or any other government can inspire confidence and respect is in the manner with which its officials assume their duties and carry out their assignments.

Today we face a new year—a year of opportunities in the growth of our city, state and country. Let us again renew our hopes for the future and with sincere faith in Almighty God dedicate ourselves to the service of those we have the honor of representing.

Thank you.

The regular meetings of the School Committee are held at 7:30 o'clock P.M. on the last Tuesday of each month except July.

REPORT OF THE AUDITOR

MARCH 1, 1937.

To His Honor the Mayor and the City Council:

In accordance with the requirements of the City Ordinances, I herewith submit the annual report of the financial transactions of the City of Quincy for the year ending December 31, 1936, including detailed departmental expense schedules as reported by the several departments, together with a balance sheet showing the condition of the city as of that date.

During 1936, upon the recommendation of the Director of Accounts of the Commonwealth, this office conducted the audit necessary upon the termination of the incumbency of Nathan G. Nickerson as Tax Collector. This procedure was most unusual, such audits being customarily made by employees of the State Division of Accounts. Additional clerks were temporarily employed for the purpose. If the staff of the Auditor's office were enlarged to permit of continuous detailed audit of all departments, it would undoubtedly result in a material reduction of the cost of the periodic State audits with the probability, even, that there would be a net saving to the City, in addition to the benefit to be gained from the more frequent audit of all accounts.

In compliance with Section 50, Chapter 41 of the General Laws, there is appended a certificate under oath with reference to the verification of cash balances in the hands of the City Treasurer and various trustees having custody of funds.

Respectfully submitted,

GEORGE H. BONSTALL,

Auditor of Accounts.

I hereby certify that I have verified, by actual count of the cash and by reconciliation of bank balances, the cash of the City Treasurer, the Board of Managers of the Adams Temple and School Fund, the Board of Managers of the Woodward Fund and Property, and the Trustees of the Thomas Crane Public Library.

GEORGE H. BONSTALL,

Auditor of Accounts.

Sworn to before me this 3rd day of March, 1937.

HATTIEMAY THOMAS,

Notary Public.

IN COUNCIL

Order No. 91

FEBRUARY 17, 1936.

Ordered:

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1936 and ending December 31, 1936, to be expended by and under the direction of the several officers or boards as herein designated.

MUNICIPAL FINANCES ILLUSTRATED

The following diagram shows how the revenue of 1936, derived from taxes and ordinary receipts excluding all money borrowed, is expended.

Giving effect to receipts applicable to the various departments, based upon the schedules of the State Division of Accounts, and allocating debt service on buildings used for school and hospital purposes, the following table shows the percentage of each dollar raised by taxation as compared with the percentages listed above:

	Adjusted Unadjusted	
General Government	4.1	3.8
Protection of Life & Property	13.3	11.6
Health & Sanitation	5.9	5.8
Highway	10.1	8.8
Charities	5.5	9.4
Schools	32.8	22.7
Library	1.3	1.2
Hospital	5.0	7.0
Unclassified	2.5	2.6
Debt & Interest	8.1	17.3
State	8.2	7.1
County	3.2	2.7
	<u>100.</u>	<u>100.</u>

General Government includes offices in City Hall. Protection of Persons and Property includes Police, Fire, Gypsy Moth, Sealer of Weights, Building Inspector and Wire Inspector. Highway includes Maintenance, Repairs and Street Lighting. Charities includes expenditures of the City in connection with Federal Relief Projects. Unclassified includes Parks, Cemeteries and Miscellaneous. State includes Metropolitan Assessments.

GEORGE H. BONSALE,
Auditor of Accounts.

REPORT OF THE QUINCY RETIREMENT BOARD

FEBRUARY 25, 1937.

To the HONORABLE THOMAS S. BURGIN, Mayor:

Pursuant to the provisions of Chapter 152 of the Acts of 1934, the Quincy Retirement Board submits its second Annual Report, being for the year ended December 31, 1936, with appended tables setting forth the financial and statistical results.

During the year, sixty-one new members were enrolled and, as was to be expected, practically all of these were without prior service. Addition of members with prior service credit will continue to be a possibility until the close of 1939, but a further increase of the liability to the City on account of prior service credits is doubtful. The probability is that any liability on account of further additions to such membership would be offset by withdrawals as occurred in 1936.

The return on the average funds of the System during the year exceeded 4% by the sum of \$260.52. In accordance with the provisions of the Act creating the System, this amount has been certified as a reduction in the amount to be appropriated by the City for the benefit of the Retirement System during the year 1937.

Respectfully submitted,

GEORGE H. BONSTALL,
JOHN J. KEEFE,
J. EVERETT ROBBIE,
Quincy Retirement Board.

TABLE X
Valuation Balance Sheet Showing the Assets and Liabilities
of the Funds of the Quincy Retirement System
as of June 30, 1936

ASSETS

Annuity Savings Fund	\$19,673
Annuity Reserve Fund	83
Pension Reserve Fund	0
Pension Accumulation Fund	26,177
<hr/>	
Total Present Assets	\$45,933
Present value of the prospective contributions payable by the City into the Pension Accumulation Fund	234,269
<hr/>	
Total Assets	<u><u>\$280,202</u></u>

LIABILITIES

Present value of benefits on account of which contributions have been paid by members into the Annuity Savings Fund	\$19,673
Present value of benefits payable on account of beneficiaries or their dependents now drawing annuities from the Annuity Reserve Fund	86
Present value of benefits payable on account of beneficiaries or their dependents now drawing pensions from the Pension Reserve Fund	0
Present value of benefits payable on account of beneficiaries or their dependents now drawing pensions from the Pension Accumulation Fund	9,617
Present value of benefits to members with prior service credit to be paid by contributions of the City into the Pension Accumulation Fund	232,588
Present value of benefits to new entrants to be paid by con- tributions of the City into the Pension Accumulation Fund	18,238
<hr/>	
<u><u>\$280,202</u></u>	

No account is taken of the future contributions of members into the Annuity Savings Fund because the benefits provided by these contributions are exactly equal to the accumulated amount of the contributions and therefore they do not affect the balance in the fund.

REPORT OF THE BOARD OF ASSESSORS

JANUARY 1, 1937.

HON. THOMAS S. BURGIN, *Mayor*:
Quincy, Massachusetts

RALPH G. MESSENGER,

Collector of Taxes.

REPORT OF DEPARTMENT OF HEALTH

JANUARY 1, 1937.

HON. THOMAS S. BURGIN, *Mayor*.

Dear Sir:

Basing the report of the Health Department on the scoring of the Health Appraisal Form, I respectfully submit the following:

Our total weighted score for the year 1936 is 798.5; the highest that this department has attained since its activities were scored; the best previous score was in 1927 when a score of 797 was reached. A perfect score would total 1000.

Following are the annual scores from 1926 to date:

Year	Total Score
1926	771
1927	797
1928	712
1929	746
1930	No scoring done
1931	No scoring done
1932	612.40
1933	714.20
1934	778.00
1935	783.80
1936	798.5

APPRAISAL—1936

	Weighted Score Attained	Possible Weighted Score
I Common Services		
a. Vital Statistics	45.00	45
b. Laboratory	50.40	60
II Preventable Disease Activities		
a. Acute Communicable Diseases ..	128.65	155
b. Venereal Diseases	43.55	65
c. Tuberculosis	81.00	90

III Activities for the Promotion of Hygiene of the Individual

a. Maternity Hygiene	72.90	90
b. (1) Infant Hygiene	90.00	90
(2) Pre-school Hygiene	51.30	90
c. School Hygiene	84.70	110

IV Sanitation Activities

a. General Sanitation	52.00	80
b. Food and Milk	69.00	75
		<hr/>
Total	768.5	950
Additional Credit—Balanced Program	30.	50
		<hr/>
Grand Total	798.5	1000

I COMMON SERVICES

A. Vital Statistics. Again this year as for several years, we have a full score on this item.

B. Laboratory. A gain of approximately four points was made in this division, due to a greater number of specimens taken per tuberculosis death. This result was not attained on account of any great increase in the number of specimens, but by a marked decrease in tuberculosis deaths. Additional points were obtained by increased specimens of milk showing a count of less than 50,000 taken from distributing plants.

II PREVENTABLE DISEASE ACTIVITIES

A. Acute Communicable Diseases. There was a small loss in this item due entirely to a smaller proportion of the reported Scarlet Fever cases being hospitalized and the one diphtheria case reported not being hospitalized.

B. Venereal Diseases. A slight increase was earned here, due to a very moderate increase of cases reported and to the proper distribution of instructive pamphlets relative to the diseases.

C. Tuberculosis Control. Another small loss was scored in this item due to two causes. First, on account of a drop in the ratio of visits to clinics and physicians, to the number of patients registered and secondly for the drop in the number of new cases reported in ratio to deaths.

III ACTIVITIES FOR THE PROMOTION OF HYGIENE OF THE INDIVIDUAL

A. Maternity Hygiene. This item shows a small fractional increase due to a small increase in visits to and in behalf of post-partum cases.

- B. (1) **Infant Hygiene.** This activity again secured a full score.
- B. (2) **Pre-school Hygiene.** For this work a small gain is noted due to a gain of children from 1 to 5 years registered at conferences, private physicians and nursing service.
- C. **School Hygiene** remains approximately unchanged.

IV SANITATION ACTIVITIES

A. **General Sanitation** shows an increase of four points, due to increased inspections and distribution of literature.

B. **Food and Milk Control** shows a gain of a little more than one point, credited because of the increased percentage of pasteurized milk distributed in Quincy.

* * * *

Generally speaking, with the exception of the measles epidemic which started the latter part of 1935 and continued into the early part of 1936, Quincy has been fortunate in the small number of cases of reportable diseases. In December an outbreak of Scarlet Fever occurred in North Quincy which has the appearance of assuming minor epidemic proportions early in 1937. Only 23 cases of Scarlet Fever were hospitalized in 1936 which is by far the smallest in the record of the city. In planning for our budget requirements for the coming year it would be foolish to expect to be able to keep within the limit expended for Scarlet Fever this past year.

While the reporting of Venereal Diseases by physicians was very slightly improved there is still very much improvement hoped for. I strongly urge the cooperation of local doctors in making regular reports to the State of these cases.

This department has striven with all its power to maintain and improve the various clinics in operation, with the end in view of giving the maximum service with no competition to medical, dental and nursing professions.

To protect and safeguard the health of the people of Quincy, it is necessary that we have the cooperation of every person within its limits. A case of diphtheria is positively inexcusable. It has been shown, that through immunization this dread disease can be avoided. I strongly urge every parent to have their children immunized, if possible by their physician. For those people who cannot afford this, we will run the usual clinics for that purpose in 1937. I sincerely trust that this coming year will be the banner one for results obtained in this work.

As a further step in health protection, a regulation banning raw milk, unless it is certified, was put into force on April 1st. This will further safeguard against milk-borne epidemics.

May I ask the cooperation of parents, in keeping children who are sick isolated until a physician has diagnosed the case. Early reporting of cases and rigid adherence to quarantine regulations will keep contagious diseases down to a minimum.

Both the pre-school and school dental clinics operated by this department have functioned most efficiently. The pre-school clinic is open two mornings each week and its appointments are filled at least a week in advance. The hours of the school clinics were increased to 4 hours each and are held each school day. Each child in the first and second grade was given a dental examination and those needing the most urgent attention and considering as far as possible, the inability of the parent to take care of the expense, were selected for treatment. Sixteen children are treated each day and appointments are made well in advance. Missed appointments have been very few, considering the more than usual number of colds and minor diseases prevailing. The School Department has been very cooperative in helping us to maintain a constant schedule at the dental office in the Coddington School.

Dr. Rachel Hardwick, who has served for several years as Child Welfare Physician for this city resigned her position this fall, on account of pressure of her other work and duties. We were sorry to lose her services, but were very fortunate in obtaining Dr. Edmund B. FitzGerald, former Health Commissioner, to accept the position.

Statistician Alexander A. Robertson was offered a better position in a nearby city and he accepted it. Howard E. Porter, Agent of the department has assumed his duties together with his former work. To both Dr. Hardwick and Mr. Robertson, I wish every success.

RECOMMENDATIONS

1. To continue the diphtheria immunization program among pre-school children.
2. To continue the dental clinics along the same lines as operated this year.
3. To make full-time, the position of food inspector, now a part-time position.
4. To emphasize again the importance of pre-natal care and instruction and to urge expectant mothers to avail themselves of the service offered by that clinic.
5. To most emphatically continue the study by the state of pollution of the tide waters of Quincy and to further in every way the abatement of this condition.
6. To further improve the drainage of many low spots in the city where stagnant water is almost constantly in evidence.
7. The consideration of compulsory inoculation of all dogs against rabies. With the passage of a bill by the State Legislature a little more than a year ago, regarding treatment of those persons bitten by a rabid or suspiciously rabid dog, the cost of an epidemic of this disease would be of considerable proportions. Many towns and cities are considering this procedure, both as an insurance against this possible expense and the protection of its people against one of the most horrible diseases known.
8. Finally and most emphatically I recommend the erection of an incinerator and the discontinuance of all dumps. We are receiving constant complaints of smouldering dump fires and people living near them being subject to the smoke and odors coming from them. The skunks are increasing since the passage of the anti-steel-trap law, and they, together with rats find abundant food in these places. Some neighborhoods adjacent to these dumps are practically overrun with rats. On windy days papers and other debris blow for a considerable distance. From a standpoint of health, they certainly are no help and in appearance are abominable. With Federal Funds available I certainly feel that we would be very unwise not to take advantage of them and make this improvement.

Respectfully submitted,

RICHARD M. ASH, M.D.
Health Commissioner.

JANUARY 1, 1937.

RICHARD M. ASH, M.D.
Health Commissioner.

Dear Doctor:—

Attached are the statistics and reports of the various activities of the Quincy Health Department for the year 1936.

My duties, as you know, are so varied that it is impossible to give you a comprehensive report that would begin to show the full scope of my work. However, in addition to routine duties pertaining to the office and supervision of the many details that are my duties, I have made all of the sanitary inspections; and, all of the many calls necessary in the Venereal Disease control work. In addition, upon Mr. Robertson's resignation as statistician, I have assumed his duties as well.

I wish to thank every member of the department for their splendid spirit of assistance and cooperation. The department as it is now constituted is positively maintained with as small a force as is possible; and, in cases of sickness, vacation, etc. their spirit of helping to share the work of the one absent has been splendid.

Respectfully submitted,

HOWARD E. PORTER,
Agent.

MORTALITY STATISTICS

Number of Deaths and Death Rates. During the year 1936, there were 650 deaths that occurred in Quincy, five more than occurred during 1935. Based on the estimated population of 78,465, the crude death rate was 8.2 per 1000 population, compared with a death rate of 8.3 per 1000 for 1935.

Of the 650 deaths in Quincy, 55 were among non-residents. There were 140 Quincy residents (the same as in 1935) who died outside the city; so that the number of resident deaths for the year was 735 as compared with 731 resident deaths in 1935. The resident death rate for 1936 was 9.4 per 1000 population, the same rate as 1935. The tables for 1936 are based on resident deaths; the non-resident deaths being excluded and resident deaths outside the city included.

Sex. Of the 735 resident deaths during 1936, 396 or nearly 54 per cent were males and 339, or slightly less than 46 per cent were females. The proportion of males in the living population shown by the United States Census of 1930 was 49.3. Based on this proportion the male resident death rate for Quincy in 1936 was 10.2 as against a rate of 8.5 for females.

Age. Of the 735 deaths in 1936, 48 or 6.5 per cent were of infants under one year of age. More detailed information of infant mortality is in a following paragraph. Other age distributions will be found in Table 1.

Nativity. 60.7 per cent of the decedents were of native birth and 39.3 per cent were foreign born.

Infant Mortality. The infant mortality rate for Quincy in 1936 was 42.5 as against 36.6 per 1000 live births in 1935. This shows an increase over 1935, which was 36.6, a figure which was the lowest rate for Quincy on record. This year's figure is well below the state rate.

The highest proportion of infant deaths occurred in the first week, with 34 or 70.8 per cent. On the first day there occurred 25 deaths or 52.1 per cent of total infant deaths.

Of these 48 infant deaths, 32 were caused by premature birth, injury at birth and other diseases peculiar to very early infancy. There were, in addition, 4 deaths from congenital malformations.

Heart Disease was the leading cause of death with 184 or approximately 25 per cent of the total with a rate of 234.5 per 100,000 population. In 1935 the rate was 245 per 100,000 population.

Cancer and other Malignant Tumors caused 114 deaths, or 15.5 per cent of the total, with a rate of 145.3 as against a rate of 124 per 100,000 population in 1935.

Cerebral Hemorrhage, Cerebral Embolism and Thrombosis were the cause of 46 deaths; a decided jump over last year. The death rate in 1936 for this particular group was 58.6 as against 23.3 per 100,000 population in 1935.

Pneumonia caused 56 deaths for a rate of 72.6 per 100,000 population as against a rate for 1935 of 71.

Bright's Disease and Acute Nephritis were the cause of 65 deaths for a rate of 82.8 per 100,000 as against a rate of 78. for 1935.

Tuberculosis in all of its forms claimed only 26 victims; all but one died from tuberculosis of the respiratory system. The death rate from this disease was 33.1 per 100,000 population as against 46 deaths in 1935 with a rate for that year of 59. Table 4 shows graphically the declining death rate for tuberculosis.

MORTALITY STATISTICS

(Continued from Page 153)

Maternal Mortality. Deaths from puerperal causes in 1936, totalled 10, indicating a rate of 88 per 10,000 total births.

Reportable Diseases. The number of deaths and death rates from epidemic and infectious diseases for 1936 are shown in Table 3. The death rates since 1877 for certain of the diseases are shown in Table 4.

Automobile Accidents and Injuries caused 11 deaths for a rate of 14 per 100,000 population. Not all of these deaths were from accidents which occurred in Quincy.

TABLE 3.

Mortality rates per 100,000 population for reportable diseases

*Not reportable since 1933.

**Includes hilum tuberculosis.

JANUARY 1, 1937.

RICHARD M. ASH, M.D.
Health Commissioner.

Dear Sir:—

According to the records a very favorable story was revealed in 1936. There were fifty per cent less cases in the class of "all kinds" of Tuberculosis. This fifty per cent decrease held also in the new Pulmonary Tuberculosis cases and those of the childhood type. Were these statistics to continue, one can readily see that the Tuberculosis problem in Quincy would soon be under control. Another satisfactory phase of the report shows over sixty per cent of the cases reported were sent to the sanatorium. Early diagnosis and early hospitalization is still the most acceptable method of conquering Tuberculosis.

The newer method in treating Tuberculosis, such as "gas and rib" operations are now more generally understood and serve as a decided incentive for patients seeking earlier treatment. Thus we are getting more moderately advanced cases and more cures result. More minimal cases are discovered and thus the Tuberculosis problem is helped from all sources. Of course in the last analyses, education still is one of the most effective weapons in accomplishing Tuberculosis control. Education spreads through our clinics, brings in contacts and thus examined, elicits either minimal cases and thus helps to prevent the spread of Tuberculosis.

"Undernourished Clinic"

The foundation for all preventive work in Tuberculosis control is laid in the Children's Clinic. Here we find the disease in the earlier stages where its early discovery leads to a very good prognosis. Also finding traces of Tuberculosis in the child naturally leads us to find a contact and we usually find this contact in the child's family. Thus in finding and segregating the source of the Tuberculosis, we aid in the control of the disease and render the community more secure from the ravages of the white plague. The attendance and cooperation at the clinics have maintained their usually high standard and I feel good work has been accomplished in discovering new contacts and suspects and instructing them in the standard methods for the control of Tuberculosis.

"Norfolk Preventorium"

Our usual quota of pre-tubercular children was sent to the preventorium during the past year and as in the past good health results obtained. The average gain in weight per child was about ten pounds and the eight weeks intensive outdoor life, with its swimming and sun baths, increased materially the children's resistance.

The preventorium idea in Tuberculosis control should be continued. It has double action in Tuberculosis control, for it not only greatly helps the individual children sent to the camp but also increases our clinic attendance.

Sincerely yours,

CORNELIUS J. LYNCH, M.D.,
Dispensary Physician.

JANUARY 1, 1937.

REPORT OF THE TUBERCULOSIS DISPENSARY NURSES

RICHARD M. ASH, M.D.
Health Commissioner.

Dear Doctor:—

We herewith submit to you our annual report for the year ending December 31, 1936.

Total number of all kinds of tuberculosis on record in the city	867
Pulmonary Tuberculosis	476
Childhood Type Tuberculosis	319
Other Forms	72
New cases of tuberculosis reported during the year—all kinds	49
Pulmonary Tuberculosis	39
Childhood Type Tuberculosis	7
Other Forms	3
Under "Pulmonary Tuberculosis" Minimal cases reported	3
Disposition of New Pulmonary Tuberculosis cases:	
Admitted to sanatoria	26
Reported by death certificate	6
Taking treatment in Colorado	1
Taking treatment at home	3
Died at Quincy City Hospital	1
Waiting for admission to sanatorium	2
Disposition of New Childhood Type Tuberculosis	
Admitted to North Reading State Sanatorium	4
At home under dispensary observation	2
Disposition of New Other T.B. Cases	
Admitted to Lakeville State Sanatorium	1
Died at Massachusetts General Hospital	1
Cases admitted to the Norfolk County Hospital	56
Cases discharged from the Norfolk County Hospital	53
Indefinite leave of absence	5
Arrested cases	10
1 arrested case was readmitted	
Left against advice	5
3 were admitted	
1 died at home	
1 died at home "Carcinoma of lungs"	
Quiescent	1
No evidence of "active" pulmonary tuberculosis but was later admitted as active pulmonary tuberculosis	1
Non tubercular	6
Hypertension	1
Chronic Bronchiectasis	2
Chronic valvular heart and chronic nephritis—too ill to move after diagnosis was made so died at the sanatorium	1
Chronic bronchial asthma	1
Died at sanatorium	20

North Reading State Sanatorium for children	
Cases admitted during the year	9
Cases discharged during the year	10
Condition on discharge:	
Arrested cases	7
Entered as Pulmonary tuberculosis was discharged as	
"arrested Hilum"	1
Admitted as Hilum died as pulmonary tuberculosis ...	1
Arrested pulmonary tuberculosis	1

Lakeville State Sanatorium	
Cases admitted during the year	2
Cases discharged during the year	3
Condition on discharge:	
T.B. Peritonitis "arrested"	
T.B. Eyes—"Quiescent" to check with Eye and Ear Infirmary	
T.B. Enodometritis—"arrested pulmonary"	

Plymouth County Sanatorium

Patient had been a patient previously so readmitted for
6 weeks before delivery.

Number of deaths reported during the year	29
Pulmonary Tuberculosis	28
T.B. Knee	1

New living cases added to the register exclusive of Hilum 42

Number of cases transferred from city (exclusive of Hilum)
by death or moved away or other causes 56

"Clinic" Adult

Attendance	412
New cases added to clinic register	78
Number of contact examinations made	106
Number of sputum examinations made	114
Cases X-rayed at Norfolk County Hospital	104

"Clinic" Children's

Attendance for the year	1323
New cases added to clinic register	195
Number of contact examinations made	599
Mantoux tests done	198
Number of X-rays taken at Norfolk County Hospital ..	108
Number of children admitted to the Norfolk Preven-	
torium for 8 weeks during the summer	43
Children referred for T & A operations	22
There was a decrease in the number of children need-	
ing dental work	
Vaccinations done	11
Nursing visits made	1791

Relief work: Miss Russell assisted Mrs. Gifford in audiometer tests
and physical examinations in parochial schools.

Respectfully submitted,

GERTRUDE T. RUSSELL, R.N.,

HAZEL R. GIFFORD, R.N.,

Dispensary Nurses.

REPORT OF THE CHILD WELFARE CLINIC

JANUARY 28, 1937.

DR. RICHARD M. ASH, *Commissioner of Health*
 Department of Health,
 Quincy, Massachusetts.

DEAR DR. ASH:

It is my privilege to submit to you the report of the Child Welfare Clinics of Quincy for the year ending December 31, 1936.

Statistics

Total Clinic Registration	1,588
Well Baby Clinic Registration	1,203
New Registrations 1936	541
Pre-school Clinics	202
New Registrations 1936	39
Orthopedic Clinics	183
New Registrations 1936	27
Total New Registrations	607
Number of Clinics	289
Well Baby Clinics	268
Pre-school Clinics	11
Orthopedic Clinics	10
Total Clinic Attendance	7,938
Well Baby Clinics	7,587
Pre-school Clinics	248
Orthopedic Clinics	103
Total Home Visits by Nurses	4,866
Babies under 1 year	2,676
Babies 1 to 2 years	1,193
Pre-school Children	798
Boarding Homes	199

The Well Baby Clinics were held weekly in South Quincy, Quincy Centre, Quincy Point, Atlantic, Wollaston; bi-monthly in Houghs Neck; monthly at Squantum. The Pre-school Clinic and the Orthopedic Clinics were each held monthly.

The Clinic attendance has been as follows:—

Station	Day	Attendance	New Cases
South Quincy	Monday	1,303	59
Wollaston	Tuesday	1,511	89
Houghs Neck	Tuesday	469	45
Quincy Point	Wednesday	1,283	105
Quincy Centre	Thursday	14,22	137
Squantum	Thursday	110	8
Atlantic	Friday	1,489	108

Reference of Children

The number of children referred from the clinics for care by the local physicians during the past year was 208, which is a slight decrease. The parents of these children had not appreciated the need for seeking medical care and would not have chosen to do so unless it had been recommended by the Clinic workers. These references represent children who would not have reached medical service unless they had previously attended clinic.

Referred for Medical Care	136
Referred for Dental Care	31
Referred for Hospital Care	41

Volunteer Help and Acknowledgments

The volunteer service of the members of the Junior Welfare League, who have assisted in the Clinics as secretaries, has become an indispensable part of the routine set-up. Miss Alice G. Thompson has completed her sixth year as recorder at the Atlantic Clinic. Members of the Wollaston Women's Club have attended the Wollaston Clinic and helpfully assisted in recording the weights of babies. The faithfulness in attendance of these volunteers and their motive efficiency has greatly aided the management of the larger clinics.

We appreciate the privilege of holding clinics in Woodward School, Wollaston Branch of the Thomas Crane Public Library, Knights of Columbus Hall at Atlantic, Italian Hall South Quincy, Methodist Church at Squantum, and the City School Building at Quincy Point and Houghs Neck.

The Child Welfare Nurses—Mrs. Nettie D. Fowler and Miss Mary Marr—have continued their teaching in the homes this year with the same degree of enthusiasm and patience which has characterized their work in the past. Their work is regarded by the medical profession and the parents with a high degree of confidence.

For your co-operation, I wish to thank you as Commissioner and the members of your Department of Health.

Respectfully yours,

RACHEL L. HARDWICK, M.D.,
Child Welfare Physician.

REPORT OF CHILD WELFARE NURSES

JANUARY 1, 1937.

DR. RICHARD M. ASH,
Health Commissioner.

Total registration during 1936	1615
Total registration active on January 1, 1937	1097
Total number of new registrations under 1 year	413
Total number of new registrations between 1 & 2 years ...	137
Total number of registrations in the pre-school group	52
(pre-school clinic 39)	
(orthopedic clinic ... 13)	
Total number seen at Orthopedic Clinic over 6 years—not registered	6
Total new registrations for 1936	608
Removed from file	518
Deaths	6
Bernard Falco—Acute Otitis Media	
Kenneth Owens—Status Lymphaticus	
Ruth Leaf—Bronchopneumonia	
Shirley Martell—Intersusception	
Janet Tully—Pulmonary Edema	
James Peneau—Bronchopneumonia	
Inactive for 6 months or more	237
Entered pre-school clinic	30
Returned to institutions	14
Moved from city	231
Number of visits to clinics under 1 year	5102
Number of visits to clinics between 1 & 2 years	2518
Number of visits to clinic pre-school age	318
Total attendance	7938
Number of clinics held	290
Well baby	268
Pre-school	12
Orthopedic	10
Number of babies visited in homes	4667
Under 1 year	2676
Between 1 & 2 years	1193

third Thursday	Orthopedic ..	2:00-4:00 p.m.	103	103	18
every Friday	Atlantic	2:00-4:00 p.m.	1489	1231	108
			7938	6074	608

Relieved other nurses when necessary.

We extend our deep appreciation to Dr. Hardwick, Dr. Doherty and Dr. Costanza for their kindness and valued help to us all the year and to Miss Alice Thompson, who for five years has been a volunteer at the Atlantic clinic. To Mrs. Frances Knight and Mrs. Martin and other members of the Junior Welfare League who have assisted us we extend our thanks. The Wollaston Women's Club we thank for assistance given at the Wollaston Clinic.

Respectfully submitted,

NETTIE D. FOWLER, R.N.,
 MARY E. MARR., R.N.,
Child Welfare Nurses.

REPORT OF ORTHOPEDIC CLINIC

The following is a report of eleven clinics attended by Dr. John L. Doherty from January 1936—December 1936 inclusive.

111 children have been examined—thirty-seven were new admissions, and seventy-six were follow-up examinations.

Classification of Conditions Found in New Patients

Pronated feet	14
Knock knees	1
Bow legs.....	3

ANNUAL REPORT OF THE QUINCY HABIT CLINIC

Year—1936

Nineteen thirty-six brings to a close the tenth year of the Quincy Habit Clinic and a review of the activities of the past year, as well as those of the preceding years, presents evidence of steady and active growth both as regards the scope and the quality of the service rendered. The program of the clinic in its general outline has not differed greatly from that of the previous year, in that its two main objectives have been clinical and educational. The prime aim of all medicine is prevention, and this has been the nucleus around which the activities of the clinic have been centered. Prevention has been the goal toward which all endeavors have been directed through clinic service and an extensive educational program.

The continued increase in attendance at the Quincy Habit Clinic has made an increase in staff imperative; this, in lieu of the practicability of devoting another day to clinical activities. The demands for clinics elsewhere have precluded the possibility of the Division of Mental Hygiene giving an additional day to Quincy, and the only practical solution to the problem seemed to be to double the staff on the day already assigned to that community.

The clinic in Quincy, as well as the clinics elsewhere in the State, has represented a real force in the educational system, as witnessed by the fact that the schools are enthusiastically incorporating mental hygiene principles into their methods of teaching. As a result of mental hygiene education, many teachers have shifted their emphasis from subject matter to an interest in the whole child. One writer has said, "The teacher has become child conscious, rather than curriculum conscious". Character, personality and social development, which were formerly considered as being outside the field of education, today hold an important place in the schools' objectives. Their increasing realization of their responsibility in the matter of broader education of the whole child, in order to adequately prepare him for a successful adjustment to later life, has directed their attention to the value of mental hygiene clinics as an aid in achieving the desired results. They are more and more appreciating that the child's needs extend beyond academic instruction and realize that they must include not only instruction in the more formal school subjects, but also observation and direction of personality and behavior deviations. It is in such matters as these that the clinic has served as a source of assistance to the schools.

The introduction of mental hygiene teaching and psychiatric techniques in any educational program not only modifies or corrects behavior problems manifest at the moment, but also contributes substantially to the possibility of the child's making a better adjustment to life in the future. Mental hygiene assistance given to teachers enables them to understand more about the child in his totality (both as regards his past and present environment), so that problems presented to them may become better understood, and constructive cooperative guidance can be given to each child according to his needs and capacities.

One of the tasks confronting teachers of the primary grade is that of estimating the capabilities of the child on entering the school, so that a curriculum may be arranged to best serve

his individual needs, and also that he may be assisted in his progress toward scholastic achievement and a well-rounded out maturity. In Quincy, as well as in other communities, the clinic has examined selected children before their entrance to school to determine the most satisfactory grade placement. It is significant that this school system has established a rule whereby certain children will not be admitted to school without an appraisal and recommendations from the clinic in the question of proper placement. While this has obviously brought an additional pressure on the clinic personnel, the service has been rendered by careful and efficient application of clinic resources.

Another interesting and beneficial service rendered by the clinic to the schools has been that which treats various educational handicaps in the form of reading disabilities and related difficulties, so frequently met with in children of the primary grades. There is a recognized relationship between behavior problems, personality defects and reading disabilities, a frequently occurring situation which the clinic has aided in no small measure through the special resources which it has secured from the Boston University Graduate School of Education, who has provided the clinic with three remedial teachers working on a volunteer basis. These specially trained workers have participated in the treatment programs of these particular cases, and results have been most gratifying. Not only have the children been aided to a better adjustment in the classroom curriculum, but there has also been effected in many cases correction of conspicuous personality and behavior disorders that had previously served as a real impediment in the child's adaptation to his other environments.

The continued monthly conferences with the Quincy Schools have served a two fold purpose; namely, a more comprehensive understanding by the school regarding the nature of the child's difficulty through the knowledge given them of the theoretical aspects of the problem, and a broader understanding of the aims and purposes of the field of mental hygiene. More than this it has provided the clinic staff with a clearer appreciation of the school environment in all its implications, and has given them a perspective that might not have been otherwise achieved; that is, through the more routine and formal approach to it.

The staff of the Division of Mental Hygiene is indeed grateful to the Health Commissioner, the School Department, and others in the community whose cooperation has been invaluable

REPORT OF PART TIME PAROCHIAL SCHOOL NURSE

JANUARY 1, 1937.

DR. RICHARD M. ASH,
Health Commissioner.

DEAR SIR:

I hereby submit my report for part time Parochial School Nurse from May 15, 1936 to December 31, 1936.

Number of visits to Parochial School	107
Number of children weighed and measured	790
Number of children given vision examination	1072
Number of children given Audiometer Test, (first)	733
Number of children given Audiometer Test, (second)	237
Number of children given Audiometer Test, (third)	48
Number of children examined for various causes, in nurses' room	220
Number of children referred to family doctor	56
All pupils were given health inspection after vacations, when returning to school after an illness, and at request of teacher.	
Pupils were instructed in healthful living, both in groups and individually.	
Number of house calls made to pupils absent for three days or more	72
Approximately 75% of all defects of the pupils have been corrected.	
Relief work from July 6, 1936 to July 27, 1936.	
Child welfare work, assisted at clinics, patients	48
Contagious work, calls made	50

Respectfully submitted,

HAZEL R. GIFFORD, R. N.

REPORT OF THE POLIO CLINIC

JANUARY 1, 1937.

DR. RICHARD M. ASH,
Health Commissioner.

MY DEAR DR. ASH:

Below is a fairly detailed account of the work being done at the Polio Clinic by Miss Greeley and Miss Dwyer.

During 1936 there were fifty-two active cases and of this number forty-one attended the Treatment Clinic, receiving seven hundred and eighty-nine (789) treatments.

Outstanding among the patients at the Quincy Treatment Clinic are Mary Medico, William Murphy and Elizabeth Scott.

Mary Medico started with a short brace which was discarded last summer following a foot operation.

William Murphy had a foot stabilization operation last summer which resulted in improved weight bearing, improved position of the foot and an improved gait. The hospitalization for both of these cases was paid for by the Birthday Ball Fund.

Elizabeth Scott has been able to discard her left platform splint during the past year.

Sincerely yours,

ARTHUR T. LEGG, M. D.

REPORT OF THE CONTAGIOUS DISEASE NURSE

JANUARY 1, 1937.

RICHARD M. ASH, M.D.
Health Commissioner.

DEAR DOCTOR:

I hereby submit my annual report as Contagious Disease Nurse for the year ending December 1936.

Two thousand and six hundred cases of notifiable diseases were reported as follows:

Anterior Poliomyelitis	1	
Chickenpox	340	
Diphtheria	1	
Dog Bite	155	
Dysentery (Amebic)	1	
Lobar Pneumonia	41	
Measles	1177	
Meningococcus meningitis	2	
Malaria	1	
Mumps	564	
Rubella	29	
Hookworm	1	
Scarlet Fever	189	
Typhoid Fever	2	
Undulant Fever	1	
Whooping-Cough	95	
Total Number of visits		3017
Scarlet Fever	736	
Measles	2004	
Whooping Cough	235	
Typhoid Fever (cultures 58)	35	
Diphtheria (cultures 6)	3	
Anterior Poliomyelitis	2	
Amebic Dysentery	1	
Malaria	1	

Diphtheria

One case reported. Cared for at home. During the year 782 children were immunized; 601 were done at the various clinics held by the Health Department and 181 children were immunized by their family physician.

Measles

1177 cases reported from the various wards of the city. Two cases were hospitalized.

Scarlet Fever

Twenty-three cases of the 189 reported were hospitalized at the Haynes Memorial. No deaths occurred from this disease.

Whooping Cough

Ninety-five cases reported, two of which were sent to Haynes Memorial Hospital.

Typhoid Fever

Two cases reported, both hospitalized.

Clinics

Eighty-five various clinics were attended during the year.

In the follow-up work, 3017 visits were made including placarding, re-visiting, checking on quarantine regulations, taking cultures, examination of contacts and releases from quarantine.

Office hours daily 9:00-9:30 a.m.
1:00-1:30 p.m.

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.,
Contagious Disease Nurse.

REPORT OF THE DENTAL CLINIC

JANUARY 1, 1937.

RICHARD M. ASH, M.D.
Health Commissioner.

DEAR DR. ASH:

During the past year attendance at the Dental Clinic has been exceptionally good, which gives evidence that the parents appreciate what we are doing for their children.

Clinics are held every school day from 9:00 to 1:00 at the Coddington School for the children of the first and second grades. Appointments are made by the nurses in attendance and the children are brought to the clinic by their parent or an adult.

On a child's first visit, ordinarily a prophylaxis is done, which not only puts the mouth in a cleaner condition, but enables me to gain the confidence of the child so that when he returns the element of fear is reduced. Only one operation is done at each visit; therefore the child is not tired out and is willing to return if necessary. This also enables me to see more children in a morning and hence a wider distribution of service.

When all work is completed, a short talk on the importance of caring for his teeth is given as is also a leaflet which describes in detail brushing the teeth and the proper diet for a healthy body. The child is also given a Dental Certificate which he in turn brings to his teacher and his name is put on the Dental Honor Roll.

I consider the work which we are doing at the Dental Clinic a very important branch of the Health Department, because its main object is prevention of disease. Sir William Osler has said—"There is not one single thing in preventive medicine that equals mouth hygiene and the preservation of the teeth". Prevention of disease not only costs much less than does its cure, but also is possible to a much greater extent than is its cure.

I would be lacking in appreciation if I did not mention the able and efficient assistance I have received from Mrs. Gladys Imray and Miss Katherine Wiseman, Dental Nurses.

I take pleasure in extending my thanks to you as Commissioner and also to the members of the Health Department for the co-operation I have received during the past year.

Respectfully submitted,

LOUIS E. SULLIVAN, D.M.D.,
School Dental Clinician.

JANUARY 1, 1937.

RICHARD M. ASH, M.D.
Health Commissioner.

DEAR DOCTOR:

I herewith submit to you my annual report for the year ending December 31, 1936.

Number children examined in school (grades 1 & 2)	1,869
Number dental clinics	133
Number dental appointments made	1,774
Total attendance at clinics	1,553
Number different children	503
Number extractions	1,013
Number permanent extractions	56
Number temporary extractions	957
Number fillings	540
Number temporary fillings	356
Number permanent fillings	184
Number prophylactic treatments	348
Number first grade children treated	436
Number second grade children treated	67
Number home visits	781
Number cancelled appointments	195
Number children refusing treatment	14
Number emergency cases treated	13

Diphtheria Prevention

Number immunization clinics	20
Number diphtheria immunization home calls	904
Number children immunized by private physicians	73

Typhoid Survey

Number home calls	155
-------------------------	-----

Respectfully submitted,

KATHERINE WISEMAN, R. N.

REPORT OF SCHOOL DENTAL CLINIC

Year Ending December 31, 1936.

DR. RICHARD M. ASH,
Health Commissioner.

DEAR DR. ASH:

Number of first and second grade children examined	1,097
Number of dental clinics	72
Number of total attendance at clinics	957
Number of different children attending clinics	258
Number of extractions	641
Number of fillings	290
Number of prophylactic treatments	157
Number of first grade children treated	215

Number of second grade children treated	43
Number of permanent teeth filled	94
Number of temporary teeth filled	196
Number of permanent teeth extracted	6
Number of temporary teeth extracted	635
Number of home visits	422
Number of school visits	17
Number of finished cases	96
Number of appointments cancelled	106
Number refused treatment	21
Number of emergency cases	11

I did not assist at clinics from March 6th to April 14th because of illness.

Respectfully submitted,

GLADYS IMRAY, R.N.

REPORT OF PRE-SCHOOL DENTAL CLINIC Year Ending December 31, 1936.

RICHARD M. ASH, M.D.
Health Commissioner.

DEAR DOCTOR:

Number of clinics	79
Number total attendance	665
Number of different children treated	196
Number of operations	714
Number of fillings	547
Number of extractions	54
Number of treatments	34
Number of examinations	7
Number of cleanings	79
Referred for gas anesthesia extraction	8
Refused treatment	17
Appointments not kept	99
Home calls	67

I did not assist at clinics from March 6th to April 14th because of illness.

In addition to Dental Clinic work I assisted at 14 Diphtheria Prevention Clinics, and made 1,040 diphtheria prevention home calls.

I also made 168 typhoid survey calls.

Respectfully submitted,

GLADYS IMRAY, R.N.

JANUARY 1, 1937.

DR. RICHARD M. ASH,
Health Commissioner.

DEAR SIR:

I herewith submit my report for the year ending December 31, 1936.

The following statistics refer to milk, cream, ice cream, chocolate milk, buttermilk and oleomargarine, produced and consumed in the City of Quincy.

Dairies in City of Quincy			
1	dairy having	56	cows
1	"	"	37 "
1	"	"	7 "
1	"	"	3 "
5	dairies having	1	cow

Total number of cows 108

Total number of quarts of milk produced by dairies in the City of Quincy	1,080
Total number of cows in nearby dairies who serve consumers in Quincy	685
Milk produced in nearby dairies (quarts)	6,850
Milk contractors' processing plants, storage and creameries doing business in the City of Quincy	10
Milk contractors' processing plants, storage and creameries who come from out of the City of Quincy	41
Teams, auto cars and trucks employed in distribution of milk, cream, ice cream, chocolate milk and buttermilk	205
(All have been inspected)	
Milk processing plants doing business in the City of Quincy	4
Amount of milk pasteurized in Quincy (quarts)	36,350
Milk consumed in the City of Quincy (quarts)	36,553
Raw milk consumed in the City of Quincy at the present time—none since April 1, 1936	
Prior to April 1, 1936 (quarts)	685
Ice cream manufacturers in Quincy	10
Certified raw milk consumed in Quincy (quarts)	121
Grade A milk consumed in Quincy (quarts)	2,620
Chocolate milk consumed in Quincy (quarts)	131
Cream consumed in Quincy (quarts)	2,561
Ice cream manufactured in Quincy (gallons)	591
Ice cream consumed in Quincy (gallons) per day	1,941
Ice cream manufactured outside of Quincy (gallons)	1,361
(All ice cream is pasteurized)	
Buttermilk consumed in Quincy (quarts)	451
Retail licenses issued in Quincy for milk, cream, ice cream and oleomargarine	762
Revenue for licenses	\$414.50
Milk samples collected	1,440
Samples taken from teams	1,001
Samples taken from stores and schools	216
Samples taken from dairies	223
	<hr/>
	1,440

Milk samples below State standard for butter fats	10
Milk samples with high bacteria count	27
Milk samples taken before pasteurization	96
Milk samples taken of raw milk	150
Ice cream and cream samples	80
Samples taken for bacteria	40
Samples taken for butter fat	40
Number of stores visited and milk, cream and cream cabinets inspected and re-inspected	816
Number of milk rooms inspected and re-inspected	334
Number of milk processing plants inspected and re-inspected	232
Number of ice cream manufacturing plants inspected and re-inspected	61
Milk complaints investigated	4

On April 1, 1936, this department adopted a regulation requiring all milk sold in the City of Quincy to be pasteurized except certified milk, which can be sold raw. While some dissatisfaction, both by milk dealers and a few consumers existed at the time, and made considerable more work for the Milk Inspector, after a trial of nine months, all the population of Quincy are very well pleased and would not go back to former conditions, as the protection of having the milk pasteurized is evident.

Respectfully submitted,

JAMES O'DOWD,

Milk Inspector.

REPORT OF BACTERIOLOGIST

JANUARY 1, 1937.

Plate counts (milk)	688
" " (cream and ice cream)	40
Babcock tests (cream and ice cream)	40
Smears for pus and streptococci (milk)	688
Chemical examinations (milk)	752
Total examinations	2,208

EDWIN E. SMITH, M.D.

REPORT OF VENEREOLOGIST

JANUARY 1, 1937.

Female Clinic

Treated for gonorrhoea (patients)	7
Visits for gonorrhoea	26
Contacts examined	23
Treated for syphilis (patients)	26
Visits for syphilis	749
Discharged	4
Lapsed treatment	10
Remaining under treatment	19
Total visits by females	800

Male Clinic

Treated for gonorrhoea (patients)	11
Visits for gonorrhoea	107
Contacts examined	5
Treated for syphilis (patients)	20
Visits for syphilis	486
Lapsed treatment	14
Discharged	6
Remaining under treatment	11
Total visits by males	602

Respectfully submitted,

EDWIN E. SMITH, M.D.

JANUARY 1, 1937.

DR. RICHARD ASH,
Commissioner of Health.

DEAR SIR:—

Herewith is my report for the year 1936.

There are 105 cows in Quincy all under supervision of the Division of Livestock Disease Control for tuberculosis.

There were 153 dog bites reported and all were quarantined. None of them developed rabies.

Respectfully yours,

E. A. DEVARENNES, V.S.

REPORT OF INSPECTOR OF MEATS & PROVISIONS

To the Commissioner of Health, Quincy, Massachusetts.

DEAR SIR:—

September 21, 1936—Enterprise Stores Inc.

1485 Hancock Street

Damage by water in cellar "condemned" mdse. \$56.34

October 7, 1936—Granite Public Market

152 Franklin Street

Damage by fire "condemned" mdse.\$34.95

* * * * *

More inspections have been made this year than ever before in the history of the city from this office. More time and care has been given that all foodstuffs, markets and lunch counters were kept clean in accordance with the rules and regulations of the Department of Health.

Licenses for light wine and beer granted by our City License Board were looked after very closely that all glasses are thoroughly sterilized before using. Running water, hot and cold, with glass washer and sink must be installed by the man who takes out said license to do business. It is the duty of the Health Inspector to see that they are in perfect condition at all times.

In some markets where improvements had to be made on account of conditions, a cold storage system was installed. The dealer not only found that it saves him money, but was much easier to keep his meat chest clean and more sanitary.

We take the liberty at this time to advise the housewife to go to market each day or a few times each week for her supply of food for the table, taking advantage of special day sales by so doing will cut down her market bill a lot and she will find quite a difference in her weekly allowance for household expenses.

The independent market man as well as chain store supervisors are always willing at all times to cooperate with us in keeping their places of business in clean and up-to-date sanitary condition at all times with this department.

An inspection was made among all markets of our City around Christmas and found conditions good and prices far below anything in years, and not one complaint was made at this office over the holiday season on poultry of any kind this year, which we consider a remarkable record, and shows for itself the good work being done in this department.

Respectfully submitted,

HOWARD ROGERS,

Inspector of Meats and Provisions.

REPORT OF INSPECTOR OF PLUMBING

JANUARY 1, 1937.

DR. RICHARD M. ASH,
Health Commissioner.

DEAR SIR:

I respectfully submit my report as Inspector of Plumbing for the year 1936.

Applications filed	702
Received for permits	\$866.00
New buildings for which permits were issued	80

Buildings connected with sewer:	
New	67
Old	52
Buildings connected with septic tank:	
New	1
Old	2

Respectfully submitted,

JEREMIAH J. CURTIS,
Plumbing Inspector.

Within the city of Quincy sickness, accident, disease play no favorites. They strike at poor and rich alike. And rich and poor alike find health and healing within the sheltering walls of the Quincy City Hospital.

The need continues urgent . . . and we must all join together, so that none shall be turned away when they come seeking our help.

*died during year

QUINCY, MASSACHUSETTS,

JANUARY 18, 1937

TO HIS HONOR THE MAYOR, THE PRESIDENT
AND MEMBERS OF THE CITY COUNCIL:

GENTLEMEN:

The Board of Managers of the Quincy City Hospital submits its report for the year 1936, including in this report the departmental reports made by the several departments of the Hospital.

The year 1936 has been the first full calendar year for which the present Board of Managers has been responsible.

Public Confidence Re-established

We feel that the cooperative relationship between the Staff and the Management which started a year and a half ago has now re-established public confidence in the active management of the Hospital. This, we believe, is indicated by the greater use that has been made of the institution during the past year by the surgeons and doctors, and by the favorable reactions of the patients who have been helped at the Hospital.

Commendable Spirit Present

Your Superintendent and Board of Managers have received many letters commending the friendly and helpful spirit throughout the institution, and in all the services it renders to the community. As much as has been possible with the funds available has been accomplished during the year in bringing the equipment up to date.

Replacements Necessary

The growth of the Hospital during the next few years will, in the judgment of your Board, mean the necessity for the expenditure of an increasing amount of money for replacements and new equipment, in order to maintain the high standard and efficiency of the Hospital.

Additional Home for Nurses Needed

The greatest single need at the present time is to have more accommodations for our nurses, and a new wing to our Nurses' Home will be an absolute necessity before long. At the present time we are boarding outside quite a number of our regular nurses.

Net Cost to City 3.2%

Although the City Auditor, due to the established form of bookkeeping, reports that 6.8% of every dollar spent by the City goes for the maintenance of the Hospital, the net cost of the Hospital to the taxpayers of the City is rather less than half of that percentage, as the Hospital turned into the City Treasury during 1936 nearly \$200,000, and this income is not taken into account in figuring the cost of the Hospital.

New Administration Building

Within a short time now we shall occupy the new Administration building, one of the most up to date and finest of its kind in the country. In this building we propose to erect a tablet containing the names of the citizens of Quincy who, through the years, have endowed the Hospital, and given funds for the maintenance of beds and other purposes.

Superintendent of Nurses Appointed

A new Superintendent of Nurses, Miss Helen O. Potter, a college graduate and a woman of wide experience in this work, comes to us early in February. Her appointment is another evidence of the effort of your Board to improve the standard of the Hospital, and to increase its efficiency.

Superintendent's Staff Commended

The Board wishes to commend the splendid work of our Superintendent, Dr. Joseph P. Leone, and his assistants, Miss Boutin and Miss Hobbs, whose loyalty and conscientious service have done so much to make the work of the Board of Managers pleasant, and easier to accomplish. The spirit of cooperation of the Staff has also been of inestimable value to your Board throughout the year.

Expenditures

For the year 1936 the total receipts of the Hospital were \$194,913.38—the total expenditures \$365,784.32—the total cost of the Hospital to the City of Quincy, therefore, \$170,870.94.

Work Accomplished

The total number of patients admitted to the house was 6399, and the accident room treated 6721 cases. The average cost per day per person was reduced from \$5.74 to \$5.55 per diem. There were 1342 ambulance calls during the year, and the average calls per day were 3.

Agencies Cooperated

The Board of Managers wishes to express its appreciation of the cooperation and help of the Hospital Aid Associations, the Quincy Nurses' Association, and the Quincy Kiwanis Club. It also desires to thank all other associations and individuals who have assisted the Hospital with work and gifts.

Cooperation Cited

Only because of the wholehearted support of the Board of Managers, the Medical and Surgical staffs, and the employees, and the faithfulness of my assistants, can I report to you a year of very successful service rendered to the city of Quincy by our hospital.

Community Confidence Restored

At this writing we can point to the splendid feeling in our community towards the hospital. Confidence of the people in our hospital means greater and better service rendered.

Progress Made

We can look back over the year and see definite progress in service, as well as in the physical development of our institution.

Am. Col. of Surgeons

In the short period of one year we were able to regain our standing with the American College of Surgeons.

Work Increases

As can be seen from our statistics, the work in all departments was greater than for the previous year.

Health of Employees

During this time we have had very little sickness among the nurses and other employees.

Few Interruptions in Service

While the construction of the new Administration Building has been going on the hospital has rendered its services with little inconvenience or interruptions, although the offices have been moved about somewhat. The Training School Office occupied quarters on MC I, while the Social Service Dept. was transferred to the emergency ward opposite the Operating Room, and the book-keeping dept. remained in the old building off the main corridor. The record room has been occupying the waiting room in the X-Ray Dept.

Traffic and Parking Problem

At times there was congestion in traffic and parking on the hospital grounds, but with the aid of the Quincy Police this congestion was kept at a minimum.

TRAINING SCHOOL OFFICE

New Supt. of Nurses Appointed

On Sept. 1, 1936, Miss Sarah Adams completed her year's appointment as Supt. of Nurses. We have been fortunate in obtaining Miss Helen O. Potter to take her place. Miss Potter comes to us with an unusual amount of experience. A graduate of the Mass. General Hospital, two years Assistant at the Phillips House, four years as Assistant at the Mass. Eye and Ear Infirmary, two years as Assistant Supt. of Nurses at Washington University, St. Louis, eight years as Supt. of the Rhode Island Hospital. Providence, a graduate of Teachers College at Columbia University with a B.S. degree, she is well qualified to lead our progressive Quincy Hospital in the training of nurses. I'm sure the Staff as well as the City of Quincy joins me in welcoming Miss Potter to Quincy. Miss Potter will assume her duties on or about Feb. 1, 1937.

Throughout the year the number of nurses on our payroll has varied according to the census.

Nurses' Homes Overcrowded

At times the living conditions for our nurses have been far from adequate. The Faxon Home, Rice Home and even the nurses' home have been overcrowded. It is hoped that something can be done to relieve this condition. The only solution seems to be an addition to the present nurses' home to accommodate at least 65 additional nurses.

THE MEDICAL AND SURGICAL STAFFS

Medical Service Organized

The Medical Staff organized as such in January. Dr. Cornelius Lynch was made chairman and Dr. H. Blyth secretary. Dr. Cadis Phipps, our medical consultant, attended the first meeting and suggested ways and means by which these medical meetings could be made interesting. Meetings have been held every other month, at which time interesting medical cases and problems have been discussed. At the end of each service the head of the service gives a paper at the following meeting. These meetings have been well attended.

Dr. Reynolds and Dr. Crawford Expire

We are sorry to record during the year the deaths of Dr. John T. Reynolds and Dr. Lawrence P. Crawford, members of the staff.

Dr. Johnson Resigns

For the coming year the hospital will lose the generous services of Dr. Elmon R. Johnson of the Nose and Throat service, who has filed his resignation with the staff and the Board of Managers. His resignation went into effect Jan. 1, 1937. The Staff, the hospital and the many patients appreciate all the wonderful work that he has done. Dr. Johnson will carry on, however, on the courtesy staff.

NATIONAL HOSPITAL DAY**Many Citizens Visit Hospital**

On May 12, as the result of posters, invitations, announcements in the newspapers, a window display at the Granite Trust Co., and the showing of trailers at the Wollaston and Strand Theatres, over 5000 citizens of Quincy availed themselves of the opportunity to visit our hospital. Open house was held from 1 to 5 p.m.

Exercises Held

Exercises were held on our hospital lawn. Mayor Thomas S. Burgin, Mrs. T. Newell Lane, Mr. Lawrence Lyons, members of the Board and your Supt. gave short addresses.

Women's Clubs Help

Representatives of many of the Women's Clubs acted as hostesses. Refreshments were served and all in all the day was proclaimed a success.

Movies of Hospital Shown

During the year it was my pleasure to acquaint various civic clubs and other organizations with the work of the hospital. Movies of our hospital in action were shown to these groups. Those contacted were as follows:

Clubs Addressed

Rotary Club of Quincy
Council of Social Agencies
Bethany Mothers' Club
Makaria Club of Bethany Church
Quincy Business & Professional Women's Club
Montclair Improvement Association
Quincy Federation of Women's Clubs
The Quincy City Club
Jewish Women's Club of Quincy

Talks Successful

There is no doubt in anyone's mind as to the good that has come from these meetings. As a result of these talks the citizens of Quincy have been made better acquainted with the hospital, its function, its purpose. Too often is a hospital criticized by people who do not understand the workings of the institution.

EMPLOYEES

Showers for Employees

Every effort is being made to improve the working conditions of all our hospital employees. Showers have been installed both for the men and the women. The men's locker room has been re-decorated.

Christmas Party

At Christmas the Hospital employees held their second successful and well-attended Christmas party.

Employees' Activities

The men have built a horse shoe court in the rear of MS building. This is their chief diversion in the noon hour during the summer months. During the winter they organized a bowling team and are playing in a city league.

Hours Changed

Hours have been shifted and in many cases shortened without interference with the hospital service.

Esprit de Corps of Employees

The esprit de corps of all our employees is of the very best. This is appreciated not only by me, but also by the Board of Managers, the Staff, and all the patients to whom we render service.

DIETARY

Dietary Department Praised

The dietitian and all her assistants deserve an extra word of praise. Because of their untiring work and efforts the patients, the doctors, the nurses, and all the employees have been well taken care of.

Food Costs Moderate

In spite of rising prices in foods commodities, our menus have been made attractive, varied and nourishing at a moderate cost. Close buying and cooperation between the Supt's office and the Dietary Dept. has made this possible.

SOCIAL SERVICE DEPARTMENT

Assistant Named

The work in this department of the hospital has increased considerably. Consequently it was necessary to hire an assistant, Miss Ruth Darr. As a result of this change, more social work with patients has been possible.

Accurate Settlements Made

With this added help we are able to determine more accurately the settlements of many service cases. Many of these cases might

have been admitted as Quincy settled cases, when if properly looked into they were legally of another settlement, thereby allowing the Quincy Hospital to collect from that community. Already we have experienced an increase in income from such cases.

Accident Cases Checked

We are also able to check more thoroughly accident cases, which usually run into hundreds of dollars.

The hospital is covered every day with one worker, while the other does field work.

Automobile for Dept.

To make their work more efficient a used Ford Sedan was purchased. With this addition, we have been able to transport outpatients to and from the hospital. This is another service added to those already given by the hospital.

MAINTENANCE DEPARTMENT

Fever Therapy Cabinet

The maintenance department has been kept very busy with repairs, and work of all descriptions. Many gadgets and apparatus have been made by this department, including a Fever Therapy cabinet for the Physical Therapy Dept.

Equipment Installed

New equipment has been installed in the boiler room and other parts of the hospital.

Second Painter Hired

Because of the large amount of painting that is to be done, a second painter was hired in the fall of the year.

HOUSEKEEPING DEPT.

Hospital in Fine Shape

In spite of all the construction going on at the hospital Mrs. Lauder and her staff have kept our hospital in exceedingly fine shape.

Delays in Laundry

Even with the extra burden thrown on the laundry the work has been put out in fine style.

However this department has been inconvenienced on several occasions because of breakdowns with the extractors. These machines sadly need replacement.

LABORATORY DEPT.**Electro-cardiograph**

More and more we realize that a great amount of good work is done by this department. At the beginning of the year an electro-cardiograph machine was purchased. This department has taken on this extra responsibility and, like the rest of its work, has done it well. This service is not only rendered to patients in the hospital but to outside patients also.

We all appreciate the work done by Dr. McCarthy and his assistants, Miss Morris, Miss Rich, and Miss Kuhns.

X-RAY DEPT.**Dr. Arbuckle Volunteer Worker**

As in other departments the work performed has increased. For several months we had the services of Dr. Albert Arbuckle. The brunt of the work has been carried by Mrs. Philbrick, with Mr. Tsotsones and Miss Larkin assisting.

A New G.U. Machine Needed

It is hoped that during the coming year a new G.U. machine may be purchased to bring the department up to date, and to replace an old table purchased over ten years ago. The X-Ray department and G.U. service have arranged an up to date and practical Cystoscopy room in our X-Ray department, if the equipment is purchased.

Radium Given by Dr. Whelan

Not many in this community appreciate the good that the chief of the X-Ray Department, Dr. Charles Whelan, does for the hospital and its poor patients in the line of Radium treatment. Dr. Whelan owns the only Radium available in Quincy and he never hesitates to give these treatments to indigent patients when asked by members of the Staff.

PHYSICAL THERAPY**Rates Reduced—Treatments Increase**

The record of this department shows an increase in treatments given. This has been made possible by the new ruling of the Board of Managers in reducing the rates for these treatments. The services of Dr. Payzant and this department are now available to more of our patients and citizens of Quincy.

Equipment Complete

We are exceedingly proud of this department and its equipment, since there are few if any hospitals in New England that can be compared with us in this respect.

PRE-NATAL CLINIC

Clinic Moved to Hospital

At the beginning of the year the pre-natal clinic was moved from the city dispensary to the hospital. This clinic is held in the Physical Therapy department every Thursday afternoon. We feel that a better service is rendered under this scheme. All the patients attending this clinic are referred by their family physician because they are unable to pay a fee to the doctor, and ultimately are admitted to the Quincy City Hospital on service.

BUS SERVICE

Bus Service Appreciated

For the past several months the Eastern Mass. Railway has been running a bus from Quincy Square to the hospital during visiting hours. Since it has been difficult for many relatives and friends of patients to reach the hospital otherwise, this service has been appreciated.

Through the cooperation of Mayor Burgin and Mr. Hayes this has been made possible.

DEPT. OF PUBLIC WORKS

Work of D.P.W.

During the year we call upon Mr. Ezekiel Sargent and his assistants for one thing or another and invariably they cooperate most generously. This has made possible many repairs to the buildings as well as improvements to the grounds of the hospital at no extra cost to the hospital.

W.P.A.

Loss of George Pfaffmann Felt

We regret to see the passing of Mr. George Pfaffmann. He was a real friend of the hospital and always cooperated in putting through projects which were of benefit to this Institution.

Mr. Anthony Venna and his assistants have been a great help to us, and we wish to thank them in this report.

Administration Building

To the officials of W.P.A. we owe great thanks for the marvelous Administration Building that is being constructed at the hospital.

WELFARE

Welfare Dept. Helpful

The Welfare Dept. has been most cooperative in giving us help for various departments throughout the year. Here we express our thanks.

QUINCY POLICE—CITY HALL**Accident Ambulance Service**

For the past several months the Police Dept. has carried the brunt of the accident ambulance service. They have given splendid service. May I compliment Chief of Police Joseph Avery and all his men for this and all the other work done for the hospital.

City Hall Officials Cooperate

To City Hall, its various departments, and especially the Mayor's office, the city solicitor's, auditor's, and the treasurer's office, and their staffs, we express our appreciation for their constant co-operation.

TO THE NEWSPAPERS**Newspapers Cooperate**

We thank the Quincy Ledger and the Quincy News for their help in bringing to the attention of our people the work, the aims, and the needs of our institution.

CITY COUNCIL

We earnestly thank the council for its continued support of the hospital throughout the year.

To the many organizations and friends who from time to time have done one thing or another we record our sincere appreciation.

Patients' Library Service

The hospital library has been well covered by Miss Helene Hodgkinson, who replaced Mrs. Zayma Chapelle. I join the many patients, nurses and doctors in expression of appreciation of this library service at the hospital. We are pleased to report that much larger library facilities will be available on the ground floor of the new Administration Building.

Wollaston Hospital Aid

The Wollaston Hospital Aid has done considerable serving for the hospital this past year. We take this opportunity of thanking each member of this serviceable group.

Patients Have Roof Garden

Our roof garden on the MS building was given a good start this last spring. Mr. Stewart of the Park Department furnished us with some beautiful flowers and plants for the flower boxes which were made by the maintenance dept. We hope to have this accommodation used more by the patients next spring. A beautiful view of the Blue Hills and the shores of Quincy can be had from this location.

Funds Needed to Complete Roof Garden

If some generous friends of the hospital could furnish the necessary means for awnings and furniture the garden would be used more by the many convalescent patients treated at our hospital.

Weekly Concerts

The Wednesday afternoon W.P.A. concerts have been thoroughly enjoyed by our patients throughout the year. I'm sure that I express their appreciation in this report as well as mine.

Again I wish to impress upon our good citizens that the work of the Hospital cannot be accomplished without the cooperation given me by our nurses, the Staff, our employees, and the Board of Managers. May I ask for their and your continued support to carry forward?

ACCOMPLISHMENTS AND IMPROVEMENTS MADE DURING THE YEAR

1. Standing of American College of Surgeons regained.
2. Regaining of the confidence and support of the community.
3. Transfer of Pre-natal Clinic to the Hospital.
4. Bus service to the Hospital instituted.
5. Construction of new administration building.
6. Appointment of Miss Helen O. Potter for Superintendent of Nurses and Director of our Training School.
7. Air conditioning of nursery.
8. Sound proofing of MS III; MC II; Nursery; Labor rooms.
9. Major repairs to Boiler No. 1 and No. 2.
10. Installation of two steam presses in laundry.
11. Replacement of pressure tank in boiler room.
12. Transfer of Formula room from basement of MS building to MC II.
13. Installation of stainless steel equipment in MS Ward Kitchens.
14. Ediphone in Record room.
15. Purchase of a new Mimeograph machine.
16. Installation of steel partitions in Childrens' Ward.
17. Purchase and installation of 1 Hess Incubator.

LOOKING FORWARD HOSPITAL NEEDS

1. New wing to nurses' home.
2. Mangle and extractor for laundry.
3. New sterilizers for operating room.
4. Sound proofing of at least three more wards.
5. Enclosure of children's porch; enclosure of south wing of MS and MC building.
6. Adoption of a modern bookkeeping system.

Respectfully submitted,

JOSEPH P. LEONE, M.D.,
Superintendent.

REPORT OF THE SCHOOL OF NURSING OF THE QUINCY CITY HOSPITAL

To the Board of Managers of the Quincy City Hospital

Gentlemen:

I wish to submit the forty-seventh report of the Quincy City Hospital School of Nursing.

The executive and teaching personnel is as follows:

Superintendent of Nurses	1
Assistant Superintendent of Nurses	1
Instructors	2
Night Supervisor	1
Assistant Night Supervisor	1
Obstetrical Supervisor	1
Operating Room Supervisor	1
Assistant Operating Room Supervisor	1
Head Nurses	9
Assistant Head Nurses	4
The Census of the School:	
First year students	14
Second year students	13
Third year students	13

Affiliating

Of the above, five are affiliating at Bellevue Hospital in New York and three at the Charles V. Chapin Hospital in Providence.

Graduate floor duty nurses—60-65—vary according to the census.

Classes Increased

As shown by the above figures, our student group is steadily increasing.

Standard High

Only those students who meet the educational requirements of the States of New York and Massachusetts are being admitted, although many students apply for admission to this there has been a marked decrease in the number of eligible candidates. This is due to the fact that entrance requirements have been raised.

No Graduation in 1936

No students were graduated last year since no classes were admitted in the year 1933.

In September, 1936, Miss Sara Adams completed her work as Superintendent of Nurses. Since that time Miss Barbara E. Hobbs has been in charge. The position will be filled on Feb. 1st by Miss Helen O. Potter.

Housing Serious

The housing situation for the nursing staff is very serious. Our three homes are full to capacity. At present, in order to accommodate the number of nurses necessary for the proper care of the patients, about forty nurses are living out at an additional expense to the hospital. As the student body increases, the housing problem is becoming more urgent.

Committee Meets Regularly

The Training School Committee has met monthly in the Supt's office. Their counsel and advice on various problems pertaining to the Training School has been a great help and has been appreciated.

Members of the Committee serving during the year were:

Mr. Ernest L. Collins, *Chairman*
Mrs. T. Newell Lane
Mrs. Carl Hayward
Mr. Gilbert Balkam
Mrs. William Robb
Mrs. Emma Tousant
Dr. Joseph P. Leone
Miss Barbara Hobbs—*Acting Secretary*

Respectfully submitted,

BARBARA E. HOBBS, R.N.,
Acting Superintendent of Nurses.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

To the Board of Managers of the Quincy City Hospital.

GENTLEMEN:

Work Increases

The Social Service Department this year has had 663 cases referred to the department. Thirty-two required convalescent home placement, five cardiac patients were transferred to the House of the Good Samaritan, Boston, three patients were referred to the Endocrine Clinic at the Evans Memorial Hospital, Boston, nine patients were furnished with orthopedic braces, fourteen patients were referred to the Board of Health Clinics, eleven patients were transferred to other hospitals for specialized care. There were twelve hundred and sixty-eight home visits made during the year. All patients discharged from the hospital who had to return for physio-therapy treatments and had no means of transportation were referred to the department and a worker made arrangements to drive these patients to the hospital.

Service Increased

The economic condition though somewhat relieved is still an important factor in social service work and due to this social service admitting on all service cases was introduced into this hospital in July of this year. In most large hospitals it is found that social service admitting is of decided advantage to the patient, doctor and the hospital, in so far as it makes possible financial adjustment for the patient when necessary and when it is found that the patient should receive the attention of a private physician rather than be admitted to the hospital service this is recommended, also when it is found after careful investigation that the patient cannot assume the hospital financial responsibility and his settlement is such that the hospital can claim reimbursement from his place of legal settlement these cases can be referred to the Department of Public Welfare for reimbursement. Since this service has been functioning 152 cases have been referred representing \$5,760.65.

An Assistant Added

In order to carry on this work it was necessary to add a worker to the department. In August of this year Miss Ruth Darr was appointed to the staff as assistant social worker.

Welfare Dept.

The department wishes to take this opportunity to extend its thanks to Commissioner to Public Welfare, Mr. Alvin S. Wight and his associates for their cooperation during the year.

Family Welfare

The Quincy Family Welfare Society has been most cooperative throughout the year and it has been a pleasure to be privileged to work with Miss Effie Waddell and her assistant Miss Catherine Cross.

Kiwanis Club

The Kiwanis Club this past year have assumed financial responsibility for seventeen hospital tonsillectomy cases, amounting to \$101.00. We wish to take this opportunity to extend our appreciation for this.

Quincy Visiting Nurses

Quincy Visiting Nurses Association has been most cooperative in giving our discharged patients care when necessary and also to our Pre-Natal Clinic patients.

Pre-Natal Clinic

Since the Pre-Natal Clinic was transferred from the dispensary to the hospital, the attendance has been markedly increased. Having such desirable quarters in which to work, it has enabled the workers of this department to have much closer contact with patients. A budget system of paying for hospitalization as the patient comes to clinic has been put into effect and is working out very satisfactorily both for the patient and the hospital.

In May of this year a Social Service Committee was formed with the following people serving:

Mrs. Carl Pfaffmann
Mrs. George Gilchrist
Mrs. W. N. Doble
Miss C. Walker
Miss M. Welch
Judge James A. Mulhall
Doctor Joseph P. Leone
Mrs. Hilda M. La Rocca, *Secretary*.

Automobile Purchased

In June of this year a used Ford Sedan was purchased for the department.

The following is a report of welfare cases treated during the past year.

Cases aid given.

A. Quincy settle case on which there is no reimbursement to the hospital.

Surgical	Medical	Obstetrical	Aural	Pediatric	Dental
89	33	29	59	24	4
\$4,287 85	\$1,463 45	\$1,385 75	\$740 94	\$815 15	\$44 50

Cases aid given.

Total aid given \$10,265 14

B. Outside settle cases for which the hospital is reimbursed.

Surgical	Medical	Obstetrical	Aural	Pediatric	Dental
104	60	17	52	16	8

Total aid given \$10,265 14

The department wishes to express its appreciation to the Board of Managers and the Superintendent of the hospital Dr. Joseph P. Leone for their kind cooperation throughout the year.

Respectfully submitted,

HILDA M. La ROCCA,
Director.

REPORT OF DIETARY DEPARTMENT FOR 1936

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The Dietary Department has proceeded along the same principles as in 1935.

Changes In Staff

Miss Cressie Schmitt and Miss Edith Whittaker resigned during the year, and these vacancies have been ably filled by Miss Ossela Kay and Miss Caroline Messier.

The average per capita cost was \$0.396. The total number of special diets for the year was 6976. Of this 2036 were Salt Free Low Protein, 1795 Diabetic, 1377 Fat Free, and others.

New Equipment Added

The new equipment for the department included a new set of larger coffee urns to replace the out-moded and unsatisfactory old ones, and a double stainless steel sink to replace a soap stone one.

Special care has been taken throughout the year in the purchasing of staples in anticipation of a rise in food prices.

Respectfully submitted,

MOLLIE ROBINSON MICHELMAN,
Head Dietitian.

REPORT OF HOUSEKEEPING DEPARTMENT*To the Board of Managers of the Quincy City Hospital:*

GENTLEMEN:

New Presses Added To Laundry

There have been two new presses installed in the ironers' room. This gives much more room in the laundry.

Rest Rooms Enjoyed by Employees

The changes which were made in January 1936 have proven very satisfactory and all the employees have enjoyed the comfort of their rest room and their showers on hot days.

Ward Kitchen Equipment Improved

There have also been a washing machine and dish cabinet for kitchen dishes installed in M.S.-1 which have proven satisfactory.

Respectfully submitted,

CATHERINE LAUDER.

MAINTENANCE DEPARTMENT*To the Board of Managers of the Quincy City Hospital:*

GENTLEMEN:

Cost of materials for Maintenance	\$8,168 15
Cost of new equipment ordered by Maintenance Department	3,085 63
Total cost of Materials	\$11,253 78

Work done during year by Maintenance Department Men.

All Work Done by Our Maintenance Department**New Equipment Installed**

Installation of air conditioner in Nursery.
 Moving of Maintenance Department to Rice Basement.
 Welding outfit bought and used.
 Woodworking machine installed.
 Water coolers installed in Dining Rooms and corridor outside of nursery, and connected to drinking fountain outside of surgery.
 Installation of kitchen cabinets in MS-1-2-3.
 Remodelling M & S-1 kitchen.
 Moving of formula room from M & S basement to M & C-2.
 Installation of new presses in laundry.
 Installation new stainless steel sink in Main Kitchen.
 Installing new blow off tank in boiler room.
 Changing playroom to ward and partitioning off rooms on M & C-3.
 1426 requisitions for repairs by the various departments in the hospital.

Major Repairs Made in Boiler Room

Major repairs during the year.

Installation of expansion joint in main steam line in MC basement.

Repair of furnaces in No. 1—No. 2 boilers and partition wall between.

Installation of new service in conduit pipe from M & C to Service Buildings for both light and power to replace burned out parkway cable.

Installation of new blow off tank in boiler room to replace rusted out tank.

Car gates on Service Building, and M & S elevator.

Respectfully submitted,

CARL ERIKSSON,
Chief Engineer.

REPORT OF THE PRESIDENT OF THE STAFF

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The work of the Hospital Staff has been carried forward during the past year in an able and efficient manner.

Ward Rounds

Ward visits have been improved so that our internes are getting more serviceable training.

Meetings Better Attended

Our monthly Staff meetings have been more interesting and instructive, conducted by members of the Consulting and Active Staffs with the assistance of the Internes.

Dr. Johnson Resigns

Dr. Elmon R. Johnson tendered his resignation to the hospital on November 17, 1936 and it was accepted. He had been very active on the Aural Service and we regret his loss to the service.

Dr. Nugent Resigns

Dr. John L. Nugent resigned from the Staff to take up work with one of the large insurance companies.

Special Courtesy Staff

The following physicians were recommended to the Special Courtesy Staff, having been in active practice in Quincy for some time: Doctors Astro DiBona, Alfred V. Mahoney, Leslie Van Raalte, James M. Maguire and Emerson Read.

Dr. Hanigan Ill

For the past two years Dr. Roscoe S. K. Hanigan has been seriously ill and has been unable to carry on his service. Prior

to his illness Dr. Hanigan had served many years on the Staff with great credit to both the Staff and the Hospital.

Two Deaths Occur on Staff

We are sorry to report the deaths of two of our leading physicians during the past year, Dr. John T. Reynolds and Dr. Lawrence P. Crawford. Both physicians had been on our Staff for many years, and had given generously of their time to our hospital.

Respectfully submitted,

WILLIAM J. McCAUSLAND, M.D.,
Staff President.

REPORT OF INTERNS COMMITTEE

To the President of the Staff of the Quincy City Hospital

DEAR SIR:

Three Major Changes Made

Three very important steps were taken by the Interns Committee and recommended to the Board of Managers during the past year. They were: 1st, to lengthen the service of Internship from 12 months to 18 months, rotating service; 2nd, to increase the number of house officers from 6 to 9; 3rd, to establish the position of a one year's residency and appointment of 1 resident. These were approved by the Board. It is generally felt among the staff that this is a move in the right direction. We feel that a larger rotating service will attract graduates from the better medical schools.

Posters Sent to All Parts of The U. S.

As a result of sending posters to different medical schools in the country over 100 applications were received for the 1937 Internships. Of these, 7 men were appointed, four for July 1, 1937 and three for January 1938. The eighteen months' service will begin on July 1, 1937.

Six Interns Graduate

The house officers graduated during the year were: Dr. Joseph Lipton, Dr. Max Stein, Dr. Sung Wook Chang, Dr. Alfred Mahoney, Dr. Frank Abate, and Dr. David Faber.

Respectfully submitted,

Dr. NATHANIEL S. HUNTING,
Chairman,

Dr. CHARLES S. ADAMS,
Dr. WALTER L. SARGENT,
Dr. FRANCIS P. MCCARTHY,
Dr. GEORGE D. DALTON,
Dr. JOSEPH P. LEONE,

Acting Secretary.

REPORT OF THE RECORD COMMITTEE

To the President of the Staff of the Quincy City Hospital

DEAR SIR:

Advances Made

The record committee wishes to report some improvement in the completion of records as a whole.

The value of the discharge summaries is questionable, considering the great increase in the work of compiling the records, with the fact that this information is already therein contained.

Supervision Necessary

Under instruction from the active staff, the records could be improved, particularly in the case of private patients. It has been suggested that the attending physicians on private patients supervise each step in the record, and thus overcome any negligence on the part of the interne to properly complete the record.

Respectfully submitted,

WILLIAM L. KREIGER, M.D.,
FRED A. BARTLETT, M.D.,
ROBERT COOK, M.D.

REPORT OF THE STAFF PROGRAM COMMITTEE

To the President of the Staff of the Quincy City Hospital

DEAR SIR:

The program committee, for the past year, has functioned with the main idea of increasing the attendance at the Staff meetings by arranging more attractive programs.

We have continued the policy, started last year, of inviting the consultants to give scientific papers at our meetings. In addition, the house officers are encouraged to present clinical papers.

Attendance Increased

The newly elected president of the Staff has enlarged the committee for the coming year and a concerted effort is to be made to encourage a still larger attendance at the Staff meetings.

Respectfully submitted,

FRANCIS P. MCCARTHY, M. D.,
J. EDWARD KNOWLTON, M. D.,
DAVID H. MONTGOMERY, M.D.

REPORT OF MEDICAL STAFF

To the President of the Staff of the Quincy City Hospital

DEAR SIR:

Added Meetings Held

During the past year, the Medical Staff has carried on efficiently with the same personnel. We have already organized and meet at stated periods to discuss general medical topics and improve the efficiency of the staff as a whole.

Oxygen Therapy Studied

At present, intensive work and investigation are occupying our time in the study of oxygen-therapy. We hope to improve the hospital equipment, and also as a consequence materially benefit those cases which for one reason or another will need oxygen.

Respectfully submitted,

C. J. LYNCH, M.D.,
Chief of Medical Staff.

REPORT OF THE AURAL SERVICE

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

In 1936 the aural service performed the following operations:

Tonsil and adenoids	381
Mastoids	15
Radical sinus and ethmoidectomy	1
Incision and drainage antrum	1
Pterygium excision	1
Esophagoscopy	1
Enucleation eye	1

Total number of aural admissions 441

The aural service regrets the acceptance of the voluntary resignation of Dr. Elmon R. Johnson who has been a very willing and conscientious member of the Aural Staff.

Respectfully submitted,

WILLIAM J. HARKINS, M.D.,
Chief of Service.

REPORT OF OBSTETRIC SERVICE

To the President of the Staff of the Quincy City Hospital

GENTLEMEN:

During the year 1936 Doctors King and Belin took charge of the obstetrical service including the pre-natal clinic. They alternated every two months on the service, doing the pre-natal clinic the same months that they were on service.

During their service there were 161 babies delivered. Of these there were:

Normal deliveries	96
Low forceps	37
Mid forceps	5
High forceps	4
Breech	8
Versions	5
Caesarean section	6

Respectfully submitted,

RICHARD M. ASH, M.D.,
Chief of Service.

REPORT OF THE PEDIATRIC SERVICE

To the President of the Staff of the Quincy City Hospital

GENTLEMEN:

New Equipment Added

I believe that much has been accomplished during the past year toward increasing the efficiency of the Pediatric Service.

This is partly due to increased equipment and space—itemized as follows:

1. A Hess incubator (with oxygen therapy attachment).
2. Installation of cubicles in three rooms.
3. Converting previously fixed windows opening from the babies ward to the corridor into a swinging type. (For better ventilation).
4. Adding twelve beds to the ward by converting a former playroom—making a total of 42 beds.
5. Complete painting of the entire ward.

Social Service Pediatrics

Arrangements have been made with the Social Service Department for a typed report to be attached to the ward chart on all cases referred for social investigation.

Unusual Cases Treated

Various unofficial contacts have been made from time to time with the Boston Children's Hospital in regard to some of the unusual cases that have been admitted.

Convalescent Home for Children

As in my report of last year I wish to emphasize again the necessity of a CONVALESCENT HOME FOR CHILDREN in Quincy. There are many re-admissions causing uncalled for expense to the hospital because certain children have to be discharged to a home where either the food or the surroundings, or both, are such that a healthy convalescence is impossible. The danger of cross-infection, in spite of the cubicle system is definite and somewhat alarming when the ward is crowded with respiratory ailments. Both these problems could be partially alleviated by sending suitable children to a convalescent home, or special convalescent ward, as soon as the acute stages of illness were past. There has recently been dedicated in the city a marvelous Home for the Aged. Is it not as important to look out for "citizens of the future" as "citizens retiring from active duty?"

The diagnoses of the various cases admitted to the service during the past year are as follows:

PEDIATRIC STATISTICS FOR THE YEAR 1936

Chief of Service.

REPORT OF THE PHYSICAL THERAPY DEPARTMENT

To the Board of Managers of the Quincy City Hospital

Gentlemen:

Greater Number of Treatments Given

Statistics of the Physical Therapy Dept. for the year 1936 show a marked increase in demand for the therapeutic resources of this section of the Hospital.

The number of treatments given reached a record total of 9432. The visits of patients numbered 5997, and there were 316 individuals treated.

There has been no change in personnel during the year.

No Additional Equipment

Although no new equipment has been added to the department in the last five years, we have continued operating the machines with the help of the Maintenance Department and we are indebted to them for their aid in enabling us to contribute services to our patients.

We are indebted to the Fango Corporation of America for their contribution of a supply of their product to enable us to treat certain cases of joint disease.

Owing to the return of equipment to the Comp. Sol. Lite Company we were unable to continue our work started last year with this form of irradiation. We are indebted to the Company for the loan of this apparatus which was of value in the treatment of several of our patients.

NUMBER OF TREATMENTS GIVEN IN 1936

Auto-condensation	10
Cabinet Bath	57
Colonic Irrigation	52
Diathermy	1,546
Electric Saturation	210
Fulgeration	11
Galvanism	174
General Hydrotherapy	79
Infra Red Irridiation	794
Manipulation	333
Massage	1,574
Muscle nerve testing	3
Radiant Light	1,423
Scotch Douche Bath	39
Sinusoidal Electrotherapy	979
Sitz Bath	28
Static Electrotherapy	256
Ultra Violet (air cooled)	1,240
Ultra Violet (water cooled)	286
Vibration	30
Whirlpool Baths	227
Shower Baths	42
Artificial Hyperpyrexia	11
Fango	28

Total number of treatments 9,432

Respectfully submitted,

CLAUDE L. PAYZANT,

Chief Physio-therapist.

REPORT OF X-RAY DEPT.

To the Board of Managers of the Quincy City Hospital

Gentlemen:

Herewith please find my report of the work done in the X-Ray Laboratory during the past year, as well as a few recommendations which I think are necessary to keep the department up to date.

10% Increase For Year

The number of patients radiographed showed an increase of approximately 10% over the preceding year, and represents about one-third of the total number admitted to the various departments of the hospital.

Work Unevenly Distributed

The majority of the patients are referred to the department during the first two days of each week and the fewest number during the last few days. In spite of this uneven distribution our technician, Rebecca Philbrick, has handled the work in her usual efficient manner. We intend to ask the Staff to cooperate with the X-Ray Department so that the requests for examinations will be more evenly distributed.

Constance Larkin and Martha Johnston, our substitute technicians, have filled in admirably when called upon.

Dr. Arbuckle Volunteer Worker

Dr. Albert Arbuckle of Montreal, Canada, has been taking a post-graduate course in X-Ray technique and diagnosis and has spent the last nine months with us. He has been a great help in the routine work of the laboratory, and now that he is gone we miss him.

The clerical work of the department has been done by Evelyn Hartford, with Edna Connell as substitute. Both have done their work quickly and accurately.

New Equipment Needed

The urological department is becoming more important each year, and in order to keep pace with the work it is necessary to have a new table—the old one having outlived its usefulness. We recommend the purchase of the latest model after consultation with the urological staff. Radiographic room B can easily be arranged to accommodate this table without interfering with the routine work.

We also recommend the purchase of a few new cassettes and intensifying screens in order to insure the best radiographic results.

The following is the statistical report of the cases seen in the X-Ray Department during the period from January 1, 1936 to December 31, 1936, inclusive.

STATISTICAL REPORT—X-RAY DEPARTMENT

January 1, 1936 through December 31, 1936

Total number of patients	3,148
Service patients	1,970
Private patients	1,178
House patients	2,049
Out patients	1,099

In closing we wish to express our appreciation to the Administration and the Staff for their continued cooperation.

Respectfully submitted,

CHARLES WHELAN, M.D.

REPORT OF LABORATORY DEPARTMENT

To the Board of Managers of the Quincy City Hospital

Gentlemen:

The following is the report of the Clinical and Pathological laboratory for the year 1936.

Laboratory Facilities Used More

The past year was a very active period for the laboratory as there was an increase of approximately 5,000 examinations. This increase is partly due to the greater number of admissions during the past year, but also reflects the increased dependence on the laboratory as an aid in the diagnosis of disease.

Quarters Enlarged

During the past year we have taken over the former formula room to be utilized for pathological work and the storage of specimens.

Laboratory Service Rendered to Outside Physicians

The laboratory shows an increase in the number of cases for Pneumococcus typing and has distributed a large amount of Anti-pneumococcic serum to Quincy and the surrounding towns. We wish to stress the importance of early diagnosis as after the first 96 hours Anti-pneumococcic serum has no therapeutic value.

Electro-Cardiograph Made

The laboratory is pleased to announce that an Electro-cardiographic machine has been added to the equipment and that 91 electro-cardiographs have been made during the last 11 months of 1936.

Post-mortem Examinations

The post-mortem examinations show a still further increase. We again wish to thank the citizens of Quincy for their cooperation in granting permission for these examinations which are so helpful to the Staff from a scientific standpoint.

As director of the laboratory I wish to express my appreciation of the continued efficient efforts of the technicians, Miss Frances K. Morris, Miss Elinor D. Rich, and Miss Ruth H. Kuhns, in carrying out the increased number of diagnostic tests during the past year.

The following is a detailed report of the examinations made during the year 1936.

The following is the report of the Clinical and Pathological laboratory of the Quincy City Hospital for the year 1936:

Pathologist.

REPORT OF HOSPITAL LIBRARY

To the Board of Managers of the Quincy City Hospital

Gentlemen:

The Hospital Branch of the Thomas Crane Public Library has completed eleven years' service to the patients and staff of the Quincy City Hospital.

Mrs. Zayma Chapelle Resigns

In April of this year, Mrs. Zayma Chapelle resigned as Hospital Librarian after serving nearly ten years in that capacity. Miss Helene Hodgkinson was appointed her successor.

Three Visits Made Each Week

The work has gone on much the same, with the librarian visiting the hospital three afternoons a week and making a tour of the wards with the library wagon. The service rendered is always much appreciated by each patient and member of the staff.

Reading Tastes of Patients Vary

The reading tastes of the borrowers are varied. However, it is safe to say that the western novel is most popular in the men's ward. Sea stories and detective tales are also in great demand. The women patients want light novels where the love interest is prevalent. Family and detective stories are also asked for often. For the person who cannot read English we have Italian and Finnish books in the hospital collection. Books in other languages are borrowed from the main library.

Children Call For Picture Books

In the Children's wards the call is mostly for colorful picture books and humorous tales, although a goodly number of fiction stories for older boys and girls are circulated every day.

Collection Increases

There are 1,099 books and a number of magazines in the present library collection, eight periodicals being subscribed for annually and other used copies being donated by friends. The permanent collection is continually being supplemented with books from the main library.

Temporary Quarters During Alterations

The Hospital Library is now housed temporarily in a small room near Rice I. The Librarian is looking ahead with great pleasure to the time when the Administration Building will be completed. For in the new building there is a room set aside for the library where there will be more shelf space and much pleasanter atmosphere for the personnel who use the library room afternoons before the visitation to the wards.

Circulation Up Over a Year Ago

The total circulation figures for this year show a gain of 3,265 over the year 1935. The number of books circulated during 1936 are as follows:

Adult fiction	8,072
Adult non-fiction	2,153
Juvenile fiction	2,547
Juvenile non-fiction	468
<hr/>	
Total	13,240

Respectfully submitted,

HELENE E. HODGKINSON,
Hospital Librarian.

REPORT OF WOLLASTON BRANCH HOSPITAL AID ASSOCIATION

To the Board of Managers of the Quincy City Hospital

Gentlemen:

Much Sewing Done

The Wollaston Branch Hospital Aid Association meets in the Community room of the Wollaston Branch Library the first Thursday of every month from Oct. 1936 to June 1937 inclusive. All day sewing meetings are held from 10 A.M. to 4 P.M. with a short business meeting at 2 P.M. There is an average attendance of ten members and the work consists of sewing and making necessities for the hospital.

Respectfully submitted,

MRS. R. EDWARD MARTEL.

QUINCY CITY HOSPITAL GENERAL INFORMATION

The Quincy City Hospital is a city institution supported by the city of Quincy and the receipts from patients.

Private patients, as well as part-pay and free patients, are admitted to the hospital upon recommendation of any physician.

Only those unable to pay a doctor's fee will be admitted to the ward service.

Application for admission should be made at the Admitting Office on Whitwell Street between the hours of 9 A.M. and 4 P.M. Maternity cases are admitted at any time. Accident or emergency cases are received in the Accident Room at any time.

Patients suffering from mental or chronic diseases are not admitted to the hospital.

RATES

1. General

Service—\$3.00

Ward Private—\$3.50

Semi-private—\$4.00

Private rooms—\$5.00, \$6.00, \$7.00 a day.

2. Maternity

Service—\$24.50 per week.

Ward Private—\$4.00 a day.

Semi-private—\$5.00 a day.

Private rooms —\$6.00, \$7.00 a day.

These charges include board, general nursing care, and ordinary medicines. An operating room fee of \$5.00 for minors and \$10.00 for majors is made. A laboratory fee of \$5.00 is made on all specimens obtained from operations in the operating room. This examination is required by the American College of Surgeons. Extra charges will be made for X-ray examinations, special medicines, Physio-therapy treatments, special laboratory examinations, apparatus, board of special nurses, oxygen, professional blood donors, and ambulance service.

Private patients are required to pay one week's board and the operating room fee or delivery room fee on admission. Patients coming from outside of the city are expected to have a private physician, a member of the Quincy City Hospital Staff. Patients must arrange with their private physicians regarding their fees. The physicians on service receive no remuneration for their services to the ward patients.

The hospital reserves the right to move to the open ward a patient occupying a private or semi-private room who fails to pay his bill for hospital service within 72 hours of presentation.

VISITING HOURS

1. Adults

Service: 2-3 P.M., daily, 2 visitors at a time.

7-7:30 P.M., daily 1 visitor at a time.

Semi-private: 2-4 P.M., daily, 2 visitors at a time.

7-8 P.M., daily, 2 visitors at a time.

Private Rooms: 11 A.M.—8 P.M., daily, 2 visitors at a time.

2. Children

2-3 P.M., Wednesdays and Sundays, 2 visitors on each of these days.

Patients who are dangerously ill may have two visitors at any time. Children under 14 years should not be brought to visit patients.

Visitors may bring only fruit, flowers, and reading matter to adults. These gifts must be left at the Information Desk or with the nurse on the ward, and must not be given to the patients. Only toys may be brought to the children's ward, and must be given to the nurse in charge.

At 3 P.M., on inquiry at the Information Desk, the relatives of patients may talk with the physician in charge.

Patients may be visited by clergymen of their selection, and, so far as possible, the hospital will grant the performance of any desired religious rites.

PRIVATE NURSE

Arrangements for special nurses should be made through the Admitting Office upon consultation and advice of the attending physician. The salary of the special nurse is paid direct to her by the patient or relatives. The hospital makes a charge of \$.50 a day for her board. Quincy City Hospital graduates, when available, are given preference.

Miscellaneous Information

TELEPHONES

There are telephone connections in all private rooms. Instruments may be installed with the permission of the attending physician. There is an extra charge for this service.

WHAT TO BRING

Private patients entering the hospital should bring with them nightgowns, bathrobe, slippers, comb, tooth brush, and tooth paste. Maternity patients are requested not to bring clothing for the baby to wear in the hospital.

VALUABLES

Money and other valuables must be deposited with the Admitting Office upon admission; otherwise no responsibility will be assumed by the hospital.

LIBRARY

The Thomas Crane Public Library maintains a branch at the Quincy City Hospital. Books are obtainable from the Librarian, who visits each floor between 2 and 5 P.M. on Mondays, Wednesdays and Fridays.

SUGGESTIONS

It is requested that any suggestions for improvements of service be made at the Superintendent's Office before the patient leaves the hospital.

WITH SERVICE FOR ALL . . .

The Quincy City Hospital is a health Institution; its duty is to care for the sick in our community, in order that they may live and enjoy their life, their work and their home.

Can anyone imagine our community without a hospital? We defy the mind to conceive such a nightmare.

We ask your support and in return we give you our solemn assurance that you may be confident that every dollar given us will be carefully expended in order that life and happiness may be prolonged.

REPORT OF PUBLIC WELFARE DEPARTMENT

FEBRUARY 6, 1937.

HON. THOMAS S. BURGIN, *Mayor*:

DEAR SIR:

The Department of Public Welfare respectfully submits the following report for the year ending December 31, 1936.

The past year has witnessed many improvements in the several sections of the Welfare Department. Some of these were contemplated before the year began and others were the outgrowth of our collective ideas as to certain measures which would increase the efficiency of the Department and at the same time simplify our tasks. We feel that we have done eminently well, and I am confident that during the year 1937, we will be able to place all phases of the Department on a real business basis.

Our Outside Aid expenditures were \$100,000.00 less than in 1935 and we plan on substantial reductions during this year. Our case load averaged a little less and the W. P. A. projects gave less work to our people than during the year 1935. In spite of all that we had returned to the City more than 100,000 working hours of labor for aid received, which is in proportion almost 100% increase over any previous year since the welfare became a big business.

Mothers' Aid has increased considerably during the year, and will continue to grow in view of the new feature of Aid to Dependent Children which is a part of the Federal Social Security and became operative January 1, 1937.

Old Age Assistance has increased tremendously during the year due to the change in statutes to comply with the Social Security Act. There is a growing tendency toward leniency to those who have passed the period of productivity whether or not they are responsible for the present condition. January 1, 1936 we had 431 on Old Age Assistance and on December 31, 1936 the number had increased to 709. We predict that 800 will be the maximum case load under normal conditions for a city of our size.

The conditions at the City Home were far from satisfactory due to the fact that the Federal project for remodelling the Home was discontinued in June without being completed and which left us in a very unsettled state. The work was resumed in October and is still incomplete. When, and if the work is finished, we will have a very nice home and can accommodate approximately 40 inmates.

Conditions at the Dispensary are very good indeed and we feel proud of the fact that it is considered by those who are in a position to have made comparison one of the best set-ups in the Commonwealth.

We are indebted to the many private agencies that have co-operated with the department during the year, and I feel sure that the year 1937 will witness a further spirit of effective cooperation among all the agencies in the City. The Board of Health, the City Hospital, the Massachusetts Society for the Prevention of Cruelty to Children, the Family Welfare Society, the Visiting Nurses Association of Quincy, the Courts and Probation Office, and the Police

Department have given valuable service and one hundred percent cooperation, and we take this opportunity to acknowledge the same.

For details of expenditures reference is made to report of Auditor of Accounts.

Respectfully submitted,

ALVIN S. WIGHT,
Commissioner of Public Welfare.

GENERAL REPORT OF THE PUBLIC WELFARE DEPARTMENT FOR THE YEAR ENDING DECEMBER 31, 1936

Pension	2		

REPORT OF CITY PHYSICIAN

To His Honor, Mayor Thomas S. Burgin:

I beg to submit the following report for year ending January 31, 1937:

Number of patients at clinics	1,118
Number of visits	942
Referred to Dentists	43
Referred to Specialists	112
Referred to Hospital	126

J. M. MacLEOD,
City Physician.

REPORT OF THE POLICE DEPARTMENT

JANUARY 1st, 1937.

HON. THOMAS S. BURGIN, *Mayor of City of Quincy.*

DEAR SIR:

I respectfully submit the Annual Report of the Police Department for the year ending December 31st, 1936.

Personnel of Force

Chief, John J. Avery
Captain, Daniel H. Doran

Lieutenants

George A. Cahill	David L. Farrell
John M. Casey	William Ferrazzi
George W. Fallon	Thomas A. Malone
James H. Whelan	

Sergeants

Anthony Caperci	William F. McIntyre
Henry F. Corbett	James J. Mullin
John P. Duffy	Edward G. Riley
Charles O. Hinchon	Henry F. Riley
James W. H. Kemp	John J. Sullivan
Fred E. Young	

Patrolmen

Walter A. Adams	Thomas J. Duffy
Albert J. Ames	John J. Erwin
Joseph Belanger	Joseph H. Erwin
Joseph W. Benn	Thomas J. Fallon
Thomas J. Brennan	George W. Fay
Laurence J. Broderick	Joseph L. Ferguson
Walter R. Buckley	Charles L. Ferrazzi
John E. Buell	Daniel J. Fitzgerald
Patrick A. Byron	John J. Fitzgerald
George M. Cahill	Joseph E. Fitzgerald
Harold A. Cain	James A. Flaherty
Alfred J. Cappellini	John J. Flaherty
Frank C. Carullo	Joseph P. Flaherty
Daniel J. Collins	Dennis L. Ford
Jeremiah J. Connelly	James E. Ford
Jerome P. Connelly	Lawrence J. Galvin
Michael F. Connolly	Angelo P. Gaudiano
Tilden Crooker	James J. Gilmartin
William E. Crooker	Philip J. Grady
Edward R. Cruise	Joseph P. Griffin
Stephen J. Cullen	Leo J. Hannon
Edmund K. Cunniff	Richard N. Hart
Arthur M. Curry	Frank C. Hebert
David E. Curtin	William J. Hebert
John H. Daniels	Ernest W. Hodge
George F. Denneen	John J. Hughes
William J. Devine	Joseph F. Hughes
William F. Dillon	Chester N. Inman

Patrolmen

Fred L. Jones	Harry P. Pitts
Gaudias J. Joubert	Patrick J. Quinn
Thomas U. Kantola	Everett J. Reid
Robert E. Kelliher	Joseph A. Rogers
Philip F. Kelly	George L. Ross
Thomas F. Kerwin	John R. Saville
Ralph R. Lewis	William N. Schaetzl
John Looby	Frank L. Schaller
James A. D. MacKay	Carl I. Seppala
Timothy F. McAuliffe	John J. Sheehan
Alexander McDonald	James J. Sullivan
Francis X. McDonald	Clarence B. Tarr
Walter F. McKenna	Alexander D. Thompson
Thomas F. McNally	Andrew J. Thompson
Francis J. Mullen	Thomas J. Thompson
John O'Brien	Henry W. Thorne
James O'Connell	Frank W. Vallier
John O'Connell	Jeremiah J. Walsh
George E. Ogle	William C. Wright
Leonard Palmisano	John E. Wuerth
Joseph C. Pangraze	George L. Wyman
Joseph L. Paradise	John B. Zanotti

Reserves

John J. Bryan	Bruno Giudici
James C. Byrne	Ralph H. Hatfield
William Carullo	Wilfred C. Lewis
Walter W. Cobe	Joseph W. Lind
William H. Corcoran	Daniel McAuliffe
John S. Cryan	William McAuliffe
John P. Cunningham	Norborth W. McKearney
John F. Denneen	Kenneth S. Poulin
Guido R. DiBona	Leighton P. Rogers
Daniel H. Ford	Thomas J. Scanlon
Walter C. Frye	John O. Seller
Edmund F. Genero	Harold L. Tobin

Pensioned

Ernest H. Bishop	Jeremiah Dinneen
Claes A. Broberg	Michael F. Donovan
Edward J. Curtin	Jeremiah Hinchon
Jeremiah D. Dhooge	George F. Phillips

Other animals destroyed	52
Water running to waste	87
Stray animals found	91
Windows found open and made secure	77
Value of lost and stolen property recovered, Automobiles included	\$72,800 00
Electric lights reported not burning	5,279
Gas lights reported not burning	64

Conclusion

During the past year there were eight promotions in the ranks. Sergeants William Ferrazzi and John M. Casey being made Lieutenants, while Patrolmen Fred E. Young, John P. Duffy, Jr., Edward G. Riley, Charles O. Hinchon, and James J. Mullin were made Sergeants. Lieutenants Casey, and Ferrazzi and Sergeant Young were detailed to the Inspector's Office. Sergeants Hinchon and Edward Riley were assigned to street detail on night platoons. Sergeant Duffy was placed in charge of the Radio branch and Sergeant Mullin placed in charge of the Automobile Accident Bureau.

There should be a Lieutenant in charge of the Inspector's Office who will be there to receive complaints and keep a check-up on their work.

During the year the Radio Transmitter was shifted from the outside office to a room adjoining the Signal Room and the Lieutenant in charge as recommended by former Chief Bishop. The results of the change have the approval of all, both the men in the radio cars and relieving the Desk Lieutenants, in order for them to give attention to those coming to the Station on police matters.

In the repair and maintenance of the radio equipment comprising of the Station Transmitter, nine police cars and two of the Fire Department, which is taken care of by Sergeant Duffy, I recommend that a licensed radio repair man be added to relieve the Sergeant when on vacation, days off and sickness, as Sergeant Duffy is on call twenty-four hours a day and the radio cars must be in repair and in constant service.

During the year two of the oldest members of the Department were retired, Chief Ernest H. Bishop and Lieutenant Jeremiah Hinchon. They gave their best years of service to the citizens and had the best wishes of all the members when they retired from the Department.

During the year the City had a visit from President Franklin D. Roosevelt and every officer available was on duty and with the thousands that saw him, no persons were injured and police lines were maintained to the satisfaction of all who turned out to see him.

During the year the Station, through a W. P. A. project, including the cell-room, guard-room and main floor ceilings have been relathed and plastered, also painted, and with the addition of a new booking desk which was badly needed, the Station has the appearance of a new building and the men show a desire to work with a renewed interest.

To persons not familiar with Police Department duties, there is little chance for them to pass fair judgment as to the justification of our claim for additional officers. There were not during the year any serious crimes, except during the latter part, when an epidemic of breaks in schools, churches and stores took place that culminated with the arrest of one juvenile and two adults in Providence, R. I., that cleared up all the cases.

In conclusion I wish to thank Mayor Burgin, the City Council, the heads of the various City Departments for their assistance given me. I am also grateful to the District Attorney and members of his staff, to the Justices of the Court, the Probation Officer and members of his staff, to the Clerk of Court and his office staff for their consideration and advice. To all members of the Department who have worked to reach and maintain a high standard of efficiency I am sincerely thankful and to assure my appreciation that our best efforts to merit their confidence in the future will be given.

Respectfully submitted,

JOHN J. AVERY,
Chief of Police.

REPORT OF FIRE DEPARTMENT

JANUARY 1, 1937

HON. THOMAS S. BURGIN, *Mayor, City of Quincy,*
Quincy, Massachusetts.

DEAR SIR:

I respectfully submit the annual report of the Fire Department for the year ending December 31, 1936.

(Paid to City
Treasurer)

The fire loss for the year showed an increase of \$68,458.50, or an increase of 65.4% over the previous year. This was principally due to the severe electrical storms in July and August. Lightning struck the high tension wires leading into wooden stonesheds and caused losses of nearly \$50,000.

The number of alarms for the year showed a decrease of 262 from the high number of the previous year. This was due to the small number of calls received for grass and dump fires. City laborers now in most cases take care of dump fires.

The number of false alarms decreased 38 from the number of the previous year. The credit for this decrease is due in no small part to the splendid cooperation received from the Wollaston Post American Legion, who on Hallowe'en guarded the fire alarm boxes of Atlantic and Wollaston.

The Flood Light Truck again proved its value as an emergency piece of apparatus. In March, in response to a call for aid in the flooded areas, the truck was sent to Haverhill and to Andover to help furnish light to the flood relief workers. During the Asquith search it was used by the police department to furnish underwater light to the Diver. During these operations, the body of an unidentified man was recovered.

A one way radio was installed by Sergeant Duffy of the police department in the new Chief's car. Both the Chief's car and the Deputy's car are now equipped with one way sets. This enables them to respond much quicker to alarms and other emergency calls, regardless of what part of the city they may be traveling in.

A drill school was established under the supervision of Deputy Chief Creedon, assisted by Lieutenants Fenby and Gorman. Each man was given an intensive thirty days training, after which Lieutenants Fenby and Gorman were appointed Drill Masters on their respective platoons to conduct drills at their discretion.

A Fire Prevention Bureau was established with Captain Edward O'Neil in charge. Inspectors are detailed daily to inspect the various apartment and mercantile buildings in the city. All complaints are acted on and enforced by Captain O'Neil. Quincy's business men and property owners have shown a splendid spirit of cooperation.

A survey of the city was made by the National Board of Fire Underwriters, at the request of Mayor Burgin, for the purpose of reducing the fire insurance rate. Their report has not been received yet.

Upon the advice of the Underwriters the designation of the La-France was changed from Combination 1 to Hose 1. It has been placed on the running cards as Hose 1. This will give Quincy credit for another fire company.

While responding to a second alarm from Box 551, on March 6, Private Pasquale Del Greco was thrown from Engine 1. He died on March 21 as a result of the injuries he sustained. Pasquale Del Greco was the type fireman that placed duty above self, and his death is a distinct loss to the department.

Captain Daniel J. McNiece and Privates Patrick Caven and William Riepke were retired from the Department on a pension. Captain McNiece had a record of 37 years of unexcelled fire service. He requested his retirement because of his length of service. Privates Caven and Riepke both had excellent service records but ill health forced them to retire.

Lieutenant Timothy J. O'Connell was promoted to Captain and Private Thomas Murphy was promoted to Lieutenant. Both men have long, splendid records as firemen and merited their promotions.

Two privates attended and graduated from the drill school at Brookline, conducted by the Massachusetts Department of Education. Two Officers were detailed to attend and observe the evolutions of the Boston Drill School.

Three new Maxim, 750 gallon pumpers were placed in service replacing the 3 old Whites. Two of the Whites were taken in trade and the third one is located at Atlantic, designated as Engine 7 and held in reserve. Ladder 2 and Engine 2 were painted by members of the Department at a minimum cost. The apparatus of the department is in excellent condition with the exception of the flood light truck which is seven years old and too mechanically dangerous to be used as an emergency wagon.

New Akron nozzles were purchased and placed on Engines 2 and 4. With the exception of Hose 1 the nozzles throughout

the department have been standardized. Provisions have been made in the budget to complete the standardization this year.

New Carbon Dioxide extinguishers have been purchased and placed on Engines 2 and 4. Every engine company in the city now has a carbon dioxide extinguisher.

A new vapor nozzle was purchased and placed on Engine 2. Every Engine, except Engine 4, has a vapor nozzle. Provisions have been made in the budget to purchase another.

New 1½ inch hose was purchased and placed in service on Engines 2, 3, 5, and 6. Under the hose appropriation in the budget, provisions have been made to purchase 500 feet each for Engines 1 and 4. 1½ inch hose is more mobile than 2½ in. hose and can be easily handled by one man. It reduces to a minimum the water damage, cutting down the fire loss, which is the main objective of the Fire Department.

The Atlantic Station and the Wollaston Station were completely renovated and painted as a W.P.A. project. New overhead doors were placed in Atlantic, and new doors were placed in Wollaston. The windows and doors were weatherstripped throughout. These two stations were badly in need of renovation, but are now in excellent shape.

Three girls on a W.P.A. project are bringing the fire records up to date. The project is not yet complete, but on completion our records will be accurate and easily available from 1894 to the present time.

Fire apparatus were involved in two serious accidents. On February 29, Engine 1 crashed into the rear end of Hose 1, seriously injuring Private Joseph Ciardi. A few days later Ciardi's leg was amputated above the knee. He has returned to a special assignment given him by Chief Sands. On March 6 while responding to a second alarm, Engine 1, to avoid hitting a truck, went into a skid and Private Pasquale Del Greco was thrown off and seriously injured. On March 21, he died as a result of his injuries. Both accidents were the results of slippery, icy streets and the operators of the apparatus were in no way to blame.

Recommendations

I wish to make the following recommendations and strongly urge that they be adopted as soon as convenient.

That the Fire Department ordinance be changed to read: One Chief, 2 Deputies, 11 Captains, 10 Lieutenants and 87 Privates. This change has been recommended by the National Board of Fire Underwriters. It will place a Captain and a Lieutenant on every company except 3.

That an aerial ladder be purchased and placed in Headquarters. The present extension ladders are not long enough to reach a number of the newer buildings in the city.

That a new Flood Light Truck be purchased to replace the present truck, which is seven years old, too small to carry safely the necessary equipment on it, and in poor mechanical condition.

That a building program be mapped out to replace the following stations: Headquarters, West Quincy, Houghs Neck and Quincy Point. They need not all be erected this year but should be done in the next two years. The present stations are over forty years old and totally inadequate for present day needs.

That a Drill Tower be erected. In order to familiarize the men with the apparatus and ladders, a drill tower, equipped with the necessary appliances must be provided.

That a hose testing device be purchased. Under present conditions it is impossible to test hose accurately. Hose is one of the most important factors in fire fighting, and at the same time very expensive. A 50 foot length of 2½ inch hose is worth approximately \$50, consequently should be tested and cared for at regular intervals. It cannot be tested without this mechanical hose testing device.

Booster tanks should be installed on ladders 2 and 5. They are now equipped with chemical tanks which are costly to maintain, cause more damage than water, and can be used but once before refilling. A booster tank is always ready for service as long as hydrants are near. Ladder 1 is now being equipped with a booster tank, provided for in last year's budget.

That a mechanic be appointed to maintain the apparatus in perfect condition. Under the present system a mechanic is called in when repairs are necessary; with a mechanic on hand at all times his duties would be to keep the apparatus in running condition at all times.

In conclusion I wish to express my sincere thanks to His Honor the Mayor, the members of the City Council, the various city departments and to the officers and men of the Fire Department for their cooperation.

Respectfully submitted,

WILLIAM J. SANDS,

Chief of Fire Department.

REPORT OF FIRE AND POLICE SIGNAL DEPARTMENT

JANUARY 1st, 1937.

HON. THOMAS S. BURGIN, *Mayor, City of Quincy, Quincy, Mass.*

DEAR SIR:

I respectfully submit the annual report of the Fire and Police Signal Department for the year ending December 31, 1936.

Personnel of Department

Superintendent, Thomas J. Smith

Maintenance Men

George N. Leonard
Richard Williams

George B. Howie
Patrick H. Reddington

Fire Alarm

Nine miles of overhead construction in various portions of the city were completed during the year.

Five thousand two hundred and fifty feet of multiple conductor lead and loom covered cables were drawn in and terminated at strategic locations.

Nine new boxes were added to the system on new locations and seven replacements of obsolete types were accomplished.

Seventy-two battery units were replaced with new type long reserve capacity spray proof cells.

All boxes were tested periodically and painted, cleaned and oiled.

School systems were maintained with a minimum of financial outlay.

Although I abhor constant repetition it is absolutely essential that the pressing need of more fire alarm box circuits be realized; too little thought on this matter may have serious consequences in the near future.

Police Signals

In all the cable installations of the past years sufficient space has been allotted to the Police signal wires to care for all requirements at no expense.

One box was installed and all other equipment was maintained in the best manner possible.

Traffic Signals

During the year the state traffic bureau completed a much needed survey of our important intersections in all portions of the city both for present and future needs. That report has been received in plain and simple language. It calls for a large amount of work on the part of this department with a moderate expenditure of funds.

With the safety of the general public at stake it would be short-sighted not to make these necessary changes, therefore I have already started to make the alterations as long as available funds will go and hope for an additional financial help in the coming year.

Two intersections were changed from the old style stop and go with its needless delays to flashing lights with push button pedestrian features. This change has been of great benefit to both the motorist and the pedestrian as well, with the advantage of security to the public at all hours because under the old plan the other type lights were off for long periods.

Respectfully submitted,
THOMAS J. SMITH,
Superintendent.

REPORT OF INSPECTOR OF BUILDINGS

JANUARY 1st, 1937.

HON. THOMAS S. BURGIN, *Mayor of City of Quincy.*

DEAR SIR:

I herewith submit the thirtieth annual report of the Building Department for the year ending December 31, 1936.

TABULATION OF BUILDING OPERATIONS FOR 1936

Ward 1

Permits	Estimated Cost
10 Dwellings	\$58,800 00
1 Cottage	1,500 00
4 Mercantile	76,600 00
3 Storage	1,050 00
25 Garages	66,000 00
223 Alterations	94,799 00
11 Removals	1,815 00
9 Miscellaneous	151,161 00
286	\$451,725 00

Ward 2

4 Mercantile	\$6,400 00
6 Storage	1,260 00
9 Garages	2,205 00

23	Miscellaneous	156,926 00

1201

\$1,105,345 00

Statement

Cash received each month for permits issued from January 1, 1936 to December 31, 1936 and paid to the City Treasurer, is as follows:

January	\$43 50
February	43 00
March	143 50
April	208 00
May	161 00
June	145 50
July	182 00
August	103 00
September	132 50
October	245 50
November	129 00
December	90 00

\$1,626 50

Respectfully submitted,

ALRICK A. WEIDMAN,
Inspector of Buildings.

REPORT OF INSPECTOR OF WIRES

JANUARY 1, 1937.

HONORABLE THOMAS S. BURGIN, *Mayor's Office, Quincy, Massachusetts.*

DEAR SIR:

I respectfully submit my annual report as Inspector of Wires for the year ending December 31, 1936.

Inspection in Buildings

The following specified schedule of electrical inspections made of lights and other appliances installed.

Number of permits issued in 1936	1,748
Fees received for the above	\$1,040 58
Number of electricians doing work in 1936	360
Inspections made as per permits issued	2,482
Defects noted on new installations	187
Number of unfinished installations	26
Number of old installations, reinspected	324
Number of defects in old installations	410
Reinspections after fires	330
Total inspections made during the year	3,137
Total amount of permits issued to Quincy Electric Light & Power Company to install service and electrical appliances	346
Electric ranges installed	85
Refrigerators wired for—permanent wiring	18
Number of lights wired for	5,954
Oil burners and gas burners—wired for	273
Signs—wired for	129
Motors—Wired for	391
Total horse power of above	632¾

Number of Old Buildings Wired

Single houses	8
Two apartment houses	2
Miscellaneous	14
	<hr/>
	24

Number of New Buildings Wired

Single houses	42
Two apartment houses	2
Mercantile	7
Garages	5

Transient Vendors	10
Clinical Thermometers	305
Ice Scales	5
Oil Jars	30
Glass Graduates	73
Total	648

Respectfully submitted,

JAMES M. CANTFILL,
Sealer of Weights and Measures.

REPORT OF ENGINEERING DEPARTMENT

HON. THOMAS S. BURGIN, *Mayor of City of Quincy,*

DEAR SIR:

I herewith respectfully submit the thirty-eighth annual report of the Engineering Department for the year ending December 31, 1936.

During the year this department was called upon by practically every department connected with the city for some kind of engineering. As the work was so varied it is impossible to itemize it. A brief review of the more important requests from the various departments is as follows:

City Council

All meetings of the City Council and Finance Committee were attended by the City Engineer and all information requested was furnished.

City Solicitor

The usual number of plans and surveys were made for land takings, sewer and drain easements.

During the year the City Engineer was called upon to make plans and to testify in his capacity for the City Solicitor in legal actions against the City.

Assessors' Department

The work on Assessors' tracings was materially reduced this year. There were 2,393 transfers of properties as against 4,970 in 1935 and 2,835 for 1934. This shows that we are once again getting back to normal.

There were 446 Tax Collector's liens for which corrections were made on plans.

During the year there were 150 new tracings made to replace some which were old and worn out. This work is usually done during the winter months.

A number of surveys was made and plans prepared for Tax Appeal Cases.

Building Department

During the year 194 applications for permit to build or move buildings were referred to this Department. The City Engineer personally visited each site and established the grade.

Cemetery Department

The grading of the undeveloped area at Mount Wollaston Cemetery was completed and the much needed space has become available for use. In the near future the City must seriously consider taking additional land for the extension of this Cemetery or find a new location. This is a matter which should have immediate study and report by the City Planning Board.

The wall has been completed along the Northerly and Easterly property lines, also on Merrymount Road and on the Southern Artery as far as Greenleaf Street. It is hoped that the remainder can be completed this year. This work was done by the W. P. A.; plans, etc., for this work were made by this Department.

During 1935 a survey of the Cemetery was completed. Tracings of a uniform size of the entire Cemetery and future planning of the undeveloped area are now being made. These will be of great help to the Cemetery Department. At present the plans are of various sizes and are very hard to handle.

The large key plan has been completed and has found much favor by those who have had occasion to use it.

Park Department

The most notable achievement this year has been the beautification of Faxon Park. The wall on Faxon Park Road has been completed and a large proportion around the sides is under construction and will continue until completed. Roads, paths and play areas have been built and a look-out area on the high point near the back of the Park will soon be a reality.

In Ward Six the Football Field on Birch Street is nearing completion. The field has been built and seeded, together with a cinder track and three wooden stands which will accommodate 1200 people. During the early part of 1937 the whole field will be enclosed with a suitable chain link fence. This will fill a much needed athletic field for the students at the North Quincy High School.

Dennis O'Neil Playground adjacent to the Birch Street Field will be ready for baseball in the early Spring. This was another much needed project constructed by W. P. A. Funds.

Throughout the City other parks and playgrounds were re-graded under W. P. A. Projects.

Tax Collector

During the year descriptions of 5,022 parcels of land to be sold for unpaid taxes, were furnished to the Tax Collector. There were 446 requests received by the Tax Collector from attorneys and individuals asking for information regarding outstanding betterments or liens. These requests were filled by this Department.

Sewers

The P. W. A. Sewers under Docket No. 2051 have been connected to the main trunk sewer and are now in operation. It is expected that the coming year will see many house connections to this system.

There were a number of W. P. A. Projects as well as work constructed by the City during the year. Plans, etc., have been prepared for a considerable extension to the system for 1937.

All construction work was under the direction of Mr. Walter S. McKenzie, Superintendent of Sewers.

For list of sewers constructed during the year see attached schedule.

Surface Drains

A number of drains was constructed under W. P. A. during the year. Many projects have been and are being prepared to carry on this work in 1937.

During the year work was continued on parts of Town Brook and Furnace Brook, consisting of straightening, widening, riprap and building of walls. These, too, will continue in 1937 with extensions to the already existing W. P. A. Projects.

This work is supervised by the Sewer Division of the Public Works Department.

For schedule of location with lengths and sizes, see attached list.

Accepted Streets

Welgate Circle was accepted and constructed during the year.

Much work was done on accepted streets and will be classified under Street Rebuilding.

Street Rebuilding

The program for this work as laid out was practically completed with few changes and some additions. The sum of \$270,656.34 was available for this work.

The most notable work was the resurfacing of Hancock Street from City Hall to School Street. The car tracks were covered and the entire street was given a smooth surface.

School Street from Hancock Street to Water Street was rebuilt so that with work done in 1935 this needed artery gives easy access to Braintree and beyond.

Other much needed work was done, for complete detail see attached schedule under heading of Streets Rebuilt during 1936.

For streets oiled and sanded, see attached schedule.

For streets treated with Tar, Pea Stone and Gravel, see attached schedule.

Curbing

Considerable work was done this year under W.P.A. Projects and in connection with the street rebuilding program. Most of the stone was quarried and cut at the Gray Rock Quarry under a W.P.A. Project.

For list and location of curbing placed, see attached schedule.

Granolithic Sidewalks

For the fifth consecutive year there was no appropriation for this type of work. It is planned to submit a project under W.P.A. for about five miles of this type of sidewalk. If approved the only cost to the City would be for materials.

During the year some Granolithic Sidewalks were replaced, for schedule of location, see attached list.

Asphalt Sidewalks

The work started in 1935 under Chapter 464 of the General Laws was completed, and supplemented our money, for which only the balance of the 1935 appropriation was available.

For itemized list and location see attached schedule.

Conclusion

May I again take this opportunity to express my appreciation to His Honor the Mayor, Members of the City Council, Department Heads and W.P.A. Officials for their co-operation, also for the loyalty shown and co-operation extended to me by the personnel of this Department.

Respectfully submitted,

GERHARD F. SCHAFFER,
City Engineer.

REPORT OF THE CITY PLANNING BOARD

HON. THOMAS S. BURGIN, *Mayor*

DEAR SIR:

We herewith submit the twenty-second annual report of the City Planning Board.

There were several meetings held during the year.

The several studies which this Board made and reported on in the 1935 Report seem soon to become a reality, at least in part.

Surveys have been made by the Commonwealth of Massachusetts on the Fore River to Quincy Adams over-pass connection, also the Shawmut Trail from Quincy Adams over-pass to Milton.

The County is making a survey which might be considered and part of a southeast cut-off to eliminate the dangerous under-pass on Centre Street.

Respectfully submitted,

CITY PLANNING BOARD,
WILSON MARSH, *Chairman*,
JOHN A. SANDISON,
JAMES C. HORNE,
WALTER W. HOLLAND,
GUSTAF E. WESTHRIN.

GERHARD F. SCHAFER, *Clerk*

REPORT OF BOARD OF SURVEY

HON. THOMAS S. BURGIN, *Mayor of City of Quincy.*

DEAR SIR:

We herewith submit the Twenty-first Annual Report of the Board of Survey.

The Board met a number of times during the year and transacted such business that regularly came before it.

A petition was received and approved for the layout of two streets, Sims Road and Perry Road in Ward Five.

Tentative approval was given to plans for the layout and extension of two streets, Wallace Road and Ellis Street in Ward Four.

Respectfully submitted,

LOUIS F. R. LANGELIER, *Chairman,*
JOSEPH N. NOVER,
JOHN J. MANNING.

GERHARD F. SCHAFER, *Clerk*

REPORT OF THE HIGHWAY DIVISION

HONORABLE THOMAS S. BURGIN, *Mayor, City of Quincy.*

DEAR SIR:

I respectfully submit the report for the Department of Public Works for the year 1936.

Respectfully submitted,

EZEKIEL C. SARGENT,
Commissioner.

HIGHWAY MAINTENANCE

Expenditures

	Credits	Expended	Balance
General Maintenance	\$260,843 51	\$260,390 55	\$ 452 96
Pensions	13,800 36	12,585 35	1,215 01
Garage and Stable	10,500 00	10,486 02	13 98
Miscellaneous Activities	23,000 00	22,606 36	393 64
Street Lighting	110,000 00	109,957 41	42 59
New Equipment	4,000 00	2,956 38	1,043 62
	<hr/>	<hr/>	<hr/>
	\$422,143 87	\$418,982 07	\$3,161 80

For a more detailed statement of these expenditures reference is made to the report of the City Auditor.

It will be noted that the sum of \$13,296 07 was expended for Street Oiling this year and the department hopes to increase this amount this year.

STREET LIGHTING

A special survey of the City is now in progress for the purpose of producing more efficient street lighting at a reduced cost. Changes have already been made in many sections of the City. The survey will be completed during the current year.

All outages reported daily by the Police Department have been deducted from the monthly bills.

New equipment purchased this year consisted of one one-ton truck and two one-and-one-half-ton trucks.

STREET CONSTRUCTION AND REBUILDING

Total Expenditures\$264,773.68

Approximately 5.68 miles of street have been rebuilt during the year and one new street, Welgate Circle, has been constructed.

A schedule of streets rebuilt will be found in the report of the City Engineer.

On Hancock Street from School Street, the City Square, the Granite block paving and street railway tracks have been covered with Bituminous Concrete Paving which has made a decided improvement to the main street in Quincy Center.

Portions of the following streets have been rebuilt:

Adams Street (at Beale Street)
Beach Street
Billings Road
Broadway (entire length)

Cross Street (entire length)
 Cushing Street (entire length)
 East Howard Street
 East Squantum Street
 Elm Avenue
 Endicott Street
 Fenno Street
 Franklin Street
 Holmes Street
 Independence Avenue
 Kendall Street (entire length)
 Marlboro Street
 Newport Avenue
 North Central Avenue
 Presidents Lane
 Quincy Avenue
 Sea Street
 School Street
 Sumner Street
 Summit Avenue
 Union Street
 West Street
 West Harvard Street (entire length)
 West Squantum Street
 Whitwell Street
 Willard Street

SIDEWALK CONSTRUCTION

Expended\$26,466.50

This amount was the balance of the allotment to the City of Quincy by the Commonwealth under Chap. 464 Acts of 1935, and 90% of the labor was taken from relief rolls.

Sidewalks have been constructed on portions of the following streets:

Southern Artery
 South Street
 Center Street
 Furnace Brook Parkway

PUBLIC BUILDINGS

Maintenance\$20,094.55

Buildings maintained by this department are City Hall with rent of outside offices.

Six Fire Stations
 City Home
 Dispensary
 Police Station
 Commissary and Welfare Offices
 Community Building, Atlantic

NORTH QUINCY HIGH SCHOOL

The west wing of the North High School was completed and accepted. School furniture and equipment was installed in ample time for the opening of school in September.

The Architects for the building were the Irving Cooper Corporation of Boston and the Contractor the A. Piotti Company of Boston.

The building, I believe, is a credit to all who had a part in its inception and construction, and is a valuable addition to our school buildings.

The total cost of the building was about \$335,000.00.

MUNICIPAL GARAGE

With the assistance of a P.W.A. grant, a Municipal Garage has been constructed on the City owned land on Sea Street at the site of the City Stables.

This Garage is fully equipped, has a steam heated sand bin for winter sanding and all improvements necessary for the proper housing and maintenance of City equipment.

The Architect for the Garage was Ernest J. Batty of Quincy, and the Contractor, William J. Sullivan of Roslindale.

The total cost of the Garage with equipment was \$90,000.00

The Department is well pleased with this needed improvement and I feel sure it has added much to the efficiency of the Department.

QUINCY HOSPITAL ADMINISTRATION BUILDING

The construction of an Administration Building at the Quincy City Hospital has been one of the principal undertakings for the year. The Architects for this work were Paul and Carrol Coletti of Quincy and the Contractor, M. Slotnick of Boston.

This building is also being constructed through a P.W.A. grant and when completed will cost about \$150,000.00 not including furniture and grading.

The building should be completed about May 1st, 1937.

WORKS PROGRESS ADMINISTRATION

Expended

Administration	\$ 17,088.12
Equipment and Material	157,395.99

During the year 1936 the Federal Government through W.P.A. have expended approximately \$1,220,000.00 for labor on Projects in Quincy.

The expense of administration, cost of material and equipment is borne by the City.

During the year the following Projects have been completed:

- Atlantic Fire Station (3 Projects)
- Avalon Avenue (Town River Park)
- Blue Hills (Wood-Cutting)
- City Hospital, Nurses' Home (Heating)
- City Hospital, Operating Room (Painting)
- City Hospital, Rice No. 2 (Painting & Plastering)
- Edgewater Drive (Sea Wall Steps and Jetties)
- Flood Control (Brooks)
- Fore River Clubhouse (Heating, 2nd Floor)
- Furnace Brook, Crescent St. (Beautification)
- Furnace Brook Parkway (Skating Rink)
- Gray Rock Quarries (Quarrying Granite)
- Lincoln School Yard (Grading)
- Merrymount School (Repainting)

SANITARY DIVISION

Expended

Salaries and Wages	\$108,270 80
Pensions	5,451 50
Equipment Maintenance	10,975 79
Equipment Rental	2,199 00
Care of Dumps	6,185 50
New Equipment	1,119 31

\$134,201 90

The volume of rubbish and garbage collected by the Department increases yearly. Suitable dumps for rubbish are difficult to find and require much attention.

This year the Department has been filling the low area adjoining Pfaffman Oval with rubbish which we believe will provide additional land for parking purpose when the proposed Stadium is constructed.

The amount of garbage collected this year amounted to 14,120 cu. yds. The price for garbage has been advanced to 75c per cu. yd. 284 cisterns have been cleaned.

18 vaults have been cleaned.

One new truck of one-and-one-half-ton capacity has been purchased.

GYPSY MOTH

Maintenance	\$13,032 36
Supplies and Expense	1,571 88
Equipment Maintenance	988 14
New Equipment	465 00
	<hr/>
	\$16,057 38

In addition to its regular work, W.P.A. labor has been available for Gypsy Moth Control, Tree Trimming, and Tree Surgery Projects. Many wild cherry trees have been cut and undergrowth cleaned in infested areas.

The trees in Merrymount Park have been examined and all diseased and dangerous limbs have been removed. 53 trees have been cut down and all scars and cavities carefully cleaned, treated, and filled.

The painting and glazing of the greenhouse has been completed.

There have been 760 trees and shrubs planted throughout the City with W.P.A. labor.

300 shrubs were planted along the Southern Artery at Merrymount Park.

75 shrubs and flowering trees were given to the City by Arnold Arboretum for Plant Propagation at the Nursery.

Tree Trimming required by the Quincy Electric Light and Power Co. has been done by City labor and the cost has been assumed by the Company.

62 ten-foot Norway Spruce trees were donated to the City by the Almquist Brothers.

There are over 15,000 potted plants in the City greenhouse and 10,000 Pansy plants for use in the spring for the various City flower beds.

Additional land should be reclaimed at the Nursery for growing all trees and shrubs for City use.

ANNUAL REPORT OF THE SEWER DIVISION OF THE PUBLIC WORKS DEPARTMENT

MARCH 15, 1937.

Hon. Thomas S. Burgin, Office of the Mayor,

Quincy, Massachusetts.

DEAR SIR:

I am submitting herewith the report of the Sewer Division of the Public Works Department for the year 1936.

Respectfully submitted,

EZEKIEL C. SARGENT,
Commissioner of Public Works.

JANUARY 2, 1937.

For financial statement see Auditor's Report.

Sewer Construction

About 1.7 miles of common sewers were laid this year, somewhat less than the average year's work. Some of these sewers were built with W. P. A. labor and the balance by the regular men of the department. (See tabulation)

Considerable corrective work was done on P. W. A. Docket 2051, especially in the Adams Shore and Willows Sections. This was completed on November 1, 1936, approved by the Federal Government, and connection made with the South Metropolitan Sewer with the approval of the Metropolitan District Commission. House connections are gradually being made with this system.

In connection with the Quincy Adams Grade Crossing Elimination, the sewer in Presidents Avenue from Water Street to Federal Avenue was abandoned and a new twelve-inch (12") pipe sewer laid in Federal Avenue from Water Street to Presidents Avenue. This work also involved changes in sewer connections and the reinforcements of the sewer line in Water Street under the track bed and bridge abutments.

Storm and Surface Water Drainage

This work was performed by this department in the same manner as sewer construction—some by W. P. A. labor and the balance by the regular men of the department. Outstanding in this work is the drainage in connection with the Grade Crossing Elimination at Quincy Adams, the walling of Furnace Brook west and east of Hancock Street still going on, and the walling of Town Brook from Liberty Street to Columbia Street.

For a tabulation of this work see the City Engineer's Report.

Particular Sewers

During 1936 there were 189 house connections laid to the common sewers. The total length of these connections was 9,048.5 feet and

the cost \$9,752.56, thus making the average length per connection 47.875 feet at an average cost of \$1.077 per foot or an average of \$51.60 per connection.

Classification:

Single Houses	164	Hospital	1
Two-Family Houses	8	Business Bldgs.	12
Four-Family Houses	2	Filling Stations	2

Wards:

Ward I	58	Ward IV	34
Ward II	16	Ward V	28
Ward III	11	Ward VI	42

Maintenance

The Sewerage System now comprises about 153 miles of sewers and the department is still maintaining the old-hand method of cleaning and scraping the sewer lines. This is slow, laborious and in certain instances, unsatisfactory and expensive. It is strongly recommended that a machine be purchased for this work.

REPORT OF CEMETERY DIVISION

JANUARY 1, 1937.

HONORABLE THOMAS S. BURGIN, *Mayor's Office*,
Quincy, Massachusetts.

DEAR SIR:

The Commissioner of Public Works respectfully submits the following financial report of the Cemetery Department for the year ending December 31, 1936.

Receipts

Care of lots	\$ 1,874 00
Sale of lots	7,790 00
Interments	7,854 00
Foundations & Grading	2,226 75
Perpetual Care	9,535 00
Perpetual Care Fund—Interest	7,599 41
Other Trust Funds—Interest	95 21
	<hr/>
	\$36,974 37

Expenditures

Superintendent—Salary	\$ 2,014 00
Clerk—Salary	700 00
Supplies & Expense	2,010 13
Equipment—Maintenance & Operation	724 39
Labor	32,346 50
	<hr/>
	\$37,795 02

In 1936 there were five hundred ten (510) burials and six (6) removals.

A statement of the Perpetual Care Fund investment will be found in the City Treasurer's report.

Very truly yours,

EZEKIEL C. SARGENT,
Commissioner of Public Works.

REPORT OF HARBOR MASTER

JANUARY 11, 1937.

HONORABLE THOMAS S. BURGIN, *Mayor, Quincy, Massachusetts.*

DEAR SIR:

The report of Harbor Master of the City of Quincy for the year ending December 31, 1936 is herewith submitted.

Receipts by water for the year were as follows:

City Fuel Company	10 Barges, 10,616 Tons Coal
J. F. Sheppard & Sons	4 Barges, 5,333 Tons Coal
Fore River Coal Company.....	13 Steamers, 36,866 Tons Coal
	(Jan. 1 to June 2 inclusive).
Socony-Vacuum Oil Company ..	30 Steamers & Barges discharged
	27,603,218 Gallons Gasoline,
	14,077,000 Gallons Oil.
Lincoln Oil Company	No figures available.
Quincy Oil Company	No figures available.
Quincy Lumber Company	10 Schooners, 2,020,652 Ft. Lum-
	ber. Approximate cost, \$70,000.

Deliveries by water from Quincy were as follows:

Socony-Vacuum Oil Company ...	14 Steamers & Barges, 1,514,000
	Gallons Gasoline, 4,574,777 Gal-
	lons Oil.

At the plant of the Quincy Dry Dock & Yacht Corporation, 263 Steamers, Barges, Fishermen and Yachts were overhauled and repaired.

There were 282 Yachts stored in boatyards on Town River besides many others stored on the Neponset River and elsewhere in the city.

The waters off the Fore River Plant were patrolled during the following launchings at the request of the Company officials:

May 21	Cruiser Vincennes
May 24	Destroyer Leader Balch
Aug. 6	Trawler Neptune
Aug. 19	Trawler Triton
Dec. 1	Destroyer Leader Gridley

The new Fore River Bridge was opened to traffic on May 27, 1936. From January 1 to May 27, the old draw was opened 1127 times. From May 27 to December 31, using the new draw, there were only 366 openings.

In July the Packard Dredging Company started dredging the main channel of Fore River to 27 feet at low water and 300 feet wide; and the Bay State Dredging Company dredged the channel into the Quincy Yacht Club and the City's public landing at Houghs Neck.

About 20 trips were made during the year assisting local and state police, going to the aid of yachts in distress. One of these trips was to locate the medical examiner, who was finally found out by Boston Lightship. Six trips were made to discover the source of the heavy oil which was polluting the shores and yachts. This was found to be coming from the Metropolitan sewer outlet of Peddocks Island. State officials were notified, the source of the oil was traced to Readville, and the leak was rectified.

Respectfully submitted,

JAMES A. M. NASH,
Harbor Master.

REPORT OF CITY SOLICITOR

DECEMBER 31, 1936.

HONORABLE THOMAS S. BURGIN, *Mayor of Quincy, Massachusetts*

DEAR SIR:

During the past year the City Solicitor has carried on the work of the Law Department of the city in accordance with the requirements of the statutes and ordinances in relation thereto.

Respectfully submitted,

JOHN D. SMITH,
City Solicitor.

REPORT OF CITY CLERK

To His Honor, the Mayor of the City of Quincy:

I have the honor to submit the forty-eighth annual report of the department, being for the year ending December 31, 1936.

REPORT OF THE PARK DEPARTMENT

FEBRUARY 1, 1937.

HON. THOMAS S. BURGIN, *Mayor,*
Quincy, Massachusetts.

DEAR SIR:

The following is the annual report of the Park Department for the year of 1936.

With the education of physical recreation, as taught by the W.P.A., the demand for playgrounds and ice ponds has increased. The Fore River Clubhouse is used at all times throughout the year.

During the winter this department spends a great deal of time keeping St. Moritz in condition. A very successful Winter Carnival was held here under ideal conditions. This carnival attracted thousands of people, not only from Quincy, but from miles around.

It is the aim of this board to have good skating ponds in each district, and a great amount of work has been done in that line this year.

As usual a senior and junior baseball league was organized by the board. Both leagues had a very large attendance and a successful season. The Copeland Club of West Quincy was the winner in the senior league, and the South Quincy Dodgers in the junior league.

A football league composed of six teams was organized in the fall, all games being played at Pfaffman's Oval. A very good season was enjoyed with the Trojan A. C. of South Quincy winning the championship.

Soccer was played at Faxon Field and Fore River Field. There were not as many teams in the city playing this game so the board did not have as much trouble as usual in regard to permits.

Tennis playing is increasing each year. The thirteen courts maintained by the city are in constant use, also the five courts at Faxon Field.

The board wishes to extend its appreciation to Mr. Faxon, who has borne all the expense of supervision and maintenance of these courts for the last eight years.

A great deal of work has been done on the Bowling Green at Merrymount Park. This game has become so popular that today we have one of the strongest clubs in the state using these greens.

The following permits were issued:

Baseball	1,091
Football	53
Soccer	78
Outings and Picnics	65

For a number of years we have issued a permit to Post No. 95 of the American Legion for the use of Pageant Field July 3rd and 4th for the annual bonfire, fire-works and carnival. They build one of the largest bonfires in the state, and thousands of people come here to witness the burning of it and also the wonderful display of fireworks on the night of July 4th.

During the months of July and August the playgrounds are under the supervision of paid instructors who have specialized in the study of child physical training. They teach them how to make useful articles and also have a competitive sport program. With the assistance of Franklin Mitchell, supervisor of the playgrounds, a joint field day was held at Pfaffman's Oval for the winners of each individual playground to compete for prizes. It was a wonderful sight to see all the children gathered at one playground, and their parents also attended in large numbers.

The Park Board has never received appropriations large enough to make all necessary improvements, but with the assistance of the W. P. A., the following has been accomplished this year:

Beautification of William T. Shea Park, grubbing whole area (29,000 sq. ft.) constructing 600 Lin. ft. concrete thumb curbing, 485 Lin. ft. Gravel walks, 690 Lin. ft. Asphalt walks, 12 Benches, 2700 sq. yds. of Loam; also planting 200 shrubs, 30 Lin. ft. of Flagstone walks.

Federal Amount	\$2,917 50
----------------------	------------

Beautification of Town River Park includes installation of 1100 Lin. ft. of straight-faced Curbing, 1425 Lin. ft. half-round Curbing, spreading, rolling, seeding 200 cubic yards Loam; also trimming, transplanting and improving 2800 Shrubs. The total area of the Park is 2.51 Acres.

Federal Amount	\$2,368 00
City Appropriation	590 00

Skating Rink (built on the northerly side of Furnace Brook Parkway, between Willow Avenue and Adams Street). Removal of about 30 trees, removal of underbrush and grubbing area about 560 ft. by 180 ft. 11,200 sq. yds. area; Dam at each end with Concrete gate.

Federal Amount	\$4,520 00
City Appropriation	458 00

The building of the Birch Street Stadium is under construction, this project includes excavation and build cinder track (2500 sq. yds.) 60,000 sq. ft. of area loamed, 6" depth, 92,700 sq. ft. to finish grade, roll, rake and seed 11,600 sq. ft. of rough grade area on the north side of the field between track and boundary. Build set of Bleachers to hold 400 persons, also paint same with two coats of paint.

Development of Macy Park(between Charles and Bird Streets, Houghs Neck). This park was donated to the City and was an unsightly spot filled with high grass and weeds with no boundary lines: Program: Granite curbing all around and loaming, planting, shrubs and flower beds and making gravel walks. This area is about 1,000 sq. yds. with a walk through the centre.

Survey of Merrymount Park which contains about 120 Acres. Locate all roadways, paths, trees, buildings, and playing field, together with elevations over the whole area, make plans for the future development of the parks.

Federal Amount	\$1,325 00
City Appropriation	80 00

Planting of Trees and Shrubs in Parks throughout the City.
Beautification of Faxon Park, Baseball field (9,000 sq. yds.), 2,200 Lin. ft. paths, 3,490 Lin. ft.—20 ft. Roads, 1,160 Lin. ft. Sidewalks

and loam area, 960 Lin. ft. Stone wall, grub and seed 109,900 sq. yds. of area.

This is a beautification project which will be of great value as a recreational park and public playground.

Federal Amount	\$117,429 00
City Appropriation	14,569 00

(Construction of a two-faced Fieldstone wall on the boundary lines of Faxon Park: Wall 300 Lin. ft., 1,986 cu. yds., set in cement.)

Also: To be constructed a Utility Building at Faxon Park, 24 ft. by 24 ft., work to include cement rubble, masonry walls and chimney, granolithic floors; T. C. partitions, steel sash, asphalt shingle roof, wood doors and trim, plaster ceiling, plumbing, electric work, painting, cesspool, pipe-lines and flagstone walks.

Federal Amount	\$3,192 00
----------------------	------------

The Dennis O'Neil playground project is stopped temporarily until weather permits continuation.

We offer the following recommendations for your consideration:

1. Appropriation of the sum of \$5,000 each year for a period of ten years for the beautification of Merrymount Park.
2. Double tennis courts at O'Rourke, La Brecque and Montclair playgrounds.
3. Taking of land at the Water Street side of Kincaide Field.
4. Re-sanding of Avalon Beach.

REPORT OF THE TRUSTEES

To His Honor, the Mayor of the City of Quincy:

The sixty-sixth annual report of the Trustees of the Thomas Crane Public Library is submitted herewith.

Again during the year 1936 the library has been obliged to operate on a budget greatly below an amount necessary to meet the demands of those of our citizens using this department. It is the fourth consecutive year in which the appropriation for books has been practically one-half of the amount allocated for that purpose in 1932.

The result of this has become plainly apparent. Although the various units and agencies of the library system have been kept intact in number and hours of service, yet it is plainly evident that they are under a great handicap when it comes to the question of books. There has been a steady decline in the use of the library, the circulation has dropped 30 per cent in three years and the number of borrowers has decreased over 2,000 although in the same time the city has increased in population.

This situation has become so serious, that, if a larger appropriation for books is not made, it will become necessary for the trustees to consider whether it will be advisable to continue all twelve branches with insufficient and out-of-date books or discontinue some of the branches and build up those that are left with such funds as are available in the annual appropriation.

The major project carried out under the W.P.A. during the year was pointing up the stone work over the entire main library building, a thoroughly worthwhile and badly needed job, which is now nearing completion.

The trustees record with regret the passing away on February 21, 1936 of Mr. Sylvester A. Lyons, a member of the board. Mr. Lyons was a man of literary mind and great zeal for advancement in education and always took an active part in the work of the library. Mr. Paul C. Reardon was appointed to fill this vacancy.

On May 16, 1936, occurred the decease of Mrs. Fanny Starkey Crane, widow of Albert Crane, at Stamford, Connecticut. Mrs. Crane, after the death of her husband, continued to maintain the Crane family interest in the library and her loss will be greatly felt.

The members of the board again attest the loyal and efficient service of the librarian and staff and again thank the Mayor and City Council for their co-operation in the work of this department.

Respectfully submitted,

GEORGE E. ADAMS,

Chairman.

GEORGIANA CUSHING LANE,

Secretary.

Treasurer.

HENRIETTA C. THOMAS,

VINCENT J. READDY,

Auditing Committee.

REPORT OF THE LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

In a recent address, President Robert M. Hutchins of the University of Chicago stressed the importance of the public library as an instrument of popular education. Among other pertinent remarks, he said: "If we are going to have leisure in good times as well as bad, we must expect the circulation of libraries to continue its expansion. We must not only expect it, we must hope for it, plan for it, and encourage it. There are two advantages in a library education,—you must get it yourself and you must get it through books. The excellence of British university education has rested on these two characteristics. American colleges and universities are gradually coming to see that the student should read widely, independently, and at his own pace. This opportunity the library offers in a fashion superior to that of universities. . . . The library will be, in my view, the great instrument of popular education in the future. . . . To supply the service the country needs libraries will have to have more books and better ones."

I have quoted these words of one of the most forward looking educators of our times, not because they offer a new conception of the public library—most librarians would regard them as axiomatic—but because it is a conception that is not as generally recognized as it should be. I also wish to point out the goal before going on to the more discouraging business of recording some of the difficulties this library is encountering in trying to measure up to it.

During the year 1933 the number of books borrowed from the Thomas Crane Public Library totaled 901,823 volumes. In 1934 the circulation dropped to 847,399 volumes. A further drop in 1935 brought the figure to 765,727 and another loss is recorded for 1936, the circulation for the past year being 711,746 books. In these years the loss in circulation has reached the rather staggering figure of 190,077 or over 21 per cent of the 1933 circulation. Statistics showing the expenditures for books, number of books added and withdrawn, in comparison with the circulation figures indicate only too well the direct relationship of the drop in circulation and the reduction in book budgets during these years. Because I have considered this problem at length in my last two reports I do not propose to dwell on it again, especially as I appreciate you are as concerned about it as I am and likewise feel that the only remedy lies in the restoration of the book appropriation of 1932, that is, \$18,000 as against the average of \$10,400 of the last four years.

However, it is gratifying to report that the loss in the circulation of non-fiction was proportionately less than that of fiction, being under 10 per cent of the total. There is a reason for this. While the problems of book selection and purchase under the reduced budgets have been difficult and perplexing, I have felt that as the library is primarily an educational institution, as many as possible of the more solid and worthwhile books should be added, though the purchase of fiction be curtailed. But it has not been possible to duplicate many of these books for the branches and very few reference books have been added to our collection.

With one exception, all the various agencies of the library have been maintained with no changes in hours open. The exception is the service which the library has been engaged in since 1924 of supplying graded class room libraries to the teachers in the elementary schools of Quincy. This service, a widespread feature of

public library work, was started with a great deal of enthusiasm by Mr. Temple, my predecessor. A thoroughly worth-while work of great value and much appreciated by the teachers, it entailed the building up of a special collection of books for its sole use, and, as children's books are naturally subject to excessive wear and tear, keeping up the collection involved a good many replacements each year. When the first reduction of nearly 50 per cent in the book budget came in 1933, it was decided to stop buying books for these classroom libraries for at least one year. The continuance of the cut made necessary the continuance of this policy and no new books were added in the past four years. Classroom libraries were, however, delivered in 1933, 1934 and 1935 to such teachers as desired them, but they were smaller in size and the number sent out was greatly reduced. But the collection had become so depleted that this last fall it was decided to discontinue this service entirely and to allow the branch librarians to add to their shelves such books as were left. Personally your librarian regretted very much to give up this valuable feature of library work, but saw no alternative under present conditions.

In spite of the drop in home loans, there has been no abatement in the reference work, especially at the main library. The handling of the work that is required of the reference department by the students of the Quincy High School has always been something of a problem due in part to the physical limitations of our building to serve a large number of people at one time and, in part, to lack of knowledge in advance of the sort of information which was to be required. The high school teachers in those departments which depend on the public library for much of the outside work of these students realized the situation and suggested a conference to discuss the problem of closer cooperation. This conference was attended by department heads, teachers, and the high school librarian, the reference librarians at the main library and myself. It proved very successful. The exchange of points of view led to a better understanding of the problems of the school and the public library, and ways and means were found to overcome some of the difficulties and to facilitate the work. As a result, a service more mutually satisfactory to both high school and library has been established. It is gratifying indeed for me to record the fine spirit of cooperation shown by Miss Coulman, the high school librarian, and by the teachers in taking the initiative in arranging for this conference.

There is little to report regarding the branches. There have been no changes in location of hours of opening. With two exceptions, all showed losses in circulation, the exceptions being the Squantum and Temple Branches. The Squantum Branch's gain was small but the Temple Branch had a marked increase, the gain being nearly 4,000 volumes over last year's circulation. In fact, the popularity of this branch has created a problem as the present quarters are definitely too small to meet the requirements of the Quincy Point district.

The Hospital Library Service also had a big year with a twenty per cent increase in circulation. The razing of the old administration building in anticipation of the erection of the new building necessitated a change in the location of the library quarters. The hospital authorities generously gave us the only room available on the first floor which, though inadequate as a reading room, did provide enough room for our books and has been fairly satisfactory as a distributing center. In the new administration unit now nearly completed, the library has quarters which should meet its needs for many years to come.

Last April Mrs. Zayma Chapelle tendered her resignation as a member of our staff after twelve years of service, during ten of which she acted as hospital librarian. The growth and popularity of the library at the Quincy City Hospital were due almost wholly to her work there, for which her interest, enthusiasm and personal qualifications admirably fitted her. As her successor, Miss Helene Hodgkinson, who had been assistant in the children's department, was chosen and she has taken hold admirably and is carrying on the work as a worthy successor to Mrs. Chapelle.

Besides Mrs. Chapelle, the library lost two members of the staff. Miss Mabel S. Baxter retired at the end of November. To Miss Baxter's long and devoted service to the Thomas Crane Public Library we paid our tribute in the annual report of 1933. May she long enjoy the freedom she has so well earned. In December Miss Virginia Giles resigned to become Mrs. Henry Fuller after serving faithfully and efficiently for three years as a general assistant at the main library. In cooperation with Miss Ponti she was responsible for many of the original and effective posters which have attracted favorable attention from the public.

In May Miss Flora DiBona, a graduate of the Simmons College (School of Library Science, became a member of the staff, her assignment being chiefly reference work and the indexing of the files of the Quincy Patriot Ledger. At the December meeting of your board, Miss Dorothy Newton, also a graduate of Simmons College was appointed to fill the vacancy left by the resignation of Miss Giles, to begin work the first of January, 1937.

The collection of overdue books which do not come back following the sending of the usual two weeks notice is a vexing problem in all public libraries. Various methods have been devised and tried out with indifferent success here as elsewhere. Collecting by private messenger and by the police have been ways of coping with the problem. This year we seem to have found the most satisfactory solution yet tried. The collection of these books has been put in charge of our chauffeur, Mr. White, who takes the car on a regular schedule between the hours of five and eight p.m. when people are most likely to be at home. In difficult cases he occasionally has police assistance, but this is not often required. Mr. White's persistent efforts have brought results.

In the fall of 1935 the Quincy Women's Club through its Community Service Committee purchased a "talking book" for the use of the blind people of Quincy. This "talking book" is an electric phonographic machine which reproduces vocally books and other reading matter. The American Foundation for the Blind hold the patents for the machine and the records or discs are distributed by the Library of Congress free. The Perkins Institute for the Blind in Watertown is the distributing agency for Massachusetts. This library has cooperated with the Community Service Committee of the Quincy Women's Club by undertaking the delivery of this machine and records to the local blind. The machine and a certain number of records are loaned to each blind person for a period of two weeks. When the rounds have been made the records are returned to Perkins Institute and new ones obtained. At the present time there are eight blind people enjoying in turn the "talking book" and all are very enthusiastic and grateful for the service.

In February four exhibit cases for the Alice L. Campbell collection of dolls were completed and installed in the Boys and Girls House. These cases were built by the boys at the Quincy Trade School under the supervision of Mr. Gustin and Mr. Estes of the Woodworking Department. The librarian takes this opportunity to

express his appreciation to these teachers and to the boys for the fine cooperative spirit shown in undertaking and carrying out the job.

During the fall as time permitted, your librarian was engaged in writing a history of the Thomas Crane Public Library. This work was undertaken by request of the editor of the Quincy Patriot Ledger and it appeared in the Anniversary Edition of that paper on January 7, 1937. Suggestions have been made that as it is the only up-to-date history of the library, it might well be reprinted in pamphlet form for more permanent preservation and for a wider distribution.

In closing this report, I would be remiss if I failed to acknowledge my indebtedness to Miss Callahan and to all the other members of the library staff for their loyal cooperation and to your board for your continued confidence and support and for your whole-hearted interest in the work of this library.

Respectfully submitted,

GALEN W. HILL,
Librarian.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Quincy:

Your School Committee submits to you the following report for the year 1936.

The completion and occupancy of the west wing of the North Quincy High School has been the most outstanding event of the year 1936.

Twenty-six additional rooms have been provided and your Committee is of the opinion that the present facilities will be sufficient to take care of the public school needs in the northern end of our city for the next few years.

The establishment of an enclosed athletic field, known as the North Quincy High School Athletic Field on Birch Street, fills a long felt need. This field almost adjacent to the North Quincy High School will, without doubt, prove to be one of the strongest links in our entire athletic program.

The year 1936 has seen the establishment of the most comprehensive health program ever attempted in our school system as the result of a motion passed by your Committee April 14, 1936: ". . . voted unanimously that the health program be adopted as recommended by the Superintendent in the Superintendent's Annual Report for 1935."

This department is headed by Mr. James J. Carter, who comes to Quincy from Lynbrook, Long Island. His work in this particular field has been outstanding in its results and has attracted the attention of educators throughout the country. All the health and athletic activities have been coordinated and placed under his control and we believe we can look forward with confidence to an era of improvement in this most important field.

The program of Guidance and Research has been finally adopted and enlarged and is now on a city wide basis extending to all grades in the school system. Miss Mildred Harrison who has been so successful in this special field of work has been elected Director in charge.

The class of physically handicapped children at the Thomas B. Pollard School is now in its second year. No finer or more humane thing has ever been attempted in our school system. It fills a great need and the citizens of Quincy may well point with pride to the splendid work it is doing.

The demand for the free use of school halls and rooms by the W. P. A. classes and other groups of our citizens has become a serious problem to your Committee. It has placed a burden of expense on the schools due to extra heat, light, and janitor service not heretofore provided in our budget. If this free use is to continue, the City Council and the citizens in general should recognize the necessity of placing a sufficient amount of money in our budget to provide for it.

The drift of our school population is definitely towards the northern end of our city. There is a serious overcrowded condition in the Wollaston School which can only be relieved by the addition

of four to six rooms. This matter should be given serious and immediate attention.

The following statistics should prove interesting to our citizens. We now have 25 school buildings with a total estimated valuation for buildings, equipment, and sites of \$6,239,959. The enrollment on September 14, 1936 was 14,485:—boys, 7,349; girls, 7,136 of whom 7,665 are in the elementary schools; 3,673 in the junior schools; 3,147 in the senior high schools.

There are 570 in the personnel of the School Department including Superintendent, Assistant Superintendent, Supervisors, Principals, teachers, clerks, custodians and cleaners.

The budget for the year 1936 was \$1,210,000. By virtue of the schools the City Treasury has received approximately \$131,500, making the net cost of running the schools \$1,078,500. The per capita cost per pupil for the year 1936 based on the above budget is approximately \$83. The net per capita cost per pupil for the year 1936 due to the receipts of \$131,500 from outside sources is approximately \$74.

The cooperation of the Mayor in providing materials and equipment for W. P. A. projects for repairs and maintenance work on school property is greatly appreciated by your Committee.

To the Superintendent, Mr. Muir, and his corps of teachers and personnel we owe our sincere appreciation for the excellent standing of Quincy's schools.

The foregoing report was presented by Mrs. Beatrice W. Nichols and Mr. John H. Taylor and adopted by the School Committee as its report for 1936.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Quincy:

Ten years ago, Wednesday, January 6, your Superintendent of Schools began his work in the Quincy Public Schools. On taking up the superintendency one must of necessity assume grave responsibilities. Ten years in active service in Quincy has served to increase that feeling of responsibility. On the outset it may be of interest to know that during all these years I have not been absent a day on account of sickness or ill health. In this respect I have been greatly blessed for which I am thankful.

I am profoundly grateful for the strong support you have given me and the staff during these years and appreciate the interested and splendid manner in which you have faced the difficult problems.

It would seem fitting at this time to point out in review some of the significant facts in the educational progress of the Quincy School system during these ten years.

The enrollment in September, 1926, was 12,101 pupils. Of this number 2,232, or 18.4% of the pupils, were enrolled in the 9th, 10th, 11th, and 12th grades, or what is known as the high school under the 8-4 plan.

The net enrollment on the first Monday in September, 1936 was 14,485. Of this number 4,275, or 29.5% of all the pupils in the school system were enrolled in the 9th, 10th, 11th, and 12th grades.

You will observe that a great increase in enrollment has come in the secondary schools. The enrollment for the entire city over the ten year period has increased 19.7%. The enrollment in the last four grades over the same ten year period has increased 91.5%. That is, the actual number of pupils enrolled in the corresponding grades in the high school during this ten year period is almost doubled.

In 1926 the organization consisted of the regular day school, which was definitely the 8-4 plan then called the elementary and grammar grades (7th and 8th) and High School. There was a large Continuation School, Independent Industrial School (now Trade School), Home Making School, Evening Academic School, Industrial Evening School for Men, Industrial Evening School for Women, Americanization Work, and Summer School.

The old Quincy High School building on Hancock Street, now designated as the Central Junior High School, was utilized in September, 1924 to take care of the eight grades from a few overcrowded schools,—Coddington, Daniel Webster, and Lincoln—and the 9th grades from all over the City excepting the college preparatory group of the 9th year. This type of organization prevailed up to 1927.

The type of organization in January, 1937 is known as the 6-3-3 plan,—elementary, junior high, and high school. There are at the present time three junior high schools, one three-year high school, and one six-year high school, a Trade School, Evening Academic Classes, Evening Americanization Classes, and a very small Continuation School.

On assuming my duties as Superintendent in Quincy a building program was imminent. The City's schools were crowded everywhere. The School Committee promptly took up a five-year building program and carried it to a successful conclusion.

In January, 1927 there were twenty school buildings. There were eleven portable buildings scattered throughout the City. In January, 1937 there are twenty-five school buildings and two portable buildings.

The North Quincy High, South Junior High, Quincy Point Junior High, Adams Shore and Merrymount schools were built during the last decade. The first unit of the North Quincy High School was ready for occupancy and dedicated February 8, 1927.

Additions to the various schools were built as follows:

Complete renovation of the gymnasium at the Central Junior High School and a complete new unit of showers and lockers for the girls and boys adjacent to the gymnasium.

Atherton Hough School, 9 rooms and assembly hall occupied January, 1930.

Montclair School, 9 rooms and assembly hall occupied March, 1930.

Gridley Bryant School, 4 rooms and small assembly room occupied September, 1930.

North Quincy High School east wing occupied September, 1931.

Adams School, 4 rooms occupied September, 1931.

Quincy School, 8 rooms and assembly hall occupied September, 1932.

North Quincy High School west wing occupied September, 1936.

Cranch School, small assembly room built out of two classrooms.

Repairs. The School Committee included in the five-year building program the modernization of the old buildings. The repairs to the old buildings and the school yards during this period have been many and varied. Much headway was made up to 1933. I will not attempt to enumerate in detail the items of repair. Suffice it to give a few to illustrate the type and scope of the repairs. For example, a fence was built around the property of the Atherton Hough School, except in the rear, and the playground resurfaced with permanent material. The same is true of several of the elementary school yards.

At the Central Junior High School a great variety of repairs have been completed. In 1930 the heating system was improved. A fire alarm system and hot water tank was installed. Brass pipes and Mason safety treads were installed throughout the building. The interior of the building was painted.

In 1935 the boilers were retubed and many other minor repairs were completed. This does not include the work that the W. P. A. workers have been doing at the Central Junior High School for the last year and a half.

These repairs are typical of those done in many of the other buildings. In addition to the general repairs, the resurfacing and fencing of the playgrounds, all of the buildings have been painted inside and out except the interior of the John Hancock and Codding School.

This is an achievement in industry on the part of the School Committee of which they can be proud; which shows clear vision

and good thinking by a School Committee devoted to an ultimate aim—good schools.

Teachers' Qualifications. In January, 1927 the minimum qualification of a teacher in order to receive appointment as a regular teacher in the elementary grades in the public schools of Quincy was graduation from a normal school (two year course), or some equivalent training school for teachers.

At present the qualifications for teachers elected to the Elementary Schools require graduation of at least a four-year course in a State Teachers' College or its equivalent and shall have had a "B" standing in the three departments—scholarship, personal equipment and power to teach. Teachers elected in the Junior High Schools shall be graduates of a four-year approved normal or college course. Teachers elected in the Senior High School shall be graduates of a four-year approved normal or college course and shall have had two years of successful teaching experience.

The complex situations that we are obliged to face in our daily work require constantly increased preparation in order to meet the changing demands of the times.

In addition to the Superintendent and Assistant Superintendent of Schools there were forty-nine men teachers ten years ago, seventeen of whom were college graduates; sixteen, normal school graduates; two, graduates of secondary schools; and fourteen in the Industrial School whose qualifications were mainly that of trade education.

At present, in addition to the Superintendent and Assistant Superintendent, there are ninety-eight men teachers employed,—sixty-five of whom are college graduates of whom twenty-two have Masters Degrees, seven with degrees from teachers' colleges, one with diploma; fourteen normal school graduates; six, secondary school all of whom have taken advanced courses since their employment as teachers; and thirteen with trade education.

Special Classes. The maladjusted child has received more attention by the establishment of special classes for them. There were two of these classes in January, 1927,—one at the Thomas B. Pollard School and one at the Adams School. At the present time we have eight such classes,—one each at the Adams, Daniel Webster, Francis W. Parker, Lincoln, Thomas B. Pollard, Willard, Central Junior Portable, and Coddington Portable. In addition to that we have three classes established for scholarship adjustment—one at the South Junior High, one at the Quincy Point Junior High, and one at the North Quincy High. Two years ago we established a physically handicapped class.

The raising of the standard of qualifications of all teachers; placing more men teachers in the school system, which has given, we think, more virility to our work; the segregation of the maladjusted in our classes; the elimination of the midyear promotions; have been done with a high hope of increasing the scholarship of the individual child and we think it has.

The Effectiveness of the Educational Program. This leads me to the underlying reasons for the outstanding improvements in the educational program of the school system.

Some of the contributing factors for greater efficiency are here recorded: (1) a closer knitted organization, i.e., the system has a greater unity of purpose; each field highly specialized in its endeavor to do the best work yet joined closely and firmly together in a unity of purpose; (2) it was essential to arouse the principals and teachers to the larger vision of the new, more diversified

program of studies and the teaching of the whole child; (3) the elimination of the midyear promotions; (4) the establishing of the junior high school on a junior high school basis; (5) special classes for the maladjusted pupil and other special classes mentioned previously; (6) enriching the program of studies by giving (a) variety of new subjects adapted to the individual needs and capacities of the various children, (b) by a more thorough study of what to teach; (7) more attention to the individual child in the groups and as individuals. This was brought about by a very definite program in (8) Guidance and Research which has been discussed fully in previous reports; (9) extension of the Art program; (10) The Teaching Aids,—the teaching aids have done much to improve the efficiency of the work of the classroom. This, too, was discussed at length in my 1935 report; (11) the development of the music department. In 1927 there was a director of music and one assistant and a teacher of music at the Central Junior High School. At present we have a director, two assistants, and four full time instructors of music. We have never lost sight of the curriculum purpose of music which is (a) to read simple music at sight, (b) to understand musical terms and concepts, (c) to sing with pleasure, (d) to enjoy and appreciate music. Music is the universal language which enables human intelligence to communicate with each other; (12) the development of the library. In January, 1927, we had two libraries,—one at the Central Junior High School and the other in the Quincy High School. Now we have five well appointed libraries with approximately 2,000 volumes and five trained librarians. We have tried to keep before the teachers and pupils the library purposes; to instill into the minds of the pupils the reading objectives, creating life attitudes toward books, and to acquire library skills. The library has been discussed quite fully in my former reports. I look upon a well conducted school library as the center of school life. It should be the most potent single agency for promoting and continuing education after school days are over.

Reorganization of the Health Program. The Superintendent's Annual Report to the School Committee for the year ending December 31, 1935 concluded with five specific recommendations. The second recommendation was that there be a complete reorganization of the Health Department.

On April 14, 1936 the Health Program as recommended by the Superintendent in his Annual Report of 1935 was unanimously adopted by the School Committee. By Health Program is meant HEALTH PROJECTS, HEALTH TEACHING, PHYSICAL ACTIVITIES, HEALTH DEVELOPMENT, AND SOCIAL EFFICIENCY.

For several years the Committee had faced the problem of reorganization and came to the conclusion that all the health activities should be combined in one program as previously outlined. In January 1927, the Health Program provided for a school physician, three nurses, a dentist (part time) and a prophylactic nurse. The dentist and prophylactic nurse were discontinued in January, 1933. There was no direct relationship between the medical side and the physical activities. The physical education program provided a Supervisor of Physical Education and two assistants.

THE SCHOOL HEALTH PROGRAM IS NOT A MEDICAL PROGRAM. IT IS DEFINITELY AN EDUCATIONAL PROGRAM and therefore the effort to make it such in the reorganization.

At the present we have two school physicians (part time), four nurses, two health service workers—one in each high school;

and on the physical, ten instructors—five men and five women, and a Director of the department who is called Director of Health Education in charge of all the health activities in the Quincy Schools.

The outstanding feature of the program is the adjustability to the individual needs of each pupil. The entire program should coordinate toward the physical and mental well-being of all concerned. It is highly desirable to put this type of a program into effect in Quincy and to do this it is essential to have trained and experienced teachers. We are working toward that end.

Review of Some Facts for the Year Just Closed. Permit me to draw your attention to the Budgets allotted to the School Committee for the following years:

1931	\$1,242,360.80
1932	1,237,189.00
1933	1,139,000.00
1934	1,225,096.26
1935	1,215,072.59
1936	1,210,000.00

You will note that there has been a gradual reduction in the Budget for the past five years, this in the face of new buildings, more heat, light and power needed, the operation and maintenance of the buildings have of necessity increased, more numerous demands by outside agencies for the use of the school buildings. Another item you should note carefully is the tremendous increase in the expenditure of moneys for secondary education. These facts alone should convince any one of the tremendous accomplishments in the synchronization of every department of the school system.

We have kept within the budget allotted to the School Committee for the year 1936. This could only be accomplished by the eager prosecution and research into every field within the school system. Since approximately ninety percent of the money appropriated for school purposes is paid to the personnel which includes the teaching staff, clerks, custodians, cleaners, and all other workers, there was but one place we could cut the budget and that was from the teaching staff. This was done by the elimination and combining of several classes in the elementary schools. Then, too, several key people were out during the year—the doctor, the Director of Guidance and Research, a nurse for part of the year—all of whom we must provide for in 1937.

I am unalterably opposed to waste of public funds. It is our duty to see that we get one hundred cents worth of service for each dollar expended.

The burden of keeping the budget within its allotted amount has devolved primarily upon the superintendent. His authority is not commensurate with the responsibility thrust upon him. The present school system in Quincy is conceded by many of the leading educators to be a most efficient and progressive school administration, the most successful since the days of Francis W. Parker in every particular on less money per capita than the systems of like size in the State.

The Quincy school system is attracting attention of the most progressive educators throughout New England and many other school systems in the Country. Teachers, supervisors, principals, superintendents of schools, lay and professional men have visited our schools during the year 1936. Requests and questionnaires are

constantly coming to the Superintendent's office from all parts of the country inquiring about different phases of our work. Quincy has come to be looked upon as a leader in public education.

The schools are in a constant state of flux; in a state of continuous change. The radically changed social and economic conditions under which we live demand the change.

The type of pupils coming to our high schools today demand a preparation for practical living. The type a generation ago came to school with no practical objective. Thus has come into being the cosmopolitan high school such as the North Quincy High School with its adequate equipment to take care of the pupils' every need and prepare the pupils to go out and earn their own living. It offers a comprehensive education to the masses during their adolescence. It offers in one school an unusual variety of courses intended to fit the needs and capacities of the various abilities of those who attend. The ultimate aim—better citizens.

We are now in a position to go. Much has been accomplished; much remains to be accomplished. We have just reached the stage where we should be able to crystallize and make effective much of the work that has gone before. With the combined efforts of the personnel we should be able to further our achievements. We have the human resources. We are acquiring the physical plant and by all pulling together we can make this vision an actuality.

In January, 1936, we conducted a scientific testing program of the hearing of the children to determine those hard of hearing and it has given us information sufficient that we should go forward with this program. I am, therefore, recommending for the future a very definite program.

Recommendations for the Future—(1) That a very definite program be set up to test the pupils' hearing to discover those who are hard of hearing by scientific testing and the pupils found to be hard of hearing be followed up with corrective work so far as possible; and that some tangible class work be given to those who are entirely deaf and cannot get work in the regular class room.

(2) That there should be a very definite and tangible program set up for the examination of the eye as well as the ear. Pupils that cannot see well; pupils that cannot hear, are handicapped from the beginning. The teachers should know who those pupils are. The parents should know if their child has difficulty with sight and hearing and both work together for the common good of the child.

(3) The Law and Order program, started in 1934, should be attacked with renewed vigor in the light of the work done by the various committees.

(4) A complete renovation of the boys' shower and locker room and a new gymnasium at the North Quincy High School are essential.

The Assistant Superintendent has reported for the State-aided schools, Evening Schools and Special Classes.

Respectfully submitted,

JAMES N. MUIR,
Superintendent of Schools.

REPORT OF THE ASSISTANT SUPERINTENDENT OF SCHOOLS

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My DEAR MR. MUIR:

I submit the following report on the Trade School, Continuation School, Evening Classes, Mentally Retarded Pupils and Special Classes.

The Day Trade School

The membership of the Trade School for the school year 1935-36 was 216.63, nearly six less than that of the previous year. In the table below is shown the enrollment and average membership by departments for the past five years.

	1931-32		1932-33		1933-34		1934-35		1935-36	
	Enrol.	Av. Mem.	Enrol.	Av. Mem.	Enrol.	Av. Mem.	Enrol.	Av. Mem.	Enrol.	Av. Mem.

Sheet Metal.....	21	15.38	19	14.32	23	16.78	25	18.42	22	17.81
Woodworking.....	53	36.57	60	48.03	68	54.62	68	56.84	75	55.14
Total Enrollment.....	214		230		274		299		286	
Total Average Membership.....		164.10		184.66		209.00		222.20		216.63

During the past two years the school has been practically at capacity membership for the number of teachers employed. Two departments, sheet metal and machine, could accommodate more students if additional teachers were employed. There are waiting lists in both departments mentioned and there were sufficient applicants last fall to have warranted expanding the machine department had there been funds available to pay a teacher.

All the graduates of the machine department of June, 1936, were placed in the trade and the graduates for June, 1937 have jobs waiting for them when they complete the course. Industry is apparently on the road to recovery with indications that there will be difficulty in filling the demand for trained machinists. I strongly recommend the employment of another instructor in the machine department in September, 1937, and the possibility of another instructor in the sheet metal department by September, 1938.

In July, 1937, under the provisions of the new George-Dean Law for Vocational Education, Massachusetts will receive almost twice as much money from the Federal Government for vocational education as it has received in the past. Indications are that this money will be used to finance new forms of vocational education rather than to expand existing departments. I believe Quincy should increase the opportunities for trade education in the future by adding one or more of the following: Welding, including Ox-Acetyline and Electric Arc Welding; Interior Decorating and Wood Finishing, which includes Painting; and possibly Printing.

In November, 1936, the School Committee voted that pupils who completed the Trade School course in good standing after having completed the sixth grade with sufficient credits to have entered grade ten should have on their diplomas the words, "This is the equivalent of a regular high school diploma". This action should tend to attract to the Trade School many boys who in the past have hesitated because they wished a high school diploma even though they were really better fitted to work with concrete material.

The total cost of running the school for the school year 1935-36 was \$46,042.66, an increase of \$3,404.52. This increase was due largely to the necessary purchases of much needed supplies, replacement of old equipment and the purchase of new equipment.

The total cost was reduced as follows:

Tuition for non-residents	\$11,608 31
Cash for products made in the school	983 36
Aid from the Federal Government	1,614 72
Aid from the State of Massachusetts	14,906 73
Miscellaneous receipts	90 51
Total receipts	\$29,203 63
Net cost to the City of Quincy	16,839 03

The amount received for tuition shows a drop of \$1,852.43 due to a drop in the tuition rate for the past two years of \$70 per pupil and because more Quincy boys enrolled leaving less room for pupils living in other communities.

The Continuation School

The table below tells the story of the Continuation School since 1926

	1926 1927	1927 1928	1928 1929	1929 1930	1930 1931	1931 1932	1932 1933	1933 1934	1934 1935	1935 1936
Boys.....	84	95	82	72	45	29	13
Girls.....	56	62	65	54	47	42	32	24	25	18
Total.....	140	157	147	126	92	71	45	24	25	18
Hours of Service.....	11860	7996	7148	6132	4056	2208	1524	1560	896

The girls enrolled were all employed in the home either on Home Permits to work in their own home or to do housework and help care for children in the home of another.

In the fall of 1936 there were but three girls enrolled in the school and they were placed for one day a week in a class with a regular day school teacher where they received instructions in cooking and sewing.

The cost of teaching the pupils is now reduced to a small amount as the only cost is for the supervisory work of Mr. Dana Clark. Unless the number of youths between 14 and 16 years of age who are at work increases considerably, I recommend that this branch of the school system be discontinued. It has been maintained to date because industrial conditions seem to indicate that there might be a decided increase in the employment of 14 to 16 year old youths in certain fields.

The total cost has been slight as the figures below indicate:

Total cost of Continuation School	\$924.80
Aid from the Federal Government	\$359.23
Aid from the State of Massachusetts	282.79

Total receipts	642.02
----------------------	--------

Net cost to the City of Quincy	\$282.78
--------------------------------------	----------

The cost for 1936-37 will be considerably less than for 1935-36.

Evening Classes

Evening Classes in academic subjects and adult alien education were maintained on a similar basis as last year. The following table shows the type of work with the enrollment from October 4 to December 16, 1936.

Mechanical Drawing	85
Elementary Typewriting	295
Intermediate Typewriting	99
Advanced Typewriting	114
Elementary Stenography	171
Intermediate Stenography	57
Advanced Stenography	96
Business English	334
Business Arithmetic	233
Grammar School English and Arithmetic	86
Classes for Adult Aliens in English and Citizenship	161

The total enrollment of 1,082 different pupils was about the same as the fall enrollment of last year but the average membership of 550 showed more pupils dropping out. The per cent of attendance for the ten weeks was 82.55, the highest we have ever had in evening school.

Of the 1,082 different pupils who enrolled in the academic classes, 623 were high school graduates most of them being young people who have been unable to obtain employment and who wished to maintain their skill in typewriting or stenography. The increase over last year in the number of pupils who withdrew from evening school was due largely to the rather large number who obtained work during the fall months and for the Christmas season and could not keep up with their evening school attendance.

The classes for adult alien education showed an increase but we are not reaching the large number that we used to reach when we had classes at the South and Quincy Point Junior High Schools. It is the uneducated alien who furnishes the most fertile ground in which to sow the seed of communism. Less than a \$1,000 increase in the evening school appropriation would enable us to open classes for adult aliens in South Quincy and Quincy Point. I believe it would be money well and profitably spent.

In addition to the students attending evening classes in Quincy the city has been paying the tuition of 42 men who are attending the Boston Evening Trade Extension Classes. By State law every community in Massachusetts must maintain Evening Vocational Classes or pay the tuition of any qualified student who desires to attend the Evening Trade Extension Classes in another town or city. The 42 men attending the Boston Evening Trade School were taking work as follows:

Electricity	14
Sheet Metal	9
Machine	8
Plumbing	4
Miscellaneous	7

Next fall I believe there will be a larger group of men who will apply for evening class instruction. The above figures indicate that we could have started classes in Quincy in Electricity, Sheet Metal and Machine work had there been funds available.

I believe the trade extension work is just as valuable as the academic instructions in the commercial subjects and the State of Massachusetts will refund one-half the net cost.

I rather feel that several of the men now taking Mechanical Drawing would be better served in a class for Sheet Metal Drafting. It was impossible to maintain both the Academic work and Vocational Classes on the amount provided for Evening School instruction.

Mentally Retarded Pupils and Special Classes

The increased use of group mental and achievement tests awakened the teachers to the need of more individual testing and the teachers have also become more expert in selecting pupils for clinic examination. Two hundred and twenty-six pupils were referred to various psychological clinics of which number twenty-four were referred for re-examination. The following table indicates the clinic to which the children were referred with the general findings as to mentality.

Name of Clinic	Broad Findings as to Mentality				
	Normal or Better	Dull Normal	3 yrs. or more Mentally Retarded	Case Incomplete or I.Q. not found	Total Referred
Wrentham Traveling Clinic.....	25	63	59	0	147
Habit Clinic.....	26	6	8	3	43
Guidance Clinic.....	12	11	8	3	34
Other Clinics.....	1	1	0	0	2
Totals.....	64	81	75	6	226

The children referred to the Wrentham Traveling Clinic are those suspected of being definitely mentally retarded. When we first began to select pupils for such examinations at least one-half of them were found to be normal. Last year only one-sixth of them were discovered to be normal which shows a surprising improvement in judgment on the part of all concerned.

The children sent to the other clinics are referred for a variety of causes of which mentality is only one factor so one expects to find most of the children normal. If the teachers and principals had supposed mentality to be the principal cause of maladjustment more of the children sent to the Habit and Guidance Clinics would have been referred to the Wrentham Clinic.

On December 1, 1936, there were two hundred and forty-nine children in the Quincy Public Schools known by individual examination to be definitely mentally retarded. This number is slightly under that of last year which may indicate that we have about reached the maximum number which we may expect to have within the system during the next four years.

In December, 1936, 169 mentally retarded pupils were being taught in special classes as follows:

Adjustment Classes in Junior High Schools.....	19
Opportunity Class for Older Boys	36
Opportunity Class for Older Girls	15
Ungraded Opportunity Classes (six in number)	99

Of the eighty children not in special classes, forty-eight are in the various secondary schools where many are making good adjustment. The other thirty-two are distributed among fifteen of the nineteen elementary schools.

Many of the mentally retarded children should be in special classes but there are not enough of them within reasonable distance of a common center to establish new classes. In some places where there are special classes there are too many retarded children for the existing class in the school but not enough more to justify opening another class. Fortunately, most of the children who should be educated in a special class are so placed before serious harm is done. The Principals, having clinic reports on file for the retarded pupils, are able to adapt to their needs the work of the regular classes.

Respectfully submitted,

ALBERT H. COCHRANE,
Assistant Superintendent of Schools.

APPENDIX A

STATISTICAL DATA

1. Financial Statement for the Fiscal Year Ending
December 31, 1936

I. REGULAR AND STATE-AIDED SCHOOLS

Appropriated by City Council (exclusive of Federal Funds)	\$1,210,000 00
Expended, Regular and State-Aided Schools (exclusive of Federal Funds)	1,209,980 22
Balance unexpended	\$ 19 78

Itemized Expenditures

Instruction	\$979,799 02
General Control	19,215 47
Coordinate and Auxiliary Agencies ...	23,730 50
Travel Outside State	124 68
Operation of Plant	114,631 26
Maintenance	15,277 82
Maintenance—New Equipment	5,206 18
Miscellaneous	2,692 17
Evening School	2,213 39

Total for regular schools	\$1,162,890 49
Trade School	\$ 42,037 29

APPENDIX B

LIST OF GRADUATES AND AWARDS

1. Quincy High School

JUNE, 1936

556

Betty Monroe Abele	Philip Francis Bradley
James Francis Ahearn	Richard Arthur Bramhall
Harold E. Allen	Mildred Brandes
Herbert Joseph Allen	Anna Louise Brault
Florence G. Allgorin	Frederick W. Brennion
Marion Rita Amet	Edward Joseph Bresnahan
Claire Eileen Anderson	Stanley T. Brids
A. Edith Mildred Anderson	John Anthony Broderick
Mildred Louise Anderson	Anthony F. Bruce
William Albert Andrew	Alfred Bruno
Amelia Florence Angelini	Bernard J. Buckley
Harry William Appel	Norman J. Buckley
Edward Joseph Arsenault	James E. Burke
Rita Marie Arsenault	Iola Adeline Calderone
Genevieve Mary Ash	John David Callahan
Sumner David Atran	George Warren Callbeck, Jr.
Harriette C. Averinos	Margaret Ellen Cameron
George Russell Bailey	George Joseph Canavan
Anna Mae Baker	Margaret Ellen Canavan
Bruna M. Baldassini	Gorina Ann Cantelli
Frank J. Baldassini	Anthony Capobianco
John Nino Baldassini	Viola Agnes Capone
James Munger Banghart	Helen Mary Caradonna
Wilfred Willard Banks	Gertrude Marie Cardarell
Elvira M. Barbadora	Lawrence F. Carella
William Franklin Bardo	Helen Louise Carlisle
Alexander Basil	Mario D. Carloni
Helen Tabbutt Batson	Donald Philip Carlson
Albert Battista	Doris Evangeline Carlson
Frances Baxter	Lillian Signe Carlson
Priscilla Baxter	Alfred Charles Carosi
Elliot R. Beale	Alice Catherine Carr
Frank Beatrice	Olive Irene Carter
Dorothy Thelma Beckwith	Pearl Ruth Cashman
Lawrence Joseph Belton	Martha Irene Casperson
Margaret Ellen Berg	Stella Veronica Catto
Walter A. Berrini	Antonietta M. Chella
Janet Frances Berry	Carmen Elizabeth Chiminello
Wilbert Julius Bertrand	James Joseph Chisholm
William Peter Beverina	Joseph Francis Christiano
Warren Alfred Birch	Pearl June Christie
Ruth Margaret Bissett	Pattie Virginia Christine
George Richard Bjornholm	Thomas Arthur Christopher
Irene Laura Blanchette	James Bernard Clancy
Angelina M. Bonafini	Joseph Francis Clancy
Rose Frances Joan Bosco	Jean Christine Clark
Jeannette G. Bourdage	Everett Russell Clements

Herbert William Coffman
 Mary A. Colarusso
 Frank Robert Cole
 Ralph Arthur Coleman
 Caroline Lena Coletti
 Edith Marianne Coletti
 Christina Elaine Collins
 C. Shelton Collins
 Nathan C. Comolli
 Ruth W. Connolly
 George Carlton Cook
 Gordon Everett Copeland
 Henry Francis Corbett
 Mary G. Corvi
 Dorothy F. Cosgrove
 James M. Craig
 Woodrow Joseph Crimp
 Rendell C. Crocker
 Eleanor Marie Cronin
 Ralph Edward Crosby
 Sarah Cuthbert Crossley
 Carlton Edmund Crotty
 Grace Marie Cullen
 Joseph Arthur Cummings
 Katherine M. Cummings
 Catherine Ann Curry
 Gertrude Cussen
 Annie R. Cuthbertson
 Edward Abraham Cutler
 Evelynne L. Cutler
 Victor L. Davidson
 Dorothy May Decker
 Mary Evelyn DeCoste
 Salvatore N. Della Barba
 Josephine DelVecchio
 Claire M. Dempsey
 Landa DeSimone
 Mary E. Desmond
 Edouard DeVarennes
 Walter J. Deveau
 Lucy DiAntonio
 Suzanne M. DiBlasio
 Mary Loretta DiBona
 Christine M. DiCesare
 Michelina M. DiMonte
 Catherine M. DiNatale
 Robert Faulkner Dinnie
 Romeo DiTullio
 Barbara E. Dobbyn
 Katharyn Theresa L. Doherty
 John James Dolan
 Paul E. D'Olympio
 Dorothy Elizabeth Donaher
 John Edward Donlin
 Dorothy Frances Donovan
 Anna G. Dravis
 Jack Dreyfus
 Barbara Drury

James William Dunn
 John R. Egan
 Gertrude Eleanor Eko
 John C. Emerson
 Oscar Emond, Jr.
 Rita P. Emond
 Grace J. Eng
 Dorothy Florence England
 Winifred A. Epsom
 Winifred C. Erickson
 John Stanley Erikson
 Weldon E. Erikson
 Maynard Everson
 James A. Fabrizio
 Katherine Margaret Fahy
 Sam Feldman
 John Carl Ferrante
 Martha Chace Ferrante
 Olga M. E. Ferris
 Estelle Barbara Fisher
 Jeanette Louise Fisher
 Virginia A. Fisher
 Maurice Francis FitzGerald
 Ruth E. Flavin
 Edward Everett Fogg
 Ruth Denis Folger
 Leopold M. Fontana
 Marjorie Frances Ford
 Paul Francis Foster
 Charles R. Foy
 Michael George Franchuk
 Mary Frazier
 Olive P. Freberg
 Stephen Freel
 Theodora Forsyth French
 Ernest G. Fruzzetti
 Ruth Furlong
 Annie Galante
 Mary Anne Gallagher
 Marie E. Gallant
 Raymond Gallant
 Patrick Gallo
 William G. Garnett
 Lydia Gentilucci
 Edward L. Gentry
 Mary George
 Nafi George
 Catherine Gerich
 Italio J. Giachetti
 Robert John Gilcoine
 Eleanor J. Gilrairie
 Frances Glading
 Edward M. Gladwin
 Ruth Leah Goldstein
 Leo B. Golosov
 Villis B. Gordon
 Irving W. Goss
 Madeline M. Goudreau

Catherine S. Graffam	Anne L. Karpoff
John Douglas Graham	Wiljo J. Karpoff
Margery Gladys Grant	Doris Marie Keefe
J. Walter Green	Margaret Ann Kelliher
Elsie L. C. Gronberg	Bernard James Kellner
Priscilla Guild	Warren Joseph Kelly
Helga A. Gustafson	Kathleen A. Kiley
Joanne H. Hackett	Gerald W. Kimball
Nellie H. Hajjar	Eugenia L. Kingston
Mary T. Halligan	Aldone P. Knasas
Leo William Hallisey	Paul Allen Knaut, Jr.
Irene Aina Halmi	Ellen Elizabeth Kontio
Margaret M. Hamill	John T. Koury
Peter J. Hannon	Bernard S. Krasner
Christian Edward Hansen	Louis J. Kurlansky
Unto Hantunen	Ruth L. Kurlansky
William F. Hardwick	Miriam A. Kurtzman
Robert Graham Harrold	Vernon Kyllonen
Marguerite Doris Hartel	Frances K. Labadie
Albert W. Harvester	Paul Lacerenzo
Mae Evelyn Harvey	Jennie Miriam Lajunen
Racine Westwood Harwood	Mildred F. Landry
Abdo N. Hassan	Francis Joseph Langton
James Henry Hatfield	Mary G. Latham
Norman G. Hawes	John James Latini
Dorothy Frances Hayes	John F. Leet
Eleanor Gertrude Hearn	Arthur J. Lehto
Vincent John Hebert	Paul Oliver Lehtonen
Toivo J. E. Heikkila	Herbert Joseph Lemon
Robert Julian Henderson	Shirley Virginia Leonard
Richard A. Hendry	Bertha Leppanen
Ruth E. Henriksen	Ilmi Josephine Leppanen
Arthur R. Hetherington	Arnold Levine
Eleanor Ann Hickey	Ruth Violet Lindberg
Elbridge Gerry Hoag	Svea Evelyn Lindblom
Sandra Hoffstein	Edward T. Lindgren
Myrtle Marie Hogg	Eleanor Blanche Lindquist
Alvin Hollman	Frances Eulah Lints
Blanche Louise Holmes	George E. Littlewood
Olive Edwina Horn	Lindsay Logan
Elijah Hibbard Howe	Muriel Elizabeth Logan
Margaret Hyslop	Jack Irving London
Ruth E. Hytonen	Evelyn Marie Lorandean
Dorothy May Inman	Rita Mae Lorandean
Pauline Lillian Jarvis	Henry A. Lubarsky
Anna Marie Jennings	Evelyn Ludwig
Arline Marie Jensen	Linnea Maria Lukarin
Dagmar E. Johnson	Paul Allison Lund
Dorothy Mildred Johnson	Helge P. Lundin
Elizabeth T. Johnson	Leo O. Luukkonen
Grover Hayes Johnson	Agnes Eaton MacAllister
Margaret I. Johnson	Agnes M. McArdeall
Arvo Victor Jokinen	David Charles McArthur
Ruth F. Jones	Alexander D. MacBeth
Lewis D. Joss	James F. McCluskey
Doris Elvera Kain	Donald William McConnell
J. Lawrence Edwin Kallstrom	Mary Camerou McCulloch
Elisabeth Louise Kalning	John Joseph McCue

Elizabeth Anne MacDonald
 Florence M. MacDonald
 Catherine V. McDonald
 John Joseph McGillicuddy
 Dorothy Grace McGrath
 Ruth Margaret McGrath
 John P. MacGregor
 James P. McGroarty
 Joseph Francis McGroarty
 Jean McGuinness
 Donald L. McGuirk
 Norman Ian MacIntyre
 Margaret Helen McLarnon
 Michael C. McLarnon
 Catherine May McLaughlin
 Newton MacLeod
 Margaret May McLeod
 Margaret T. McMahan
 Andrew Thomas MacMurray
 John Hale Mahoney
 Sigrid Marie Majuri
 Vieno L. Maki
 Frederick James Malcolm
 Elsa A. H. Malmquist
 Marion E. Manning
 Virginia A. Manning
 Carmela F. Marella
 Luigi J. Mariano
 Marie Margaret Marinelli
 Margaret A. Marshall
 Robert Bruce Marshall
 Charles E. Martell
 Eddie Wilson Matheson
 Leo Francis Mathieson
 Barbara Ann Mattson
 Greta Arlene Mattson
 Thelma Mattson
 John Mayo
 Nelle E. Mayo
 Thomas L. Melrose
 John Raymond Menz

 Eleanor Louise Oster
 Kenneth Whitney Owens
 Louis Pagnani
 Anna Taylor Palmer
 Clifford Norman Pamplin
 Frances Panepinto
 Angelina M. Paolucci
 Amelia Virginia Papile
 Margaret Nina Parkman
 Margaret M. Patterson
 Marian Ruth Pearce
 Michael Pecoraro
 Josephine Pellegrini
 Mario A. Pellegrini
 Lawrence Joseph Perett
 Caesar Peruzzi
 Bernice M. Peters
 Georgie Mary Peterson
 Jessie A. Petrelli
 Mary R. Pica
 George C. Pilalas
 Melio F. Pinzari
 Dorothy Pitman
 Elizabeth Anne Pompeo
 Evelyn Virginia Pompeo
 Kathryn M. Pratt
 Harold Thomas Prout
 Elaine Provost
 Janet W. Purdon
 Frank Purpura
 Robert G. Quilty

Helen R. Quinn	Isabella Hutchinson Stunkel
Helen Mary Ranberg	John Lawrence Sullivan
Ruth Veta Rappaport	Doris Elvina Swanson
Aurora C. Reggiannini	Elizabeth Adele Sweeney
Leona P. Restelli	James I. Sweeney
Angelo A. Ricci	Anna M. Taylor
Genevieve M. Ricciutti	Arthur C. Taylor
Thomas C. Richardson	Charles Testa
Burton C. Richmond	Louise Thomas
Milton A. Riedel	Alfred Matthew Thompson
Lillian J. Rintamaki	A. Francis Thompson
Rosella Margaret Roach	Margaret E. Thomson
Eleanor M. Rogers	Annie M. Thorne
James Russell Ross	Sylvia Thorner
Peter J. Rotunno	Mina Barbara Timcoe
George Cameron Russell	John Edward Tirrell
Sulo O. Ruuska	Tyenne Elizabeth Torvi
Mary Loretta Sacchetti	Edwin Deslauriers Joseph Town-
Violet Geraldine Sacchetti	send
Dorothy Mildred Sadlier	Claire Treco
Milton L. Saffer	Waldo Trescott
Paula S. Salonen	Mary J. Duane Tuck
Mary Salvucci	Pauline Claire Tully
Mary V. Sanborn	Norma T. Tuomala
Joseph R. Sanfilippo	Ilda K. Tuori
Alden W. Sanford	Dexter S. VanBibber
Gertrude E. Sawyer	Edward Lakin Van Buskirk
Mary E. Scannell	Eunice Erma Vanelli
Eleanor Isabel Scavo	Florence C. Veno
Isadore Schwartz	Walter M. Vincent
Stephen William Schofield	Taino L. Virta
Irving S. Scларenco	William Ernest vonBerg
Eileen Louise Scribner	Edith Wainhouse
Edgar Fuller Sewell	Helmi E. Wainionpaa
Kay Eleanor Shallow	Esther Louise Wallin
Sidney Shapiro	Gertrude E. Wallin
William Allard Shaw	Irma A. Wall
Helen Louise Shea	Eleanor Elizabeth Walsh
Helen Patricia Shea	James Richard Walsh
Marie Claire Shea	John Patrick Walsh
Dorothy Eloise Shepard	Marilynn B. Walsh
Ralph F. Shepard	William Allen Wardwell, Jr.
Alice C. Sherriff	Alexander Watt
Amour M. Shiffler	Irene Doris Watts
Jeanne Adeline Shiffler	Sylvia F. Weiner
Helen V. Siltanen	John H. Welch
Sydney William Skoler	Norman A. Wennberg
Mildred M. Smith	Eleanor Weston
Rachel Miller Smith	John Joseph Whalen
Robert Strange Smullen	Jean Bennett Wilcox
Attilio T. Solmonte	Dorothy Edith Wilks
Evo Somontes	Andrew Will
Richard E. Spencer	Frederick Orrie Williams
Claire E. Spinney	Kay Valentine Wilmath
Ethel T. Steele	Mary Louise Woodaman
Ida Sheila Stern	John Kidd Young
James J. Stevens	Nicholas Louis Zarelli
Thomas A. Stevens

3. Trade School

JUNE, 1936

31

Auto Mechanic Department

Semon Babaian	Clarence J. Lind
Joseph J. Daniels	Joseph J. Mackiewicz
Arnold S. Hopkins	Arthur W. Staples, Jr.
	Howard C. Treco

Cabinet Making Department

Gildo DiBona	Raffaele P. Pompeo
Olaf Harold Thomas Pedersen	Gino Sacchetti

Electrical Department

Marshall O. Lane	Stanley Popowitz
Donald Russell MacDonald	Edward Louis Schneiderhan
Dean J. McGowan	Americo Paul Volpe
	James Wilson

Machine Department

Karl Hamlin Benner	Donald Ross MacLeod
Robert Minor Goward	Torey T. Montesi

Pattern Making Department

Alfred John Feroli	Thomas L. Johnson
	Frederick I. Porter

Plumbing Department

Frank Infusino	William J. Mathieson
Walter H. Litchfield	William J. Mitchell

Sheet Metal Department

Carmelo Fabrizio	Ernest A. Hayden
